WANTED-MALE HELP.

# The Van Sant School SHORTHAND

## and **TYPEWRITING** 716, 717 and 718

NEW YORK LIFE BUILDING.

Well educated young persons who wish to thoroughly qualify themselves for positions as stenographers or stenographer teachers are requested to call at the yan Sant School or Shorthana. The school makes a specialty of the thorough equipment of its students for business life, and its graduates are commanding the highest salaries paid to the students of any school in Omaha. Several of the lady graduates are receiving from \$70 to \$100 a month, and one lady is receiving \$3,00 a year. Its young men are filling an kinds of positions from amanueness to official court reporter. In deciding upon what school you will attend remember that thoroughness is of more importance than to be rushed the outling to get the best places. The school has a special demand for young the mestives for railiond work.

Trial week free. Money refunded for unsupired time if students are not perfectly satisfied, or if for any reason they with to leave the school. Well educated young persons who wish

satisfied, or if for any reason they beave the school.

If you wish to attend a square, up-to-date school that will deal honestly with you, call at the Van Sant school, seventh floor of the New York Life building.

WANTED-MALE HELP.

## SUMMER SCHOOL OF EIGHT WEEKS

### AT THE Omaha Commercial College 17th and Douglas Streets

Begins Monday Morning, June 23. For Public and High School pupils,

For teachers desiring review.
 For those desiring to become stenographers, bookkeepers and telegraph

PUBLIC AND HIGH SCHOOL PUPILS. PUBLIC AND HIGH SCHOOL PUPILS.

We shall make a great specialty of Grade Work from the Fourth to Eighth, inclusive, also give special attention to any High school branches desired. Last year our summer school was an unqualined success, there having been more pupils enrolled at the Omaha Commercial College in grade work than in all the other special summer schools in the city combined. This year our enrollment promises to be larger than ever. The work done last year was the best we have ever done, all pupils who attended having, with but few exceptions, accomplished the work undertaken. Certificates of recommendation for promotion will be given to students in the respective grades according to work done. Special attention will be given to Mental Arithmetic, Business Correspondence, Plain Business Writing and Spelling, in addition to regular grade work. The Vertical system of writing will be taught to all pupils from the public schools. Tuition, one week, \$1.00.

PROF. W. H. ALLEN

Of the city schools has been secured to take charge of all grade work. He will have eight able assistants.

BUSINESS COURSE.

BUSINESS COURSE. Many or all of the business branches may be had during the summer term at specially low rates. Bookkeeping, Commercial Law, Office Practice, etc., will receive special attention.

SHORTHAND AND TYPEWRITING.

We are simply overwhelmed with calls for stenographers. It is impossible to supply old customers, much less new, and we must in some way increase the supply. We need 100 more students to get ready for positions in the fall, and therefore have concluded to cut our rates in two for this Special Eight Weeks Term. If you ever dreamed of becoming a stenographer now is the time to realize it. We can give you the best opportunity you ever had. Call or send for particulars.

ELEGANT NEW QUARTERS.

We can boast of the coolest, best equipped and most convenient quarters to be found. We have the finest school rooms in Omaha for a summer school. It will be a pleasure to spend a few weeks with us. Visit our rooms and you will find the above to be true.

#### SALESMAN WANTED.

WANTED—Five traveling salesmen, one department manager, one advertising manager, one superintendent of travelers, one manager collection department. Popular line, legitimate merchandise, factory to merchant. Want bright, aggressive men. Experience in line not essential. Address, James Guenther, Schiller Bidg., Chicago.

A Business Proposition. OPFERING INVESTORS AN OPPORTUNITY TO SECURE LARGE PROFITS A GREAT MINING, TUNNEL AND TRANSPORTATION ENTERPRISE. Magnolia Mountain is one of the oldest gold mining districts in Colorado and has been noted for years for its rich deposits of high grane gold ores. Its surface is covered with mines that have produced some of the richest mineral ever mined in the state, and the entire mountain is seamed and fissured by veins and dykes of wonderful richness.

ful richness.

