

EXPERIMENTS

Are almost always accompanied by a large element of risk. Experimental propositions are met daily, only a few of which, however, prove successful. It therefore behooves one in deciding momentous questions, to avoid the experimental and accept that which is acknowledged the standard.

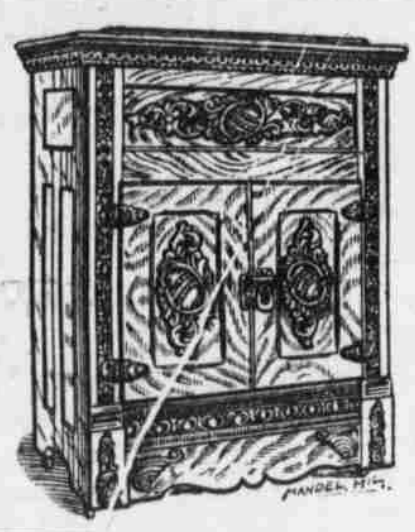

Do you intend purchasing some household goods? If so, remember that The People's store and its methods, are no experiment, having had for 18 years the approval of thousands of Omaha's householders. In trading here you eliminate all possibilities of chance.

Our fine credit system enables you to select what you want (from large assortments,) and pay as convenient.

BIG SALE TOMORROW OF KEY-WOOD & WAKEFIELD GO-CARTS
Stationary Go-Carts 2.25
Reclining Go-Carts 6.95
Reclining Go-Carts, with upholstery 9.75
WORTH ALMOST DOUBLE.
25 rolls of ingrain carpet, wool filled, new and choice patterns, worth 65c, tomorrow 37c

Sewing Rockers—oak—cane seat—brace arm—high back—worth \$2.00, on sale tomorrow, at **98c**
Dangler Gasoline Stoves—guaranteed on sale tomorrow **2.25**

We sell out of Omaha on our easy payment system.

Cramer's Kidney and Liver Cure

A PREPARATION WHICH WILL ABSOLUTELY CURE every kind of CURABLE kidney and liver trouble. We GUARANTEE the above statement. MONEY BACK IF IT FAILS. THAT'S FAIR!
Endorsed by Omaha People.
John Haman, city salesman Omaha Packing Company; G. P. Brown, 43rd and Fowler streets; Charles Marquardt, 1823 N. 13th street; Fred Koeber, N. 20th street; John Erick, Thurston hotel; George Hyde, 1815 Chicago street; John Giesingack, 3528 N. 29th street; Wm. Simpson, manager Windsor Stables; Jas. Baker, bookkeeper, McCord-Brady Co.; Lewis Boone, car Expressman's Del. Co.; John Lubold, city clear salesman for McCord-Brady Co.
Special price all this week of 87c for the \$1.00 size. Delivered in city.
Endorsed by Doctors.
Dr. Wm. P. Brierty, who is a graduate from the Albany Medical college, writes under date of August 15, 1899:
"Cramer's Kidney Cure."
"Gentlemen—in answer to your question, What do I think of Cramer's Kidney Cure, will state that I never prescribe any patent medicines for my patients. Through the kindness of your manager, Mr. Jacob Dornis, who has taken me through your laboratory, I can only say that I was surprised when shown your method of preparing Cramer's Kidney Cure, everything being carefully weighed and measured and the bottles looking nice and fresh. I was astonished and don't hesitate to say that for kidney, liver or bladder troubles I certainly ought to CURE all curable cases. Its contents are prescribed by the medical profession every day. Dr. Cramer, being an old practitioner and overseeing everything, to the best of my knowledge there are very few medicines on the market that are prepared with so much care."
OPEN ALL NIGHT.
Schaefer's Cut Price Drug Store, Cor. 16th and Chicago Sts.

Rupture and Pile Cure Company
Quickly and Permanently Cured
No cutting, no pain, no detention from business. You pay nothing until cured. Call or send for terms. Consultation free.
Fistula, Pile, Hemorrhoid, Ulcer, Bleeding, Itching and all renal diseases successfully treated. Piles cured without surgical operation.
NO KNIFE, NO CHLOROFORM.
Cure speedy, radical and permanent. Every case of piles accepted on a positive guarantee of a cure.
Omaha Rupture and Pile Cure Company,
Box 607. Office 30-37 Douglas Block, Opposite Hayden, Omaha, Neb.

FAREWELL TO HIGH SCHOOL

Class of 1902 Make Its Bow and Steps Out Into the World.
LARGEST IN THE HISTORY OF THE CITY
Cresighton-Orpheum Theater Crowded to Hear the Graduating Exercises—Members of Class Acquit Themselves Well.

