an approximate of 147,000 men to 100,000.

The operators say they will not attempt to resume the mining of coal at all colto be on duty every day the mine is open.

Both Sides Equally Confident. WILKESBARRE, Pa., June 14 .- Today finds the fifth week of the anthracite coal miners' strike. Neither side has weakened is a soft, clinging stuff that every- an inch and each side stands just as firmly

> As the days go by it becomes more apparent that it is a case of the "survival of the fittest." Neither the miner nor the operator has anything further to propose, and if a solution of the dispute is to come it looks very much as though it will have to come from a third party.

The entire region was quiet today and the territory affected by the strike presents a Sunday-like appearance. Including those who are not on strike, but are affected by the suspension, there are approximately 165,000 men and boys idle. The efforts of the strike leaders to bring out the fire bosses is not meeting with as much success as they expected.

President Mitchell today received advices from West Virginia which, he says, are extremely favorable to the strikers. One telegram from the Kanawha and New River districts, where a total of 13,000 men are employed, says that 12,500 men are on strike in that territory.

REMANDED TO PRISON FOR FEW DAYS

Accused is Native of Australia, Citizen of Ireland and Member-Elect to House of Commons from Galway.

LONDON, June 14.-Bow street police court was crowded this morning when the investigation into the charge of high treason brought against Colonel Arthur Lynch, formerly of the Boer army, was begun. Lynch, who was elected member of Parliament for Galway in November last, was arrested at New Haven Wednesday, upon landing in England. Mrs. Lynch and

other friends of the accused were present. The solicitor general, Sir Edward Carson, in opening for the prosecution, alluded briefly to Colonel Lynch's Australian birth, | o co his residence in Paris and his departure thence to the Transvaal in January, 1900. "The case for the prosecution," said Sir Sox 807-Office 30-37 Douglas Block.

Edward, "will be that on arriving in Opposite Haydens, Omaha, Neb. Transvaal government, raised a regiment, of which he acted as commander, to fight in behalf of the Boers and actively fought against General Buller's operations.

"Mr. Lynch was in Pretoria January 1 1900," the solicitor continued, "and wrote to the Transvaal authorities notifying them of his desire to take up arms. January 18 he signed a field cornet's certificate, describing himself as an Irishman, a British subject and born in Australia, but declaring his willingness to fight for the South African republic in order to maintain and defend its independence.

Takes Oath of Allegiance.

"Lynch also took the oath of allegiance as a full burgher, the certificate enabling him to do so as well as accept a commission from the Transvaal government Lynch then raised the so-called Irish brigade, joined the invading army in Natal and issued an appeal signed 'Arthur Lynch colonel, Irish brigade,' inviting Irishmen to assist the two republics."

Hon. Charles Russell, second son of the late lord chief justice, Baron Russell of Killowen, in behalf of the defendant, said that Lynch had faced the proceedings like a man. What he had done had been done openly and he desired to facilitate the inquiry as much as possible.

After the police had furnished evidence of the prisoner's arrest he was remanded to June 21. During the course of this evidence Detective Inspector Walsh testified to finding in Colonel Lynch's possession a visiting card of Hamilton Holt, "introducing Colonel Lynch of the Boer army to three Americans, A. S. Hardy, United States minister at Berne, Switzerland: Herbert W. Bowen, United States minister to Teheran (now minister to Venezuela), and Prof. Richardson of the American school at Athens," and some testimony has been presented regarding Colonel Lynch's presence
