

VALUATIONS RUN RIOT DOES NEBRASKA AN INJUSTICE

Failure to Show True Values on All Property Makes Bad Showing and Causes Investors to Shun State.

(Issued Under the Authority of the Railroad Commission of Nebraska.)

The changes made in the valuation placed on different kinds of property through the state of Nebraska have been erratic and hardly explainable.

In our advertisement in Friday's paper we gave some general figures that would indicate changes in valuation that were general.

It will be noticed that while the tendency has been to report lower values on all these items, they have not been reported on a gradual decline in all cases.

Some newspaper critics who advocate a material advance in the assessment of railroad property on account of their betterment and condition and the improvement that have been made in the past ten years should carefully consider the figures given in Friday's advertisement.