It was the largest class ever graduated from the Omaha High school—150 strong—and it filled the stage of the Orpheum Friday night as though the stage had been built to accommodate them. Three more persons could not have been crowded on. Tier upon tier the bright young faces arose from the footlights and shone forth from clouds of billowy white chiffon with just a touch of masculine black here and there by way of contrast. There were 110 girls and forty boys. The motto of each organization, tastefully wrought in gaudy weaves and gilt letters, hung from the sides of the boxes and a continual crossfire of class yells, many of them improvised to suit the occasion, filled in the gaps of the program. Here is a sample:

We have to say it, But still we say it, The wonderful class of '02, Cadets Come First.
After the invocation by Rev. Robert Yost thirty commissioned cadet officers of the class, including all but ten of the boy graduates, marched upon the stage, under command of Lieutenant Colonel Arthur Kelkenney. There was no room for military maneuvers, so the young officers contented themselves with the highest marks for the last term, as follows: Edna L. Daman, 96.9; Mary L. Brown, 96.5; Minnie Hillier, 96.4; Blanche Roe, 96.5; Anna M. Dietrick, 96.5.

The first oration was "Our Neighbors," by William Phelps, the salutatorian, in which was presented a word picture of the great national powers and their relations to each other. He decried war, urged arbitration as a means of settling international differences, congratulated the Anglo-Saxon race, and turned the caucium upon the altruism of the future. His ideas were all eminently sane and his style, stage presence and strong, clear voice made an excellent impression.

Takes President for Model.
Miss Ruth Hammond's oration, "The Twentieth Century Knight," presented the modern hero in striking contrast with the Don Quixote nobleman of yore. She took Theodore Roosevelt as her type of latter-day knight, and if the president had been there he would certainly have been proud of his little champion. Her tones were beautifully modulated, her enunciation clear, her gestures few and appropriate and her sentiments well within the mental grasp of her audience.

"True Womanhood," the theme chosen by Miss Laura Congdon, was a dignified and able analysis of some of the women who have figured prominently in the world's history. Queen Victoria seemed to be her ideal. She excluded vice from the English court, said Miss Congdon, "by the example she set in her own life and by her sweet womanliness always."
The Omaha High School Violin quartet, comprising four young women of the junior class, played "Scene Chamber," and responded to a hearty encore.

Miss Lillian Dickinson, a malleto, spoke on the subject, "The Young Negro, a Factor of the Future," in which she took a very optimistic view and predicted an early settlement of the race problem. "The young negro having grasped the situation," she said, "knows and feels that nothing can curb the bright light of his intelligence. He has only to wait in silence, work while others sleep in the night, and when the morning of the future breaks in upon him he will find himself walking in a coherent atmosphere of loving friendship, admired and respected by his fellow men."
Miss Mae King, in "Orators and Oratory," assured her audience that the golden age of oratory is not dead, notwithstanding the growing power of the press. She is something of an orator herself, since the audience lost not a word of her oration.

Watson B. Smith, who delivered the annual address to the American Union, reached the parting of the ways in its onward and upward march, and in "America's opportunity" he expressed the hope that the government at Washington would not harken to the "howl of imperialism," but that it would go on "amazing the world." "Don't turn back," he cried.
The violin quartet played the Blue Danube waltz.
Miss Hillier a Favorite.
Miss Minnie Hillier was clearly the favorite of the evening. When she finished her oration on "What Shall I Do with Myself?" the applause amounted to an ovation, which she gracefully acknowledged. Her remarks were sensible and practical, the dominant thought being that the domestic art should be added to High school curriculum for the benefit of girls.

"Does it Pay?" was the subject of the last oration on the program being delivered by Miss Alta Hukill, the valedictorian. It was an earnest plea for less materialism and materialism, and more time devoted to developing the higher spiritual side of life.
N. M. Howard, vice president of the Board of Education, delivered the annual address to the graduates, admonishing them to exert their influence for good in the community and to let their lights shine as graduates of the Omaha High school.
The exercises closed with the presentation of diplomas by Mr. Howard. The seats having been removed from both Howard and the members of the class marched by him, each acknowledging receipt of the sheaf with a graceful bow.

- Members of the Class.
Following are the members of the graduating class:
- | | |
|----------------------|-------------------|
| Arnold, Marion. | March, Earle. |
| Barratt, Howard. | Mills, Elmer. |
| Buchanan, Wilson. | Moore, Clyde. |
| Christie, Ralph. | Nelson, Wm. |
| Clark, Thomas B. | Nelson, Henry. |
| Chisham, Edward. | Patten, William. |
| Coville, James H. | Pollock, William. |
| Dredson, Oscar. | Power, Perry. |
| Foster, Harold. | Smith, Walter B. |
| Friedman, Samuel. | Smith, William T. |
| Goldsmith, Walter B. | Smith, Harry I. |
| Griffin, J. W. | Smith, Walter L. |
| Grubb, Lawrence J. | Stearns, Ernie. |
| Groves, Albert C. | Stearns, Herbert. |
| Hick, Leslie D. | Stearns, Herbert. |
| Hick, Leslie D. | Stearns, Herbert. |
| Hughes, Clarence. | Torrey, Bert. |
| Kilkenney, Arthur. | Warren, Howard D. |

WASH. MATTER UP AGAIN

Proposition to Make Him Chief of Ordinance Occupies Time of Senate.

