Rocord-Smashing Spurts Break Loose in July Deliveries.

WHEAT AND CORN MAKE EXCITING TOUR

Dats Active Though Closing Lower, While Provisions Are Dull but Absorb Gains-Wet Weather is Bulls Prop.

CHICAGO, July 1.—The grain markets, after giving early indications of quieting, broke loose again today and scored new high prices in the July delivery. July corn touched 75c, showing certain indications that the buil crowd means to carry the corn through to a finish. July wheat closed 146614c higher, September wheat 4665c up, July corn 14c higher and September corn 4c lower. July oats showed a closing loss of 15c, while the September was 14c improved. Provisions were dull and closed 7674c higher.

The first sale of July corn was 72½c, the same as at the close yesterday. During the next two hours shorts bid the market steadily up to 15%c. There was reason for their bidding, for of the deliveries on July contracts nearly the whole 250,000 bushels went to Harris, Gates & Co. which firm is credited with having about 15,00,000 bushels of corn deliverably this month. The contract stocks are only 3,000,000 much firm is credited with having about 15,00,000 bushels of corn deliverably this month. The contract stocks are only 3,000,000 much firm is credited with having about 15,00,000 bushels of corn deliverably this month. The another frantic endeavor cover at this concession sent the close within five minutes to 36c and at the close the market was unsettled, with July 1½c higher at 74c. September options advanced on the weather and at the close the market was unsettled, with July 1½c higher at 74c. September options advanced on the weather and in sympathy with July from 62c to 344c but was sold heavily by the July manipulators and others and closed 12c down at 625c. Receipts were 279 cars.

Wheat traders, like those in corn, seemed to take a more cheerful view of the crop situation early but later in the day the weather map, with its prospects of more rain where anything but moisture is synated, reawakened the excitement of yos-werds you have a specific provided from 705c to 75kc. It was a big crowd of shorts which did the bidding, lead by St. Louis interests, which were credited with buying close to 200,000 bushels.

Firm Undertone Maintained.

NEW YORK, July 1.—There was not much increase in interest in today's stock market, but the firm undertone was maintained and a number of important stocks were advanced.

The opening prices were very generally lower, owing to the alarming reports of the damage done to the grain crop by yesterday's storm. Today's weather map and the somewhat sensational advances in wheat gave color to the fears for the wheat crop. The strength of corn in the market was taken less account of, as it was attributed in part to sympathy with wheat and in large part to the heavy speculative commitments which are supposed to threaten a decrease in corn.

The damage wrought by wet weather to wheat is supposed to be balanced by the advance in cotton, and there were signs of strength among the cotton carriers. This helped Missouri Pacific also.

There were fears this morning that the money flurry would be repeated today and the decline in the call loan rate, after opening at 5 per cent, helped the recovery in stocks.

Chicago & Eastern Illinois rose 6% points to 201, without a solution of the mystery of the uitimate disposition of the road.

The New York public utilities were advanced during the day and Sugar had another upward movement. The coal carriers were neglected or easy, especially the soft coal roads.

NEW YORK, July 1.—COTTON—The market opened steady in tone, but 2 to 5 points lower in sympathy with disappointing Liverpool cables and general bearish private reports. Later the whole market eased off under selling for both accounts, with August off to 8.26c. The Liverpool cables were more bearish than the early advices and Europe sent selling orders to the local ring. The south, too, sold cotton here during the first hours. At midday there was a rally on covering by scalpers. Trading was not active at any time during the afternoon and as a rule the conservative element evened up trades pending receipt of the monthly crop statement from the government next Thursday and the passing of the holidays at the end of the week. Soon after midday the weekly report came to hand and showed a much less favorable crop outlook than had been expected. Drouth was mentioned for parts of the central belt and northwestern and southwestern Texas. A large movement to cover caused an advance throughout the list, but later absence of speculative supportables to ease off again. In the last hour shorts covered in fear of higher cables tomorrow, though the July option hung limp and dropped off to 8.6c, or 13 points under last night's close. The market was finally steady and net 9 points lower to 3 points higher.
