Government Crop Report Paramount of the Plentiful Bullish Factors.

GRAINS ADVANCE, BUT PROVISIONS DROP

Interest Centers in Wheat, Which Quits Up, but Packers Unload Hog Products on Shorts and Values Tumble.

CHICAGO, June 11.—Wheat pursued a zig-zag and erratic course today as a result of the bullish government crop report. Prices were forced higher and corn, aided by wet weather in some of the corn states and by a dint of more muscle by the big bulls, followed after. Slumps came on the profit-taking, but in the end July wheat was ¾@1¼c higher, July corn ⅝c up and July oats ⅜c higher. Provisions closed a shade to 37½c lower.

Other speculative markets had to drop back and give wheat place today. A good array of bullish influences was at work. Cables were higher, there was strength on the renewal of wet weather in the central and northwestern states, but most important was the government crop report. This document placed the June condition of winter wheat at 76.1, as compared with May's 76.4, when even 80 had been expected. The surprise in the report was the claim that the spring wheat area was reduced 2,811,000 acres from last year. The spring wheat condition was high at 95.4, but the sum of the report indicated a total yield for the year of about 615,000,000 bushels, as against 658,000,000 bushels last year. This at once started covering and good buying. Northwestern receipts were small, and although there seemed to be little effect on that score early, Minneapolis eventually led the bulge with sharp advances. There was an increased volume of outside business, largely on the buying side. France was bidding for stuff and the cable strength from Liverpool was largely due to the bullish French situation. July wheat opened ¾@¾c to ⅞@⅞c up at 71¾@71¾c and quickly mounted to 72¾c. At this point the fair weather southwest had some effect. Liquidation for profits was in order and prices tumbled back to 71¾c. Ultimately, however, the crop report held a bullish effect. Buying was kept up for some time after the crop and July closed firm ⅞@1¼c higher at 71¾c. Local receipts were 24 cars, 3 of contract grade; Minneapolis and Duluth reported 185 cars, making a total for the three points of 209 cars, against 153 last week and 359 a year ago. Primary receipts were 377,000 bushels, against 561,000 last year. Seaboard clearances in wheat and flour equalled 418,000 bushels. The seaboard reported 11 loads taken for export.

Corn showed good early strength when all markets were on the upturn. Support was necessary, however, when wheat broke. Weather conditions favored better prices, as did the smaller receipts. A good demand set in early, especially for the preferred options. July was somewhat erratic and nervous and prices haggled back and forth. Country advices were little better. There is sympathy of an improvement in the crop. There was no mention of the corn crop in the government report, but the weekly report stated that there was some suffering because of a lack of cultivation. July sold between 63⅛c and 62⅞c and closed firm on support, ⅜c up at 63½c. Receipts were 194 cars.

There was a slight rise in oats at the start on the bearish government report, which indicated a condition of 90.6 and a probable yield of 805,000,000 bushels. Soon, however, there was a support in the new July stuff that surprised even the friends of oats. The cash demand was good at about 45c, a good buying movement set in and there was little for sale. This influence, together with the other grain strength, soon pushed July up, and there was little or no recession on the wheat break. July closed firm, ⅜c up at 39¼c. Receipts were 93 cars.

Part of the looked for reaction after the persistent manipulation of provisions by packers came today. After yesterday's remarkable advance of 37½c for July ribs the inside crowd, led by the packers, unloaded on the shorts and a break of 37½c followed. Hogs were firm and helped in a temporary reaction, but prices again dipped and the close was weak. Commission houses advise their clients that the stuff is top heavy, but at the same time they favor the packers' game as the only place that suits their interests. July pork sold at top figures again, reaching $17.80, and closed 2½c lower at $17.70; July lard closed a shade down at $10.35 and July ribs 37½c down at $10.37½.

Estimated receipts for tomorrow: Wheat, 25 cars; corn, 235 cars; oats, 90 cars; hogs, 35,000 head.

NEW YORK STOCKS AND BONDS.

Activity Centering in St. Paul Permeates Whole Stock List.

NEW YORK, June 11.—There was a further expansion in dealings on the Stock exchange today, which was generally attributed to the resumption of activity by the newly returned leaders of the western group.

This activity centered in St. Paul. There was besides an active market in Missouri Pacific, which had no apparent connection with the St. Paul movement so far as the identity of the brokers employed would reveal it.

These two stocks ran a pretty close race for the leadership of the market in point of activity with Missouri Pacific getting rather the best of it, both in the volume of dealings and in the extent of the gain.

Just at the close the stock moved up more than 2 points over last night. St. Paul's extreme rise was 1⅞ and was not fully held. Between them the two stocks made up about one-fourth of the aggregate dealings of the day.

There were considerable dealings in other stocks, but these seemed to be more or less in sympathy and there was at the same time some selling to take advantage of this sympathetic strength. There was no evidence that any considerable outside following was attracted to the movement. The advance was made in the face of a feeling of disappointment over the monthly crop bulletin issued last night by the agricultural department.

The dominant importance of the corn crop this year was emphasized, and it is considered that this importance will be a force from this time forward. The argument was heard that an increase in the dividend on St. Paul is likely from the analogy of the increase in Chicago & Northwestern dividends. The strength of Missouri Pacific caused renewal of the rumors that the long expected plan for the consolidation of the Gould railroad interests into one corporation was being perfected. No warrant for either of these reports could be secured in any quarter of authority.

The coalers were comparatively neglected, but were firm owing to the current assertion that the striking miners were likely to yield the contest soon. Nothing more was heard of plans for a compromise of the contest.

Call money was easy, notwithstanding some increased demand for stock market purposes, but rates for time loans are firmly held. Rather than make concessions to place money on time bankers prefer to keep their funds in call loans, where they are easily accessible for any future increase in rates. The time for the approach of the semi-annual settlement period induces a cautious policy in the money market. The stock market closed dull and irregular.

Prices of bonds advanced. Total sales, par value, $1,890,000. United States bonds were all unchanged on the last call.

Foreign Financial.

LONDON, June 11.—Money was in good demand today and there was a fair supply. Discounts were weak. Business on the Stock exchange was rather dispirited. The settlement progressed satisfactorily. Consols were fairly steady. Home rails were irregular. Americans were cheerful, but there was a little movement from parties. They closed firm. Grand Trunks were lower on traffic returns, being below expectations. Kaffirs were quiet and closed easier. The amount of bullion taken into the Bank of England on balance today was £26,000. The sum of £20,000 was withdrawn for shipment to South Africa. Gold premiums are quoted as follows: Buenos Ayres, 132.90; Madrid, 36.20. Gold premium at Rome, 1.90.

PARIS, June 11.—Three per cent rentes, 101f 10c for the account. Exchange on London, 25d 22c for checks; Spanish 4s closed at 90.77. Prices on the Bourse today opened irregular. Kaffirs were heavy, owing to the proposed increased taxation of South African mining properties. Thomson-Houstons were in demand. Turks rallied; industrials were freely offered. Foreigners receded. Metropolitans were weaker; Rio tintos were heavier; Debeers were weak. The private rate of discount was 2 1-16 per cent.

BERLIN, June 11.—Exchange on London, 20 marks 43½pfgs. for checks. Discount rates, short bills, 1¾ per cent; three months' bills, 2¼ per cent. Prices on the Bourse today opened dull. Later they recovered in connection with the improvement in locals and closed undecided. Internationals were quiet. Canadian Pacifics were easier on New York advices.