WASHINGTON, June 14.—During the greater part of Friday the senate was in executive session, the nomination of Captain Crozier to be chief of ordinance of the army being the particular subject under consideration.

The president's message urging the establishment of reciprocal relations between the United States and Cuba was received after the senate had gone into secret session. The doors were opened, the message was read and then the secret session was resumed.

The vote by which the resolutions respecting the discharge of Miss Rebecca J. Taylor from the War department was referred to the committee on civil service and retirement, was not large. The administration of affairs there, the quality and value of the public lands in Hawaii, the crown lands and the title of the former queen therein, with power to sit during the recess and by subcommittee to visit the islands, if necessary, and to report at the beginning of the next session.

Mr. Hoar proposed an amendment to the resolution providing that the committee should inquire whether the ex-queen has any claim against the United States, legal or equitable, by reason of having parted with her title. The amendment was not adopted. Mr. Mitchell accepted the amendment and the resolution was referred to the committee on Pacific islands and Porto Rico.

The senate took no action on the nomination of General Crozier.

TEAMSTERS SCENT TROUBLE
See New Outbreak in Rumored Discharge by Packers of Union Drivers.

CHICAGO, June 14.—Likelihood of another strike of teamsters employed in the stock yards increased today, when it was announced that twenty-one union drivers for Swift and Company had been discharged. No reason was given for their discharges. The action of the firm has aggravated the ill-feeling among the teamsters.

SPLIT IN NATION POLITICS
Two Divisions Spring from Choctaw Convention and Double-Header Ticket is Named.

SOUTH MALESTER, I. T. June 14.—The national convention of the Tuskahoma party of the Choctaw nation split over the selection of a permanent chairman and the following Governor G. W. Dukes, who led the convention and nominated Hon. T. W. Hunter of Caddo for governor.

REVIEW OF PROGRESS

W. A. COOK, M. D.
Discoverer of the Famous Cook Cures for Diseases of Men.

In this wonderful age the medical profession would deserve severest condemnation if the single-tree to medical science, the fundation of success—HEALTH—had been allowed to scrape the wheels of progress. When the amputation of a limb was necessary a few hundred years ago, the patient was placed upon a block and held by strong men while the leg or arm was severed by one blow with a large chopping ax. The stump of the limb was then thrust into vessel of boiling pitch and cooked until bleeding stopped; and, strange to say, the patient sometimes got well. Today, when amputation is necessary, the patient is scrubbed and cleaned until there are no lurking germs; he is placed under profound anaesthesia and is no more conscious of the operation than his friends in the next room. There is no loss of blood, and under modern methods results are, as a rule, successful. This is what we call progress.

STRONG MEN ARE SUCCESSFUL MEN

We Restore Men to Unimpaired Vitality, With Strong Body, Strong Mind, Strong Nerves, Strong Will. Few men are really as strong and vigorous as they ought to be. Hard work or worry, or the hustle of modern life, is overtaxing the resources of many. Past indiscretions or excesses and other private diseases have undermined the constitution of still others—few men are the men they ought to be. This is why the wealth of the world is concentrated in the hands of few. Except in cases of inherited wealth, the wealthy men, the successful men, are healthy men—men with strong body, strong nerves, strong will, strong mind. They are the men who have carefully observed the laws of nature and guarded their strength and health.

BE A NEW MAN

What kind are you? Have you indulged in indiscretions, excesses and dissipation, which have caused a weakness of mind and body, loss of memory, or a feeling of incapacity? Are you nervous or tired out, glad when work is over to be alone to rest? Are you naturally weak, an inheritance from weakly ancestors? Whatever the cause, this can be changed. A lifetime of study and experiment has resulted in a systematic and scientific method in the restoration and development of men to a strong, healthy, vigorous state. We make men strong—strong in every way—stronger than their fellows—strong enough to succeed in the battle of life—men who command respect and admiration and love—men who force success.

BLOOD POISON

Completely and permanently eradicated from the system in from twenty to forty days by natural means, without the use of any medicine, but leaves the patient in as healthy condition as before contracting the disease.

Gleet, Stricture, Varicocelo, Hydrocele, Piles, Fistula Permanently Cured

CERTAINTY OF CURE is what you want—free from treatment schemes. Electric belts, patent medicines, never cure this class of disease. If you have tried them you know the result.

