JUNE WILL BE A RECORD BREAKER

Not Much Change in Market Values, but Prices us a Rule Continue Firm -Consuming Demand Excellent for June.

OMAHA, June M.

The excursion to be held on Thursday and Friday of this week has been the all-sorbing topic in the jobbing district during the last few days. No trouble or pains are being spared by those having the matter in charge to make it the banner excursion of the season. An invitation to take part in the excursion has been extended to the Live Stock exchange at South Omaha, and according to latest reports enough will go from there to till one car. Sentiment reof the season. An invitation to the In the excursion has been extonded to the Live Stock exchange at South Omaha, and according to latest reports enough will go from there to Bil one car. Sentiment regarding these excursions has changed very insterially and Jobbers generally are taking greater interest than ever before. It seems to be admitted on all sides that personal acquaintance between the city and the country is of great advantage to all parties and ought to be encouraged.

As regards trade the situation could hardly be more encouraging. Reports from all sections of tributary territory indicate crops in general as doing well and giving promise of an abundant harvest. Such damage as has resulted from a surplus of moisture is limited to small areas and will not out much figure in general results. One thing there is pienty of green feed in the country, which means a large hay crop and ar abundance of feed for cattle. As cattle have of inte been very profitable for farmers money ought to be plentiful in the clock-growing sections of the west and trace in all insectorrespondingly good. A knewledge of these facts produces a general feeling of confidence in all departments can Jobbers seem inclined to push out for trade harder than ever. Their efforts along this line, together with the very large consuming demand in the country, accounts for the increase that is reported in the volume of sales over previous years. Prospects for trade in the grazing states were of Nebraska are most encouraging. In those states live stock has not commenced to move as yet, but it is predicted that shipments will be the heavlest in the history of the trade and that more money will be sent back from the big markets than ever before.

As was the case last week all the grocery

Grocers Very Busy.

As was the case last week all the grocery jobbers in the city are reporting a very heavy business doing and it is about all that they can manage to keep abreast of the flood of orders arriving by every mail. The orders are rot for any special line of goods, as is the case sometimes, but cover the whole range of goods to be found in stock, showing that consumers are buying because they have the money and are willing to part with it.

Nothing of any great interest has happened as regards market prices during the last few days. Shipments of the new pack of Columbia river salmon are reported on the way ard will be on the market in the near future. Dried fruits are moving along without any very noteworthy changes in the general situation. The new crop of Smyrna figs is said to be very backward, owing to cold weather and a late spring on the other side.

Ahend of Last Year.

Ahead of Last Year.

Extensive building operations in all sections of iributary territory has created an active demand for all kinds of builders' hardware and jobbers report sales running considerably ahead of corresponding period last year. Nails, paints, oils, glass and fittings of all kinds are seiling freely. There is also a very good demand for shelf hariwate of all kinds and because of this derund, which is common to the whole exuntry are well as to the west, prices generally are firm. Prospects at the present time would seem to point to an exceptionally good summer trade. Good Shoe Weather.

Good Shoe Weather.

Omaha is well supplied with shoe houses and when they all report a good business it means that something is doing. The fact that there has been all kinds of weather this spring has been of great help to retailers in cleaning up their stocks. Jobbers say that an unusually large number of sizing ut orders are coming to hand, which means that retailers are disposing of their stocks rapidly and that prospects are good for a continuance of the demand.

Traveling men on the road are all sending in the most encouraging reports and at the same time are taking many fall orders. Merchants who were a little backward abour placing orders a short time ago have evidently changed their minds and are falling into line with the balance of trade. The annourcement made some time ago in The announcement made some time ago in those columns that this would be the ban-ner year so far as jobbers of leather goods are concerned still promises to prove true.

Dry Goods Strong. While no marked change has taken place in the dry goods market advices from eastern manufacturers all indicate that they have sold up very closely the output of cotton and woolen goods and that the market is really in a strong position. Whether that is true or not there is certainly no great surplus of goods on hand, as evidenced by the difficulty met by jobbers in getting some orders tilled.

Local houses report a very large sale of fall goods of all kinds, in fact the total volume is far in excess of the record of previous years at this season. Unless all eight fall this will be, the best year in the history of the jobbing dry goods trade of this market.

A good many buyers have been in during the week and current business has been fully as satisfactory as the fall business.

Fruits and Produce. While no marked change has taken place

Fruits and Produce.

A tempting array of fruits and vegetables was to be found on the market all the week. Almost anything that one could desire was to be found, and of good quality. Prices, however, continue rather stiff, as has been the case all the season.

Strawberries, which command more attention than any other fruit at this season, are coming from a number of different gourses, but prices are high and there does not seep to be any prespect of their being very low at any time during the season. People who have been in the habit of waiting for cheny stock to put into cans are more than likely to suffer disappointment.

ment.
It is said that early cherries will be scarce and high, but there is promise of a larger ctor of late varieties. Lemons are high, as will be noted from the quotations In the way of vegetables old potatoes are pretty well role out, only a limited quantity of northern stock remaining in sight.