THE SYLVANITE DEEP MINING AND TUNNEL COMPANY has been organ ized for the purpose of driving

A GREAT CROSS CUT TUNNEL into the heart of the mountain, to cut at a great depth these rich veins and deposits of gold-hearing ore. The length of this tunnel will be 3,000 feet. A large portion of the ground is virgin territory held and controlled by the tunnel location. In its course this tunnel will intersect over twenty well defined and valuable veins at a depth of from 700 to 1,000 feet below the surface, insuring an enormous production of ore.

DEPTH OF THE ORE DEPOSITS. The depth of the ore deposits in this district has been fully demonstrated. It is admitted by expert miners who have had experience in and are familiar with this locality, that richness and width increase with depth, and that there is no high of "pinching out" in the ledges. The weight of expert testimony is absolute on this point; they all unite in stating that far greater and richer deposits lie below the survice; that at a depth of 1,000 feet it will be found that the ore is still there and richer and wider at the greater depth than at the surface. It is believed that before 1,000 feet are reached the tunnel will pay enormous dividends.

To base an estimate on the amount of ore already produced from the shallow workings of the mines on Magnolia Mountain and also the width of the veins it is safe to assume that more than 1,500,000 tons of ore will be tributary to this tunnel when completed. The veins that will be cut in driving the tunnel 3,000 feet will, it is believed, easily produce SIXTY TONS OF ORE FER DAY, OF AN AVEHAGE VALUE OF 340 PER TON. Allowing 50 per cent for mining, shipping treatment and other expenses, there will be left a daily net profit of \$1,200, or \$300,000 per annum beside the profits derived from the great bodies of low grade one.

ANOTHER LARGE SOURCE OF REVENUE

ANOTHER LARGE SOURCE OF REVENUE will be derived from draining the water and transporting the ore from the mines along the route of the tunnel. One of the greatest difficulties encountered in this district has been from the great quantity of water, which has made mining through the shafts very expensive and in some cases impossible. The Sylvanite tunnel when extended under these wet mines will drain them effectually and economically, and be the means of opening up many rich proper ties that have been forced to shut down on account of the great expense in hoisting and pumping water. The tunnel will enable these mines to be worked at a good profit and afford this company a steady income for handling the ore. Conservative estimates fix the earnings from drainage and transportation at \$600 per day. Some of the veins will be cut in such a short distance that they can be utilized as a source of income while driving the latter part of the tunnel.

#### FINE WATER POWER.

This company proposes to utilize its magnificent water power on Boulder creek at the mouth of the tunnel, and erect an electric power plant in order to drive the tunnel forward as rapidly as possible. At least 30 horse-power can be generated all the year round. With this power properly hitched to machine drills, not only can the tunnel be driven, the veins cut and opened, and the ore mined expeditiously, but the cost of driving the tunnel, opening up the veins and breaking down the ore, reduced to 50 per cent below the usual cost of the old method of mining.

We believe a careful examination of the ground and the general plan of this company will-convince any man that in the whole range of business enterprises, nowhere can one be found of more merit or more worthy of public confidence.

THE STOCK OF THE COMPANY IS NON-ASSESSABLE, AND THERE IS NO PERSONAL LIABILITY OF THE INDIVIDUAL STOCKHOLDER for corporate debts. Every safeguard which the best and most intelligent legal action could throw around the organization has been taken. Each stockholder, whatever the amount of shares he may hold, may feel absolutely safe that his hoidings are as carefully guarded as those of the largest investor in the enterprise.

The company is free trum debt, and the directors are firmly resolved that no expense shall be incurred beyond the limit of the funds on hand.

WHY WE OFFER \$1.00 SHARES FOR 20 CENTS.

The tunnel can now be driven only about one foot a day by hand; with electric power drills, four and five feet can be run every twenty-four hours. In order to raise additional funds to build the power plant and drive the tunnel it has been decided by the company to place THE FIRST ISSUE (50,000 SHARES) of its treasury stock on the market DURING THE NEXT SIXTY DAYS AT TWENTY CENTS A SHARE.

No applications received for less than 100 shares. The Sylvanite Deep Mining and Tunnel Co. BOARD OF TRADE BUILDING, OMAHA, NEB.

We invite the fullest investigation of t his proposition and will pay the expenses of anyone purchasing 2,500 shares or more to visit the property, and if not fully satisfied in every respect, money will be promptly refunded.