WE GIVE A LEGAL CONTRACT IN WRITING to patients to hold for our promise, and bank or commercial references regarding our financial responsibility. Our guarantee is backed by \$100,000 incorporated capital and more than twenty-five years of successful experience.

Our charges are within the reach of all—rich and poor alike are invited to have a confidential talk regarding their troubles. No human man need go without the relief that will effect his complete and permanent cure. Consultation free. Write. Home treatment is satisfactory and strictly confidential. Address:

Cook Medical Co., 110-112 S. 14th St., Omaha, Neb.

KEEP THESE FIGURES BEFORE THE PEOPLE.

They Prove that the Champion Tax Dodgers of Nebraska Are Edward Rosewater, Bee Building Company and Bee Publishing Company.

Bee Building Company's Property, Worth \$635,000, Assessed at \$60,000—Bee Publishing Company's Property, Worth \$500,000, Assessed at \$6,900—The Bee's Taxes for 1900 Still Unpaid, Though Long Delinquent.

(Issued Under Authority of the Railroads of Nebraska.)
One of the time-honored maxims of courts of equity is: "He who comes into equity must come with clean hands." Another one equally important and guiding the conscience of the chancellor is: "He that seeks equity must do equity. Has Mr. Edward Rosewater or The Bee Publishing Company, or The Bee Building Company, done equity? Do they or either of them in seeking relief from their alleged inequitable burden of taxation, come into court with clean hands or unblemished consciences? Let us see!"

The Bee Building Company, through Mr. Edward Rosewater, its president, appeared before the State Board of Equalization and demanded that the board, in addition to imposing an assessment on the tangible property of the railroads in Nebraska, assess also their franchises, which he absurdly alleges, are of the fair value of \$200,000,000.

In its petition, duly verified, the relator, The Bee Building Company, alleges that its property is assessed for taxation for state and county purposes at about 20 per cent of its fair cash value. This complaint is a part of the public records of this state, and therefore public property.

The building of The Bee Building Company, within the city of Omaha, was, for the year 1900, assessed for state and county purposes at the sum of \$60,000.00. Its reasonable market value was and is the sum of \$635,000.00, at least; that was the valuation put on it by Mr. Edward Rosewater when he applied for a loan upon it, at a time when it was of less value than it is now. Is \$60,000.00, the assessed value, 20 per cent the actual, market or fair value? Let Mr. Rosewater answer! It is apparent that the relation of the assessed to the real value is less than 10 per cent. Mr. Rosewater, wash your hands; Bee Building Company, do equity!

The foregoing is but one illustration of inequity and soiled hands; there are others.
Another corporation with which Mr. Rosewater is closely identified is The Bee Publishing Company, occupying the building of the relator. What of the assessment of its properties? In the year 1900, that corporation owned and used:

2 presses, \$25,000 each \$50,000.00
12 linotype machines 49,000.00
Printing stock and other property 25,000.00
An Associated Press franchise 250,000.00
Total \$304,000.00

In addition to the above is that intangible property, estimated as of immense value, known as "good will," based upon name, advertising, patronage and circulation, swelling the value of The Omaha Bee Publishing Company to probably \$500,000.00.

The authorized, subscribed and paid up capital of this corporation is \$100,000.00; its actual selling value is \$400,000.00 per share, or a total of \$400,000.00. The statement of the value of the Associated Press franchise is correct, we need only refer to the sworn affidavit of Mr. Rosewater, in a case recently pending in the courts of this state, in which he says "Mr. Hitchcock has recently testified in court that he valued his U. P. (United Press) franchise at \$25,000.00, and yet he insists upon getting for nothing a franchise worth ten times as much." Mr. Rosewater ought to know and he has so testified, and we are inclined to accept his statement as true, the more because the value estimate is amply sustained by competent authority.

Now, if intangible properties of railroads are to be assessed, why not assess the intangible property of a publishing house? The constitution creates no exemption in favor of the latter. A press franchise, like the advisory board and others.
The ceremony will take place on Saturday afternoon, June 23, at 3 o'clock, to which the public generally is invited.
Yesterday there were eighty men at work, bricklayers, stone masons, team and laborers. They will have entered into the construction of the foundation when completed 600 cubic yards of broken stone, 2,500 barrels of cement and hundreds of loads of sand forming the concrete base of the walls and piers, making 750 cubic yards of concrete. This concrete base is two and one-half feet thick and runs from six to nine feet wide, according to the nature of the ground. One million brick will be used. Six teams are hauling brick, three hauling sand, two broken stone and two hauling cement. To prepare for the foundation 2,000 cubic yards of earth were excavated. As soon as the foundation walls are completed the steel posts will be placed in position and the work on the walls will commence.
