WHEAT, CORN AND HOG PRODUCTS GAIN

Oats Are Inert and Close Unchanged, While Fair Advances Are Made in Other Cereals and

Provision Pit.

CHICAGO, June 10.—There was a fair built force to the rather duil grain markets today, in spite of a number of early learnish influences. There was an early sag all around, but support and manipulation overcame the depression and July wheat closed 1445c higher, July corn 1465c up and July oats unchanged. July provisiona ilosed 2445c to 5c higher.

Warm, dry weather and lower cables that indicated improving weather abroad depressed wheat at the opening. Outside markets also were weak. Trade was not inclined to do much one way or the other and, as usual on government crop day, assumed something of a waiting attitude. The crop report was expected to show considerable improvement over last month's figures and some of the crowd started to anticipate its bearish effect by selling. This was true in outside markets and in several cases the pits were over-sold. Minneapolis started a reaction. There was some fair covering, and elevator interests did some wood buying. July wheat after opening 145 fac to 1456c lower at 7056004c, advanced to 7146014c. A large decrease in the world's visible supply—4500,000 bushels—decreased northwestern receipts and the northwestern strength held prices rather steady for some time. July closed slightly firmer, 15c higher at 71460114c. Receipts, 2 cars, 2 contract; Minneapolis and Duluth reported 9s. a total for the three points of 156, against 15s last week and 442 a year steady for some time. July closed slightly firmer, the higher at 7146014c. Receipts, 2 cars, 2 contract; Minneapolis and Duluth reported 9s. a total for the three points of 156, against 15s last week and 442 a year steady for some time. July closed slightly firmer, the higher at 7146014c. Receipts and the northwestern strength held prices rather provisions were way to the support of the big buil interests. Country acceptances were not so free and were reported gradually falling off. Arrivals here were liberal at 55 cars. The receipts at this point are expected to diminish soon. July dipped early to 6256c, railied to 635c a

2714c up at \$10.75. Estimated receipts tomorrow: Wheat, 25 cars; corn, 206 cars; oats, 100 cars; hogs, 36,

NEW YORK STOCKS AND BONDS.

Have Upturn. NEW YORK, June 19.—There was some improvement in the demand for stocks today and upward progress was made by prices, but the market was still dull and narrow to a degree that has not been equalled for the last two years until within a week.

There was some concentrated buying of Southern railway, which easily led the whole market in point of activity. A single commission house often ympioyed by one of the large financial interests was credited with taking 10,000 shares of this stock.

gie commission house often ampioyed by one of the large financial interests was credited with taking 10,000 shares of this stock.

There was a general expectation that the monthly crop estimate of the government which was not published until after the stock exchange closed, would make a very favorable showing of the progress of crops during May. This was a strengthening influence on all the grangers, including the southwesterns. Atchison and St. Paul were the most prominent in the movement. The grain markets themselves railled somewhat from the movement to discount the monthly report on the publication of the Weather bureau's weekly report, indicating damage to winter wheat by moisture. The reported need of rain for the cotton crop in certain section seemed to have no effect on the cotton-carrying railroads.

The recent dividend increase for Chicago & Northwestern and Chicago, Minneapolis, St. Paul & Omaha was a continuing influence in favor of the grangers.

Some special stocks were helped by individual influences, Pacific Mali on an alleged revival of prospects for the ship subsidy bill, Wisconsin Central on a faforable state crop report and the St. Joseph & Grand Island stocks on a report that the road was to be merged again into the Union Pacific system. Canadian Pacific suffered from realizing and the selling was attributed to Canadian account from the same sources as the recent active manipulation of the stock.

Today's money market was rather easy, despite some demand for call loans for stock exchange purposes and in the face of a subtreasury absemption since last Friday of nearly 1,500,000. The traders were inclined to take a hopeful view of the prospect of an early settlement of the coal strike or of the resumption of operators and earnings by the companies. There were some intimations that plans were making for an attempt to resume mining operations, but no admission could be procured of any prospect of a settlement of the sould sales, par value, \$11,900,000. United States bonds were all unchanged on

visitors by George F. Dieteris of Cincinnati, President Young then delivered his annual

address.

President Young, in his annual address, said the association and its local branches could be credited with improvements in the mercantile agency service, assisting its members in advancing office methods, reducing credit questions to a system and furnishing a fund for the prosecution of fraudulent failures, the passage of the laws in many states prohibiting the sale of merchandise stocks in bulk without notifying creditors, the formation of friendships and elevating the commercial standard of its members.

A new era, he said, was at hand, the possibilities of which no one can predict. The extension of agricultural, commercial, industrial and financial activity throughout the world has been unparalleled. We must no longer be satisfied with the limits of our local credits, but should adapt ourselves to larger fields.

local credits, but should adapt ourselves to larger fields.

Notwithstanding the advantages in our favor we have no copyright on prosperity, no certainty that our wonderful progress in international commerce will continue. Only by eternal vigilance can we maintain the advantages we have gained.

To adjust all the momentous pending questions will require the greatest wisdom on the part of our lawmakers. Concessions on the part of our lawmakers. Concessions must be made by conflicting interests for the general good. We need fewer politics and more patriotism, less sectional feeling and more Americanism. There should be no party dividing lines on questions involving the prosperity of our people or the enlargement of our commerce. We must not diminish our foreign trade, but, on the contrary, should strain every nerve to adopt a system which will steady and extend it. Commerce is the exchange of merchandise and to continue must be mutual. Depression in foreign markets is not to our advantage. The more industries of other nations flourish the greater their prosperity and the larger our purchases from them the more they will be able to buy in return. part of our lawmakers. Concession

At the conclusion of President Young's speech former Governor Crittenden of Mis-souri presented to him, on behalf of the Louisville association, a gavel made of white oak, the native growth of Kentucky. presenting the gavel Mr. Crittenden paid a high tribute to the credit men.

The annual report of the treasurer, George G. Ford of Syracuse, N. Y., showed that from June 1, 1901, to May 31, 1902, the receipts were \$13,000. The disbursements for that time were \$12,973. The total cash balance over all expense on June 1 was \$88. The trust fund, on June 10, 1902, was \$9,756. The report of the secretary, William A. Pendergast of New York, was then submitted.
