Some of the Republican Candidates Reach Lincoln and Open Headquarters.

LANCASTER FUSIONISTS DEMORALIZED

Governor Savage Expresses His Views on the Question of Railroad Taxation and is Glad the Mandamus Was Brought.

(From a Staff Correspondent.) LINCOLN, June 14 .- (Special.) -- The first immediate signs of the approach of the republican state convention were visible at the hotels today. Some of the candidates have arrived and prepared to open headquarters Monday and others are expected to morrow. Chairman Lindsay has been at the committee headquarters making the necessary arrangements for the meeting. "I look for a big convention, in fact, an

unusually big one," said Mr. Lindsay. There are 1,084 delegates and I have received assurances that nearly all of them will be here."

The committee has arranged to give each delegation one-half as many spectators' tickets as there are members of the delega-These tickets have already been apportioned and are at the state headquarters, where they will be given out when demand is made for them.

Fusionists Demoralized.

The demoralization of the fusionists of Tancaster county was painfully apparent this afternoon, when a few of the faithful got together in the Auditorium to nominate candidates for county offices and for the but nominated no candidates.

The democrats met in one side of the hall and the populists in the other. Each little gathering was presided over by a "chairman," and a permanent organization in miniature was effected.

In the populist crowd a resolution was introduced by A. E. Sheldon, declaring ment, but was speedily tabled. The delegation named by the populists is unin-

A little interest was injected into the duced a resolution directing attention to United States senate, by directing Senator Dietrich to sit down prevented the senator from "standing up for Nebraska."

Resolutions were carried in both conventions to meet again on September 12, when, is understood, another effort will be made to nominate a set of candidates.

Governor Renews Objection.

Governor Savage has renewed his objections to the prison labor contract recently made with the Lee Broom and Duster company by the State Board of Public Lands and Buildings and has informed a member of the board that if the agreement is not withdrawn the warden will be instructed to discontinue the service.

The governor and Secretary Marsh discussed the case this morning and the former asserted vehemently that he was not satisfied to let the matter rest. He said ject it to a legal test.

The Board of Public Lands and Buildings will probably allow the governor to take the initiative. With the exception of the governor all of the members voted for and signed the contract and thus far bave shown no disposition to have it annuled.

Savage on Railroad Assessment. Governor Savage this afternoon gave out a prepared interview in which he discusses and defends his position on the railroad assessment matter. Among other

things he says: "To be frank about it I was much better satisfied with the original answer of the Board of Equalization in the Rosewater mandamus case than with the amended Prof. George A. Condra, head of the bioone. My position on railroad taxation is pretty well known to the people of Nebraska. I believe that every interest in the state should pay its just proportion of the taxes and the more I study the question, and I have studied it many long. weary hours, the more I am satisfied that some of the railroads of Nebraska are not and have not since 1892 been paying their

full share of the taxes. "I did not agree with the assessment this year. I contended that if the railroads were paying their just proportion of taxes in 1890, which was about one-sixth of the total for the state, and I have reason to believe that they were then satisfied, allowing this to be true and that all other property of the state has increased in proportion to the railroads and the fact that the total assessment has been decreased

the railroads would be entitled to one-sixth of that decrease, whereas they have been decreased about \$3,500,000, or about onethe prospect that the assessment of other property in the state will be increased ome millions of dollars this year, as it have been justified in increasing the railroad assessment at least \$1,700,000 and so expressed myself at the board meeting and f still think that when the returns are all in they will prove the justness of my position. In the face of the fact that our state indebtedness is now about twenty times our constitutional limit and still increasing, even with economical administration of state affairs, it is very evident that there is something radically wrong and that some classes or all are not paying state tax enough. The mandamus sult is all right, as it will most likely settle a much disputed question. I did not at the time of the meeting of the board and do not now believe that the statutes of Nebraska provide any way for ascertaining the value of franchises. I am in favor of taxing franchises the same as any other property of value, but the question is, how is the board to find out the value of them? Our first answer stated the fact that we did not masess the railroad franchises and we asked the court to place a construction upon the constitution and laws and lay lown a reasonable rule for following them. believe the board did its duty as far as the franchises are concerned, as far as it understood the laws and as far as the laws

"According to the latest reports on file the railroads of Nebraska are worth \$253,-000,000, which, I understand, includes the value of the franchises. My understanding of a franchise is this: Suppose a cerlegislature. They elected delegates to the tain railroad company has a line 100 miles state conventions, adopted a few resolutions long, and that it would require \$2,000,000 and discussed a few miscellaneous matters, to duplicate it. Now, supposing that road has issued bonds to the amount of \$1,750, 000 and stock to the amount of \$1,500,000 more, and that the stocks and bonds are selling, on the market at par. That railroad is worth \$3,250,000, yet it could be rebuilt complete for \$2,000,000. The additional \$1,250,000 is the value of the franchise, an intangible something, but neveragainst a continuance of the fusion arrange- theless a valuable something because people will pay their money for it. It is the railroad's right to do business as a common carrier, to occupy a certain narrow strip of land for the railroad right-of-way. The governor concludes his statement with the following: "As governor I have proceedings by J. A. McNerney, who pro- tried earnestly and conscientiously to do my duty. I have kept close watch on the the fact that the presiding officer of the various matters which come under my supervision and I believe there was never a time in the history of the state when the a kindlier construction on this phase of my administration, feeling that no matter what others may say, my conscience is clear.

Reward for Murderer.

Governor Savage this afternoon issued a proclamation offering a reward of \$200 for the arrest of the murder of 15-year-old Waltermer Harbold. The boy was killed on the morning of June 12 while passing along the road just south of Grand Island.

He resided in Campbell. Acting under instructions from the board uations of \$300,000 against the Lincoln Electric company.
