Animation Eases, Although Weather Has Influential Bearing on Market.

GRAINS CLOSE ADVANCED

Cereals, However, Quit Depressed, While Provisions Are Dull but Stendy and Break Even.

CHICAGO, July 2.—The grain markets were distinctly quiet today, although nervorugness over the weather and cropy damage wather in the west were influential in checking the advances. July corn early was neglected. July wheat closed 4c higher; September wheat %c lower; July corn 1%c up; September corn ½c lower, and September oats ½c down. Frovisions closed 2%c lower to 2%c higher.

When trade in the wheat pit began there was more rain to consider, showers having failen liberally during the night. Commission houses bought and September during the first hour advanced to 5%. 6%. This proved to be the highest point of the day in this option. Shorts seemed to be fully covered, thanks to their strenuous exertions of yesterday and scattered reports that the weather was getting clearer in the west, found the merket ready for a reaction. Local bears sold liberally, and \$\frac{1}{2}\$Louis added to the pressure. The quantity disposed of was not heavy, but \$\frac{1}{2}\$ but the close was %c unner yesterday, at 14074%c. The high point of July wheat was 17%c. This option ruled comparatively stronger than \$\frac{1}{2}\$ cuner yesterday, at 14074%c. The high point of July wheat was 17%c. This option ruled comparatively stronger than \$\frac{1}{2}\$ cuner yesterday, at 16074%c. The decline was largely due to profit-taking, and when thouse which sold September and bought July. However, participated in the saster tendency and, following the bulgs, worked down to 75%. 6%. The decline was largely due to profit-taking, and when this let up prices steaded and the close was %c over yesterday, at 16%c. Seaboard clearances were 325,000 bu, and primary receipts 420,000 bu, compared with 522,000 bu, and primary receipts 420,000 bu, compared with 520,000 bu, were handled during the entire session. The mallest packages of this option were sufficient to cause wide fluctuations. This market, like wheat, ruled strongest early, while the effect of last night's showers was the chief consideration. The trade in floptember was only fairly active and du

ferred to public elevators 111 cars of contract corn.
Oats opened higher with the other markets, but developed an easy undertone earlier than the leaders. The easiness was due chiefly to liquidation by interests which bought freely yesterday. There was also selling in sympathy with the other cereals. There was a good scattered trade in the pit. September sold between 35@364c. Receipts were 108 cars.
Frovisions were dull, but steady in the absence of selling pressure. What business there was was almost entirely in the way of changing. September pork closed 2½c higher, at \$18.57½; September lard 2½c lower, at \$19.70, and September ribs unchanged, at \$10.67½.

WHISKY-On the basis of \$1.30 for finished goods. NEW YORK STOCKS AND BONDS.

Stock Market is Stagnant and Bonds Are Irregular.

Are Irregular.

NEW YORK, July 2.—The Stock market was extremely dull today and the only notable activity was demonstrated in a few stocks. In some of these there were new developments to give an estensible cause for their strength. In others there was an appearance of manipulation with the purpose of sustaining the general market. The speculation was light, owing to the large operations in progress in the money market on account of the July settlement and of syndicate operations.

There were large transactions all day in Missouri Pacific, which sold ex. the semi-annual dividend of 2½ per cent, but the price range all day was restricted to a fraction. Louisville was in active demand at extreme advance of 3½. The movement seemed to be based upon the formal announcement that the purchase in behalf of the company of the Chicago, Indianapolis & Louisville was in effect.

Colorado Fuel made another spurt, which was supposed to be due to a struggle for control, but which incidentally involved forced buying by a distressed short interest. Short covering was also an element in the advance of Sugar and the rise in the price of raw sugar also helped that stock.

The buying of Amalgamated Copper was attributed to a more confident feeling over the trade outlook. The United States Steel stocks were firm because of the increased net earnings reported for the last quarter. The statistics of iron and steel production for the last year issued by the American Iron and Steel association were regarded as an astounding exhibit of active and prosperous conditions in the trade. The Steel association were regarded as an astounding exhibit of active and prosperous conditions in the trade. The Steel stocks nevertheless met a considerable volume of selling at the advance, a large portion of which was for London account.

The statement of the May net earnings of the Pennsylvania system, showing an increase of over \$1,000,000 compared with May of last year, was taken as an index of the large profits accruing to the soft coal carriers in wh

in which, however, Pennsylvania shared but slightly.

The early firmness of the local traction stocks was fostered by the increased net earnings reported by the Brooklyn Transit system and by hopes of large profits from the coming holiday traffic.

The rate for call loans showed further ease today, but foreign exchange advanced. The London money market showed additional ease, but pressure was transmitted from Paris, where there was an abrupt decline of 2 centimes in the sterling rate. Yesterday's money market operations resulted in balances to be met between the clearing house banks, the sum of \$24,943,457, which is the largest on record for that interest. The payments today to the underwriter syndicate for the Burlington sum released large sums to the market and the disbursement of the government interest affords relief from any sub-treasury requirements.

