Fears of Wet Harvest Vanish and Wheat Suffers Break.

OTHER CEREALS ALSO SLIDE DOWN

Grains Have Bad Day with Stop Rain Reports and Close Losers, While Provisions Go Quite the

Contrary.

ow as 62%c, closed weak, %2%%c down, at 2%665%c. Oats broke with the other grains and uled weak. The weather talk was the principal bearish argument, although recent kuldation for profits has had a depressing freet. The disparity between the cash price and that of July stuff helped in a small ally, but late trade was dull and July. ifter selling from 35%c to 35%c, closed weak. %2% down, at 35%c. Receipts were 121 ares.

ars. Provisions did not feel the grain influence and were pushed up to higher prices. Hogs were higher, there was a demand by shorts and little stuff was offered by the packers who control all the holdings. July pork old between \$17.50 and \$17.574 and closed \$2 up at \$17.50, July lard closed \$637% up t \$10.32% and July ribs 2% higher at 0.37%. \$4.50125.00.

Estimated receipts for tomorrow: Wheat, 40 cars; corn, 500 cars; oats, 230 cars; hogs, 21,000 head. The leading futures ranged as follows:

Grassy stuff, while selling to fill in, is trending toward lower figures from day to day as the season advances. A string of 1,474-pound fed beeves fetched \$7.40, a price fully as high as at any time this season. Other grades sold proportionally well, as compared with recent quotations.. There was very little change in the mar-ket for cows and helfers, except there is a prevailing tendency toward lower fig-ures on grassy stuff and inferior dry lot grades. Choice fed cows and helfers are free sellers at recent prices, and the less desirable lots sold today at right close to steady, at the recent decline in prices. Bulls, stags and veal calves, if fleahy, were free sellers at steady prices. Infer-ior lots, while being picked up to fill in, show weakness in demand and price. The supply of stockers and feeders was just about equal to the demand, and there was no material change in values from last wk's quotations. Favorable Crop News Incentive to

Buying Which Brenks Prices. NEW YORK, June 9.-The dullness of he trading in stocks was unrelieved today, but the inertia of prices was not quite so besolute. There was a scattering distribubut the inertia of prices was not quite so absolute. There was a scattering distribu-tion buying orders during the early trading which lifted prices slightly. The demand during the rest of the day. News of weather conditions favorable to all of the crops seemed to be the cause of the buying, which was most prominent in Atchison. That stock and St. Paul were current all day of a coming settlement of the strike and operators in stocks professed satisfaction over the small effect of the soft coal strike. Reading's gain reached a point. The fise of 1½ in Hocking Valley was appar-ently due to the fact that the labor trouble bad not affected its territory. Sugar had the benefit of a rise in the price of the refined product and of hopes of an agreement of Cuban reciprocity st Washington. The raising of the dividend rate of the slightest animation, but such sluggish ad-tonks. The market never showed the slightest animation, but such sluggish ad-vances as took place were due to these

The raising of the dividend rate of the Chicago, Minneapolis, St. Paul & Omaha, following that on the Chicago & Northwest-ern kindled hopes of increases in other stocks. The market never showed the slightest animation, but such sluggish ad-vances as took place were due to these causes. The money market showed a hardening tendency, rates for time loans advancing to 4½ per cent, and money lenders expressed the belief that call loan rates would shortly advance.
