

BENNETT'S QUALITY BARGAIN PAGE

For several reasons this gigantic trading center finishes a record-breaking week of sale successes and satisfaction. The assurance of work well done and the approval of a growing army of satisfied customers inspires zest and determination to accomplish even more during the coming week. Never were we in better shape for handling an immense volume of business than we are now. Never were our stocks more select and complete. Never were any prices more bargain struck. Never were our prospects for immense merchandising more assured. Our Mr. D. J. O'Donahoe has just returned from an extended tour through the Eastern markets. He reports great enthusiasm on the part of manufacturers and importers because of the unbounded prosperity of the country. Copious rains and fructifying conditions and the world's established peace all contribute to the prospect of a FALL prosperity unparalleled in the history of the nations. So confident are those manufacturers and importers that they have closed out to us several enormous parcels of women's ready-to-wear garments, including waists, dimity, linen, foulard and crepe suits at prices positively way beneath cost of production. This they have done in order to make room for fall goods, have money on hand and so be equipped for an enormous business. Our mid-summer purchases effected by Mr. O'Donahoe are being daily received. We want you to come and see the latest, newest and best in these lines. They are the most up-to-date in daintiness and chic of any mid-summer creations yet offered from the hands of the renowned modistes of that hub of the world's fashion's, 5th Avenue, New York. Every advantage that our spot cash purchasing power has given us is in plainest proof in and through every price we quote. Come tomorrow.
