

THE OMAHA DAILY BEE.

E. ROSEWATER, EDITOR. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily Bee (without Sunday), One Year, \$4.00...

White President Roosevelt has no legal authority to take any action in connection with the anthracite coal strike...

route in case a perfect title can be secured, as to which there seems to be no doubt. It is expected that a vote on the question will be reached in the senate within the next week or ten days.

Mr. Harriman's Plan

Mr. E. H. Harriman, the head of two great transcontinental systems, has expressed in a public interview the opinion that a large number of able railroad men...

STATEMENT OF CIRCULATION. State of Nebraska, Douglas County, ss.: George H. Tschuck, secretary of the Bee Publishing Company, being duly sworn, says that the actual number of full and complete copies of the Daily, Morning, Evening and Sunday Bee printed during the month of May, 1902, was as follows:

It appears that in the law creating the department of labor the commissioner is specially charged with authority to investigate the causes and facts relating to all controversies and disputes between employers and employes...

These summer schools have been of very great advantage to the cause of Indian education and are therefore entitled to every encouragement.

A GREAT LIGHT APPEARS.

Indiana Democrats Turn from Darkness to the Dawn. The democrats of Indiana have gone up towards Damascus and seen a great light.

GO WAY BACK AND SIT DOWN.

Minneapolis Times: Mr. Bryan has heard from Indiana by this time and it is fair to presume that Indiana will hear from Mr. Bryan very soon.

Local merchants should make the most of the enlarged train service out of Omaha. What North Sixteenth street needs is a new pavement rather than constant patching and repatching.

MERCERITE SHARP PRACTICE. Three weeks ago the republican committee of Washington county issued a call for a delegate convention to nominate elective candidates to the county ticket and appoint delegates to the state, judicial and senatorial conventions.

According to the publicity department of the "railroads of Nebraska" those public-spirited institutions have always been eager to bear their share of the burden of government.

DETHRONING KING COAL.

Metkuen's Double Halo. Philadelphia Press. Lord Metkuen is sure of fame in two respects. He was the first British general to get licked and the last to get captured.

PERSONAL NOTES.

Several eminent local statesmen of St. Louis have taken French leave of the town and scooted for shelter in other climes.

With all the Shriners assembled at San Francisco the Occident will be temporarily transferred into an Orient. Ex-Senator Allen still persists in booming Bryan for governor without waiting either for his aid or consent.

THE DISCUSSION OF ROUTES. The argument made by Senator Hanna on the isthmian canal question has undoubtedly made a favorable impression upon the country in behalf of the Panama route.

FOOTING ALL THE BILLS. St. Louis Globe-Democrat. Mr. Bull understands himself to be the victor, but will have to put his South African farm in order at his own expense.

POSSIBLE SUBSTITUTE OFFICIALLY ANNOUNCED IN FRANCE.

New York Times. We have in this country various kinds, such as cotton, oil and steel, but we have only one tyrant-coal. The industry, the commerce, the home comfort of the whole nation are at its mercy.

COMFORT FOR THE FEEBLE-MINDED.

San Francisco Chronicle. It is announced that the British authorities have introduced ping-pong into the wards of poor-houses for the purpose of affording the inmates an easy and innocent amusement at a small cost.

Why worry about the possible consequences on Wall street of the death of J. Pierpont Morgan? If that financier is as astute as he is credited, he will organize a company to protect all his other interests against that emergency.

UNASSURABLE OBSTACLES. St. Louis Globe-Democrat. A contemporary is satirical on the subject of good crops under a republican administration. The country had good crops under the last democratic administration, but somehow the souphouse tariff and the rest of the misdeeds and general incompetency beat the bounties of nature.

LOOKS LIKE THE LAST STRAW. Baltimore American. Fate has not forbore adding the last straw. An Irish horse ridden by a Yankee jockey has won the English Derby, taking the race bodily from the English scepter.

STIRRING TIMES IN THE INTERIOR.

Chicago Inter-Ocean. With Mount Redoubt, Alaska, emitting dense smoke, cinders and flames that rise for hundreds of feet and rumbling noises in Mount Teukaba, Japan, and Mount Pelee still belching and the volcanoes of St. Vincent in action, and Vesuvius due to arrive at any moment, it may be said that there is something doing in the interior of this old sphere.

Advices from South Africa are to the effect that the only opposition to the peace terms still manifested comes from a few of the Boer women who appear to be more irreconcilable than the men. The women unquestionably had much to do with inspiring and keeping up the courage of the Boers in their unequal fight.

It is impossible to say with any degree of certainty what the prevailing opinion in the senate is in regard to this question, but there is pretty good authority for the opinion that there is a majority in favor of the Panama route.

THE TWELFTH NEW YORK REGIMENT. The Twelfth New York regiment, now in camp up the Hudson near Peekskill, has among its lieutenants Cornelius Vanderbilts and Henry Rogers Winthrop, who are worth, respectively, \$7,500,000 and \$4,000,000.

ROUND ABOUT NEW YORK.

Hipples on the Current of Life in the Metropolis. A patch of real estate rightly located in New York City rivals in productive wealth the best "strikes" in the Klondike or Cripple Creek.

READ AND LOOK PLEASANT.

Brooklyn Life: Mrs. Harrington-You don't mean to say that you have no theories about the railroad getting married? Mrs. Catterston-No. I have too many children.

RAILROADS LACK ONE THING. The Courage to Deal Fairly and Squarely with the People. Chicago Chronicle. The most of what James J. Hill has to say in praise of the American railroad system and its achievements is true.

Another hotel, designed to overshadow anything of the kind in New York, is to be built on the site of the Plaza Hotel, at a cost of \$10,000,000. The greater part of this sum will be furnished, it is understood, by the Plaza Hotel, which has been purchased and with it three lots in Fifty-ninth street.
