TOUCHES UPON CUBAN RECIPROCITY

Problems Presented by Great Industrial Combinations Discussed and Policy of Administration Announced.

(Continued from First Page.)

president of the United States, Theodore Roosevelt.

Mr. Mayor, and You, My Fellow Citizens, My Fellow Americans, Men and Women of Western Pennsylvania:

You have just listened to the reading of the great declaration of independence which entered into the field of nations 128 years ago. That entry was the promise of a new world to be made good by the performance of those men and their children and their children's children.

Right to Be Free.

The document promulgated in 1776 under which Washington became our first president, and which we have just read, was the declaration of 1776. We showed in the revolution that we had a right to be free. When we constructed the perfect union of the old confederacy we showed that we knew how to use that right.

Two Great Epochs in History.

Those were the two greatest epochs in the history of the world. The first was the epoch of the union and the epoch of its preservation; the epoch of Washington and the epoch of Abraham Lincoln. (Loud applause and cheers.)

Reduction of the Army.

By law we are allowed an army of 100,000. While this was the number of our army in 1914, it has been steadily reduced to 100,000 men and women of the United States. The army is not a military force but a police force for the protection of the people.

Policy in Cuba.

To have turned Cuba over to the hands of its own people immediately after the withdrawal of the Spanish flag would have meant ruin and chaos. We established a government in the island; we established peace and order. We began to provide for the payment of the Cuban army of the United States.

Peace in the Philippines.

And now a word as to the Philippines. There are yet troubles in the Moro country, but in the Philippines among the Filipinos, among the people who have been in our hands since the capture of Manila.

Honesty Better Than Brilliance.

The department of justice—justice that means that each man, rich or poor, strong or weak, shall have his rights and shall not be allowed to do wrong to his fellows. (Loud applause.)

Character is Most Needed.

We need what Mr. Knox has shown—the character, the honesty, the integrity, the courage, the determination, the will to do right, the ability to do well.

Special, But Wise Laws.

It is just exactly so in dealing with the great tendencies of our industrial civilization. We cannot turn back the wheels of progress if we wish to have a better life.

Benefit is Pronounced.

The benediction was then pronounced by Rev. Dr. T. N. Boyle, presiding elder of the Pittsburgh Methodist Episcopal conference, and as follows:

Our Father Who art in heaven.

Our Father Who art in heaven, Thou Who hast our help in ages past, and Thou Who art our hope for years to come, direct us in our journey, O God, our Father, our Father, our Father.

The question was brought up by the union barbers of Stillwater.

They referred the matter to the State Barbers' board, and Secretary Martin of that body consulted with Attorney General Douglas, with the result that the legal information above quoted was elicited.

The only Cereal Coffee

made from nature's own product—California figs, prunes and grain—absolutely free from artificial matter is

FIG PRUNE Cereal

It is the ideal food drink for children because the strength and health giving properties of the grain and fruit are in a state of solution and are therefore quickly absorbed.

Question of How Convicts Can Come Under Law Being Discussed in Minnesota.

ST. PAUL, Minn., July 4.—A curious legal complication has arisen at the state prison through the practice of assigning one or more convicts to shave the officials and inmates of the institution.

Barbers' board law requires that every barber must get a state license and pass an examination as to his personal habits and moral character, as well as to his skill with the razor.

Naturally a convict could hardly convince the examiners of good character. Attorney General Douglas, to whom the legal question has been submitted, says the prison barber must have a license, the same as any one else, and it looks as though the prison would have to hire a civilian barber.
