Girls' Sympathizers Urge Patrons of Concerns to Discard Instruments - Deal Pending for Sale of Mutual Plant.

(From a Staff Correspondent.) DES MOINES, June 30.—(Special.)—Mayor Drenth this morning vetoed a resolution which had passed the city council authorizing the use of asphalt for paving certain streets in the eastern part of the city.

The property owners had petitioned for asphalt paving on this street and there are already a number of residence streets in the western part of the city that are paved with asphalt, but a protest came from the manufacturers of brick in the city, and the mayor will not allow the use of asphalt on Des Moines streets.

Nearly all of the smaller towns of Iowa brick is used exclusively as a paving material, but the brick is nearly all made in Des Moines, where the clay is just right for paving brick. It is feared by the brick makers that if they are forced to use the brick to pave the streets, it will induce the people of the towns and smaller cities to discard brick.

The arbitration committee of the Trades and Labor assembly and the special committee named yesterday to advise with them commenced a systematic canvass of the city today to induce the users of telephones to order their instruments out tomorrow as a protest against the position of the companies in maintaining their fight through the telephone girls.

The ownership of half a section of land, valued at \$75 an acre, was involved in the suit. The land formerly belonged to W. C. Sawyer, a former Fort Dodge resident, who died mysteriously in Chicago about a year ago. Several years ago Mr. Schupp bought the land at a sheriff's sale for the satisfaction of a \$300 lumber bill owed by Mr. Sawyer. CROPS DAMAGED BY FLOODS

Wide Spread Ruin is Wrought by the Excessive Rains. LOSS IN ILLINOIS ESPECIALLY HEAVY

In the Vicinity of Alton the Railroads and Many Manufacturing Plants are Also Among the Sufferers.

ST. LOUIS, June 30.—A low estimate placed on the damage wrought within a radius of 100 miles of Alton, Ill., by the storm of wind and rain that prevailed Saturday night and Sunday is \$1,000,000. While the farmers are the heaviest losers the railroads also suffered severely. In the American bottom farming district the farmers are ruined.

Wood river, a small and usually harmless stream, overflowed its banks early Sunday morning and the farmers in the vast expanse of bottom lands were forced to get into the upper stories of their homes to save their lives. Their houses were flooded.

After spending a night full of terror they watched the daylight come in only to see that their crops had been washed away. The Reuter brothers, extensive farmers, residing near the banks of Wood river, three miles from Alton, suffered a loss of \$10,000, and when the waters subsided they may learn that their loss is twice this amount. This is only one instance.

Railroad traffic through the bottom lands is completely shut off and will not be re-established before this evening, as the washouts are such that they cannot easily or rapidly be repaired. Among other concerns that suffered is the big plant of the Western Cartridge company at Alton. This was flooded and President F. W. Olin this morning stated that his loss will be no less than \$5,000 and may be more.

Reports received this morning from the Pease creek district say that the farmers in that section suffered the most serious damage to their crops and that they are in a state of anxiety to get their stock out of the valley into the hills neglected to save any of their shocked wheat and lost all. The crops there are lost.

Vermillion river is out of its banks and higher than for thirty years. All crops on bottom lands are practically ruined, and fences, small buildings and considerable live stock have been carried away.
