higher. Provisions were pushed down in most products and closed 7½c higher to lice lower.

Wheat opened buillish, with little news upon which to argue strength. Cables were indifferent, but receipts were small. There was more wet weather in several localities in the west and there was continued talk of reduced stocks. Cash demand, however, amounted to very little. Yet the crowd felt buillish and bought. This worried the fairly good-sized short interest, and July after opening \$40\foralloc{\text{Not}}{2}\$c up, at 750\foralloc{\text{Not}}{2}\$c, advanced to 76\foralloc{\text{Not}}{2}\$c. There was still some *x-citement in Minneapolis and prices there advanced. Later the Liverpool cables reported an advance in English futures on bad weather. French markets also were higher. The market was not destined to broaden, for on the advances the leading elevator interest that has been builing July and selling September turned tactics, giving activity to the further deliveries and depressing July. The crowd tailed after and July weakened somewhat. The close was rather firm, July \$40\foralloc{\text{Not}}{2}\$c up, at 72\text{\text{Mot}}{2}\$\text{U_c}\$c. Receipts were 15 cars, one of contract grade. Minneapolis and Dulut reported 164 cars, making a total for the three points of 179 cars, against 256 cars last week and 486 cars a year ago. Primary receipts were 250,000 bushels, compared with \$2,000 busheles. The seaboard reported 20 loads taken for export.

of 179 cars, against 296 cars last week and 446 cars a year ago. Primary receipts were 250,000 bushels, compared with 482,000 bushels last year. Seaboard clearings equalled \$77,000 bushels. The seaboard reported 20 loads taken for export.

Corn was dull, but firm, all day. The trade neglected this pit, but the strength in wheat and small acceptance offset the favorable weather, so that much support by the big buils was not necessary. The local crowd favored buying deferred futures. Prices advanced at the opening, but when wheat tost of its strength, corn cased and July closed steady, \(\frac{1}{2} \) to higher, at \(\frac{1}{2} \) to early closed steady, \(\frac{1}{2} \) to higher, at \(\frac{1}{2} \) to early the argument that although receipts were liberal at \(\frac{1}{2} \) cars, the percentage of contract grade was small. Crop reports are not particularly bearish, especially those from lowa and Illinois.

Outs had the exciting pit of the floor. Shorts covered briskly early, there was a strong demand from commission houses and as there was little pressure to sell July new jumped from \(\frac{1}{2} \) were very light at its cars, with very little stuff contract grade. The cash demand was steady. Profit-taking on the advance was pientiful and eased the demand so that much of the advance was lost. There was however, marked independence to the pit and July new closed firm \(\frac{1}{2} \) cup, at \(\frac{1}{2} \) core. It suited the packers' interests today to push provision prices down. Hogs were weaker and the natural conditions favored a break, but after a little dip at the opening the packers took up the offerings and again advanced prices. There were a few shorts in ribs who covered and caused an upturn, but after that was over the packers found the pit so duil that they capid not unload pork or lard on anyone, save at lower prices. July pork siumped to \(\frac{1}{2} \) and closed to down, at \(\frac{1}{2} \) on \(\frac{1}{2} \). Estimated receipts tomotrow: Wheat, \(\frac{1}{2} \) cars; corn,

STAGS. STOCK COWS AND HEIFERS. STOCK CALVES. STOCKERS AND FEEDERS.

HOGS—The market today was just the reverse of that of the last several days. However, the supply was limited. Closing prices yesterday were weak and the opening this morning allow and fully 5c lower all around. Buyers were slow in getting to work and until a late hour but little trading was accomplished. The greatest weakness was on the inferior light mixed lots, but best grades ruled off from the beginning.