NEW YORK, June 14.-COTTON-Spot, NEW 10RR, Jine 14.—COTPON—Spot, closed quiet; midding uplands, 97-16c; midding guif, 911-16c; sales, 7,215 bales, Futures closed quiet and steady; June, 9,02c; July, 8,76c; August, 8,48c; September, 8,12c; October, 7,99c; November, 7,93c; December, 1,91c; February, 7,92c; March, 7,94c.

UMAHA WHOLESALE MARKETS. Dealers Apathetic and Bears Take Turn at Wheat.

PROVISIONS DEAD AND ALL LINES SLUMP

Oats Sympathize with Lending Cereal and Cheapen, While Corn Shows Independent Strength and Closes Strong and Up.

CHICAGO, June 14.—Apathy pervaded the pits of the Board of Trade today. Traders paid little attention to saything but wheat and not much of that, inasmuch as wet weather has ruled the pit for the last week, when prospects of clearing skies were reported wheat lost its strength. Cats

Oats were steady early, but trade was slow. There was little support to the market and when wheat weakened oats fell off in sympathy. There was a little recovery late. July new sold from 40½c to 39½c, and closed easy and ½c lower at 35%c. Receipts were 165 cars. Provisticis were dead with the exception of a little outside liquidation. Hogs were slightly weaker and packers refused to support after the first few minutes. This reslightly weaker and packers refused to sup-port after the first few minutes. This re-sulted in a decided slump, but part of the loss was regained. In general the mar-ket was so dull that it was featureless. All July products closed 7½c lower, pork at \$17.52½, lard at \$19.22½ and ribs at \$10.40. Estimated receipts for Monday: Wheat, 20 cars; corn, 375 cars; oats, 130 cars; hogs, 42.000 head. Hogs for the week, 170.000 head.

head.

NEW YORK STOCKS AND BONDS. Interest Listless and Market Dull, but

Prices Maintained. NEW YORK, June 14.—Very little Importance can be attached to today's dealings in stocks. Prices were well held, but this was not because there was any general demand, but rather because there were no offerings. Outside of Missouri Pacific and St. Paul the dealings were hearly more than nominal. These two eral demand, but rather because there were no offerings. Outside of Missouri Pacific and St. Paul the dealings were hardly more than nominal. These two stocks were lifted a point after the appearance of the bank statement, but neither closed at the best. The closing was fairly steady, however, but very duit. The bank statement was considered favorable and helped the market. The gain of \$1,250,000 in cash reserves was larger than expected and the contraction of over \$1,000,000 in the loan account came in place of some apprehension of a further expansion of that account. The net result was to add more than \$2,000,000 to the surplus over the legal requirement in the reserves of the association banks.

The buying of Missouri Pacific and of St. Paul was of the same character as during the week, and is attributed to operations of speculative pools. The coalers were neglected owing to the tack of corroboration of vesterday's rumors of measures taking which would end the atribe.

LONDON, June 14.-Money was increased

LONDON, June 14.—Money was increased in demand today for the payment of £1,000,000 in London county bills. The supply was fairly large. Business on the Stock exchange was dull and prices were depressed, in harmony with the bad weather. Operators are now resigned to practical idleness until after the coronation festivities. First-class securities were stationary, Business was meager and entirely professional. Kafirs were not interesting. Gold premium at Madrid, 145.40; Lisbon, 26.00.

PARIS, June 14.—Parquette stocks were firm on the Bourse today and especially rentes, owing to rumors of the conversion of 1.000,000,000 francs of 3% per cent rentes. Spanish securities were in good demand.

WASHINGTON, June 14 .- Today's state-

washingTon, June 14.—Today a statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances, \$200,129,176; gold, \$100,626,159.

OIL CITY, Pa., June 1. Did; no runs balances, \$1.20; certificates, no bid; no runs or shipments reported.

the decime noted prevance

day.

The week was a good one for sellers, as
values improved from day to day until
Saturday, when there was a reaction toward a lower basis, but even with this decline values for the week have been exceptionally high on hogs showing weight
and quality. Light stuff sold unevenly
higher to fill in, but as a rule inferior
stuff is more or less rejected. Representative sales:

At the Pr. No. Av. Sh. Fr.

SHEEP—There were no fresh arrivals today and nothing here to make a market. The week marked a disastrous break in prices, especially in grass multons. The decline amounted to fully 50c per hundred-weight on practically everything in range sheep and lambs. Fed stock was scarco and the few choice fatted lots coming are hardly as much off as range muttons, but are much lower than fed stuff brought two weeks ago. are much lower than fed stuff brought two weeks ago.
Quotations for clipped steek: Good to choice wethers, \$5.6005.90; fair to good, \$5.30 \$5.60; good to choice ewes, \$1.7505.00; fair to good, \$4.2004.70; good to choice lambs, \$6.00 \$76.50; fair to good, \$5.4005.70. Wooled stock sells about 2000c above clipped stock. Choice Colorado wooled lambs, \$6.5096.75; rair to good, \$6.0000.30.