Today there was paid out by that in-

affords relief from any sub-treasury requirements.

Today there was paid out by that institution on account of Klondike gold \$500,000, the first of the season. Advices are received of an additional \$500,000 to be received from the same source this week. The market closed dull and easy.

The bond market was dull and irreguular. Total sales, par value, \$2,700,000. United States bonds were all unchanged on the last call.

The following are the closing prices on the New York Stock exchange: NUTS—Walnuts, No. 1 soft shell, per lb., 12c; hard shell, per lb., 11½c; No. 2 soft shell, 19c; No. 2 hard shell, be; Brazils, per lb., 14c; filberts, per lb., 12c; almonds, soft shell, 16c; hard shell, 16c; pecans, large, per lb., 12c; small, 10c; cocoanuts, per sack, 33.50.

Foreign Financial.

Foreign Financial.

LONDON, July 2.—The amount of bullion taken into the Bank of England on balance today was £7,000. Indian council bills were allotted today at 1s 3 15-16d. Gold premiums are quoted: Buenos Ayres, 129.69; Madrid, 36.32; Lisbon, 25.50; Rome, 1.32. Rand mines, 12%. Ex debentures deferred, 22%. The demand for money increased today in connection with the consols settlement. The supply was fairly plentiful. Considerable repayments to the Bank of England are due. Discounts were easier. Business on the Stock exchange opened with a better tone, but transactions were few. Consols, home rails and Canadians were neglected. Americans were idle, irregular and mostly about parity. They improved somewhat during the day and closed firm. Chinese were duil. Argentines and Brazilians hardened. Kaffirs were inclined to relapse and were largely dominated by the position in Paris.

PARIS, July 2.—Business on the bourse today opened quietly, with prices firm. Rentes and French rails soon sagged, being weighted by offerings, and the whole list yielded. Later operators were practically idle and toward the close there was a raily. Rentes and most of the foreign securities closed steady. Tractions and transays were generally weak, Thomson-Houston and Southern transays suffering most. Rio tintos at first were weak, but improved on professional purchases. Knffirs closed heavy. The private rate of discount was 2.9-16 per cent. Three per cent rentes, 1901 72½c for the account. Exchanges on London, 25f 25c for checks. Spanish 4s, 81.92. 81.92.

BERLIN, July 2.—Exchange on London, 20m 46%pfgs for checks. Discount rate, short bills, 2% per cent; three months bills, 1% per cent. Business had a hestating tendency on the bourse today. Renks were harder. Transvaals were considerably higher.

Condition of the Treasury. WASHINGTON, July 2.—Today's statement of the condition of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption shows; Available cash balance, \$206,495,991; gold, \$103,045,084.

Brenks Clearing House Record. NEW YORK, July 2.—Today's balance of the clearing house banks aggregated \$24,-943,467, breaking all previous records. These figures reflect in great part the very heavy disbursements of interest and dividends for July.

Cotton Market.

Cotton Market.

LIVERPOOL, July 2.—COTTON—Spot, good business done and prices firmer: American middling 4:5-16d. Australian wools are firmer, with this market remarkably well sold up. The demand is good, with considerable sold the last week. Combing, choice scoured basis, 722674c; average, 702772c.

ST. LOUIS, July 2.—WOOL—Quiet and unchanged: medium stades and combing, 136174c; light fine 12469154c; heavy fine, 10033c; tub washed, 156244c.

Evaporated Apples and Dried Fruits. NEW YORK, July 2.—EVAPORATED APPLES—A moderate offering of spot evaporated apples are reported and while without change prices are inclined to firmness on attractive qualities; common to good are quoted at 7694c; prime at 106104c; choice at 1046lilc; fancy at 1146114c.

106104c; choice at 10461c; fancy at 1146114c.
CALIFORNIA DRIED FRUITS—In the market for California products spot prunes attract chief attention and the larger sizes show a hardening tendency, though the smaller are disposed to drag. Some of the future business is also noted and there is a fair interest in four sizes Santa Clare on the 24 basis. All grades of spots are quoted at from 34c to 54c. Apricots are steady and in fair demand at 104614c in boxes and 104612c in hass. Peaches are quiet, but steady, at 12616c for peeled and \$46104c for unpeeled.

Crop Situation in Bendle County. HURON, S. D., July 2 .- (Special.) -- Barring strong wind and heavy rainfall in a few sections, crops in Beadle county have made good progress during the last week. Wheat made marked advancement in steming and heading and with reasonable favorable weather from now on the crop will be ready for harvest almost as early as last season. The plant is strong and firmly rooted and color excellent. No damage of consequence will result from frost of last week. Barley and rye are in fine condition and with a few days of warm sunshine will be in the last stages of maturity. Corn in most fields is doing well, although the crop generally is backward because of cool weather. Fields cut by frost are recovering and where it was thought the stalk was killed there are ex-
