The residence of County Recorder Elmer E. Smith at 476 Oakland avenue was visited by burglars yesterday afternoon during the absence of the family. The thieves ransacked the house from top to bottom, scattering the contents of bureaus and closets over the floors in their evident search for jewelry and money. A quantity of silverware in the dining room and pantry was not touched, the thieves contenting themselves with taking a watch and chain, a small sum of money which was in a pocketbook on a bureau, and a few minor articles of jewelry. Entrance to the house was obtained by forcing a rear window. The robbery was committed between 3 and 4 o'clock, that being the only time the family was absent from the house.

GOVERNMENT IS TO MAKE A LAST STAND

Decisive Battles of the Struggle Will Probably Be Waged at Valencia and Caracas, the Capital.

WILLEMSTAD, Island of Curacoa, Sunday, June 15 .- (Correspondence of the Associated Press.)-The revolution in Venezuela is gaining and the government of President Castro is losing ground daily and is obliged to confess in its organs, in spite of the terror which reigns in the capital, Caracas, that its armies are not always victorious.

A revolutionary movement broke out during the night of May 23 in Ciudad Bolivar capital of the state of Bolivar. A colonel named Farrera headed the revolt in the barracks and after five days of fighting in the streets constrained the president of the state of Bolivar, General H. Sarria, to evacuate the town and fall back on Puerto Tablas.

The revolutionary general, Riera, one of General Maton' best lieutenants, whom President Castro represented as fleeing with four men, appeared last week before La Vela, on the Gulf of Coro, with 1,100 men and after a struggle of five hours took that

In the eastern part of the republic, where the government has 5,000 of is best troops, tionists dominate without, however, having occupied the towns of Barcelona, Carupano and Cumana. Genearl Matos, whose march on Caracas has been delayed by rains, is at present in the vicinity of those districts and hundreds of bands are awaiting his passage to incorporate themselves with his army.

In a word, the situation is less favorable for President Castro than it was a month ago and every day it becomes more unfavorable to him.

Caracas is believed to be on the eve of grave events. It is positively affirmed that President Castro intends to offer resistance in the capital if he is beaten in the declaive battle which will probably be fought in the environs of Valencia.

President Castro has signed a decree providing for the temporary opening of the port of Udana, on the frontier of Colombia, for the outlet of Colombian merchandise which has been stored for upward of nine months in Cucuta. These goods belong to German and American firms and consist for the greater part of skins estimated to number 50,000 and of coffee said

to aggregate 35,000 sacks. Venezuela charges a heavy toll on the transit and it is therefore a clear profit for the government.
