Prices in All Pits Borne Up by Bullish Arguments.

COMMERCIAL AND FINANCIAL

PROVISIONS SMASH MAXIMUM RECORD

Hog Products Record Top Values for the Year and Cereals Show Strength, All Lines

Gatning.

CHICAGO, June 23.—Grain bears were prught in a trap today and were squeezed to the good profit of the buils. On a fickle weather market bears were induced to sell until the markets were oversold. Early weakness, however, especially in wheat, was dispelled before the very buil-ish argument of greatly decreased stocks and everything on the board rallied and advanced with a rush. At the close July wheat was $\frac{3}{26}$ higher; July corn, $\frac{1}{360}$ higher, and July oats, $\frac{4}{26}$ up. Provisions closed 123<u>6</u>000c higher at record-making prices.

prices. Clearing conditions in the wheat fields, as shown by the weather map at the opening, augmented by lower cables, in-duced liberal early itquidation and short selling of wheat, After last week's bull-lah arguments on wet weather, followed by Saturday's break, the bears thought that prices were much too high for the fair, warm weather they had in their minds for the harvests. The excitement over wheat scarcity abroad seemed to have subsided, and this gave the bears encouragement. Bulls who had paper profits that were threatened hastened to have subsided and this gave the bears encouragement. Bulls who had paper profits that were threatened hastened to take them. As a result July opened %6 ACM early builtsh statistics that were lost sight of for a time, but soon the crowd perceived that the pit was over-soid. Hig decrease in stocks frightened the shorts and the rest of the day the shorts cried for cover. July worked up rapidly to 74%674%c, with apparent ease. Buying was general. There were renewed rumors that conditions were bad in France and that threshing returns were generally unfavorable. In the main, however, the tide of trade was turned by shorts cover-ing on the decreased stocks. Fredictions inte in the day were for showers over much of the standing wheat. There was a little dip from top prices on profit-taking, but July closed strong, %c up, at 74%8 learing conditions in the wheat fields, unchanged. METALS-A large business in electrolytic copper was transacted today, but the mar-ket generally closed a little lower, both at home and abroad. The sales were 250,000 lbs. for August and 250,000 lbs. for special delivery at \$12.15. The closing prices were as follows: Standard, spot to August, \$11.50 %11.80, inke, \$12.00512.42%; electrolytic, \$11.80 %12.12%; casting \$11.90%12.00, London clowed 28 6d lower, with spot at £53 l08 and futures at £122 15s. The New York market for tin was also lower, with spot at \$35.50%29.00. Lead was steady here at \$4.12%, while Lon-don fell off is 3d to £11 2s 6d. Bpelter was unchanged at London, closing at £18 12 s 6d. and was also unchanged locally at \$4.37%. Iron remained steady at New York, with prices as last quoted. Warrants were nominal. No. 1 foundry, northern, \$21.60% 22.00; No. 2 foundry, northern, \$20.50%21.50; No. 1 foundry, southern, \$20.50%21.50; No. 2 foundry, southern soft, nuch of the standing wheat. There was little dip from top prices on profit-taking, ut July closed strong, %c up, at 74% (# 4%c. Local receipts were 24 cars, 7 of contract grade; Minneapolis and Duluth eported 428 cars, making a total for the hree points of 462 cars, against 462 last week and 484 a year ago. Primary re-ceipts were 551,000 bushels, compared to 31,000 bushels last year. Seaboard clear-inces in wheat and flour equaled 347,000 bushels. The visible supply showed a de-reage of 2,555,000 bushels, where only reage of 2,555,000 bushels. On bushels, where only reage of 2,555,000 bushels. On bushels, where only L756,000 bushels decrease was expected. On L756,000 bushels decrease was expected. On bushels. World's shipments were 7,476,000 bushels, against 9,451,000 bushels last year. passage breadstuffs decreased 2,62,000 bushels. World's shipments were 7,476,000 bushels, against 9,481,000 bushels last year. Corn was very nervous all day. Early in the day there was marked artificial strength in July options, caused by ar-bitrary higher bids by the bull leaders, without considerable purchases. Fluctua-tions were erratic and July quotations could hardly be called a criterion of the corn strength. Wheat, however, lent good ald to this pit on its upturn, and there was urgent buying in the deferred fu-tures at times, especially of December, which was oversold. Too much rain and coid weather has been a bullish feature in corn of late and in some sections of the corn belt, especially in lowa, these conditions now prevail to some extent. In other sections, however, crops are said to be in good condition. July at the opening conditions now prevail to some extent. In other sections, however, crops are said to be in good condition. July at the opening jumped from 68c to 67%c, then back to 68%c and closed 1%c up at 67c. Business was not large, however, in this option. Beptember sold from 58%c to 60c and closed strong, Ic higher, at 5%c. Receipts were liberal at 221 cars, 30 of contract grade. Cash corn was improved, No. 3 selling at 62096c.

Oats were strengthened by the advances Oats were strengthened by the advances in the other grains and by their own ex-cellent cash situation. Early trades were at slight recessions on the influence of temporary clear weather. Selling, however, was only scattered and there continued to be some talk of too much rain. Some sec-tions reported good crops, but with cash No. 3 white selling at 49649% prices ad-vanced. July sold from 40c to 41c, and after a dip on profit-taking closed firm, 'ic up, at 40% c. Receipts were 125 cars. Provisions again made top prices for the year. Hogs sold at \$7.85 at the yards, also the year's record price, and influenced a good demand in the provision pit. Sell-ing was only scattered. Packers now hold aimost sverything in the pork list and yield up very little of it. This condition naturally brought sharp advances. July pork closed at top. 22% up at \$18.25; Sep-

partial up very little of it. This condition naturally brought sharp advances. July pork closed at top, 32% c up, at \$18.25; Sep-tember, 32% advances, and July ribs, 12% c closed 15c up, at \$10.65, and July ribs, 12% c higher, at \$10.90. The cash demand held up fairly well, but there seemed still to be a strong manipulative aspect to the pit.

fully steady prices. The market for butchers stock was in much the same condition as the trade in beef steers. Decent grades of cows and heifers sold strong, and ordinary to fair lots sold at practically unchanged prices. Buils, stags and veal calves were also picked up at steady quotations, the mar-ket ruling active at the prices. Stock cattle prices were generally lower unless the stock was very choice. The supply was not large, but the demand as yet has been of very limited proportion. A few good, fieshy feeders are selling rea-sonably well, but inferior stuff is hardly wanted at almost any price. Representa-tive asles: BEEF STEERS.

HOGS-The week opens out with a pretty decent run of hogs and with conditions favoring sellers. The market opened active around 5c higher and the bulk of the hogs sold that way. Trade strengthened and at the finish sales of choice lots were quoted 56110c higher, the market closing strong at the advance. The bulk of the good hogs went at \$7.400 7.55, with tops up to \$7.65, thus establishing high record for the season. A clearance was effected by the middle of the fore-moon.
