VATICAN FINDS OBSTACLE

Thinks Another Power Should Carry Out Expulsion of the Friars.

WOULD WELCOME A SHOW OF FORCE

Prefers to Leave Them Where They Now Are if No Local Opposition Is Made to Their Administration.

ROME, July 5.—After an examination of the note submitted by James H. Taft, civil governor of the Philippine islands, regarding the friar lands in the archipelago, the vatican finds one very great obstacle to the withdrawal of the friars.

The vatican would not object if the expulsion of the friars were arranged and carried out by another power, so that the holy see would only have to recognize the accomplished fact, but it shrinks from appearing as a direct party to the withdrawal, especially since the religious orders are powerful in Rome, and above all others in the sacred college.

The efforts of the vatican are directed toward finding a way to consent to the withdrawal of the friars from the islands without appearing to do so. In fact, the vatican, it is believed, would welcome a show of force to which it could submit. It would much prefer, however, a compromise prohibiting the friars from returning to the parishes they left in 1858, but allowing them to remain where they now are or where there is no local opposition to their administration.

The cardinals appointed to discuss Judge Taft's proposition were to meet July 10, but a requiem mass for the late King Albert, of Saxony, to be celebrated in the Sistine chapel, in which the pope and the cardinals will assist, has necessitated a postponement of the meeting.

POPE RECEIVES THE TAFTS

Little Ones of Family Please Him by Their Loyalty to the United States.

(Copyright, 1902, by Press Publishing Co.)
ROME, July 5.—(New York World Cablegram—Special Telegram.)—The pope's reception of Governor Taft and family, the members of which were presented by Bishop O'Gorman, was marked by altogether exceptional cordiality and condescension on the part of the sovereign pontiff. The party included Governor Taft's mother, Mrs. Alonzo Taft; Mrs. William Taft; Master Robert and Miss Helen Taft, aged 12 and 10 years, respectively, and Captain Strothe of the governor's military household. By a very special privilege, usually only granted to sovereigns, an audience was given in the pope's private library.

The pope was most kind and fatherly. He had little Miss Taft stand beside his chair and placed his hand gently on her shoulder while the interview proceeded. The head of the Roman Catholic church showed particular interest in the little ones. He asked them which they liked the better Rome or Manila. They both answered that where they wanted to go was back to the United States. Their settled view on that point greatly amused the pope. The audience lasted twenty-five minutes. At its close the pope gave his visitors a special blessing, rising easily from his chair without even the assistance of a cane. He insisted, with charming gallantry, on escorting the women to the library door. Bishop O'Gorman, who has had three audiences with the pope, says the pontiff appears marvelously lively and in the best of spirits.

LOCAL BREVITIES.

Chief of Police Joseph Bush of Phoenix, Ariz., was in the city yesterday picking up information regarding the local department. Mr. Bush is on his way to Louisville, Ky.

Information was received at the office of Postmaster Crow yesterday morning that he would not be on duty again for a week at least as a result of his collision with a plate glass door on Friday night. Four stitches were taken in his cheek where the glass cut him.

A majority of the members of post A. Travelers' Protective association, failed to materialize at the smoker given last night at the Commercial club rooms, though the few that did had a good time. About a dozen were present including Ak-Sar-Ben Dunlap, who did a little stunt for the benefit. They completely cured me and did it quickly.

For sale by all dealers. Price 50 cents. Foster-Millburn Co., Buffalo, N. Y., sole agents for the United States.

ADDRESSES MINE WORKERS

President Mitchell Talks to Strikers in Wilkesbarre District.

WELL PLEASSED WITH SHOWING MADE

Feels Sure of Winning and Says Those Who Refused to Obey Strike Order Will Yet Regret It.

WILKESBARRE, Pa., July 5.—President Mitchell of the United Mine Workers, delivered an address before the striking miners, who held a meeting in this city today. Mr. Mitchell spoke as follows:

I am well pleased with the showing made by the strikers in obeying the strike order and the firmness displayed by them ever since. This is the battle of the coal fields. It is the battle of the coal fields. It is the battle of the coal fields. It is the battle of the coal fields.

Mr. Mitchell also advised the strikers to remain firm and determined, as success would crown their efforts ere long if they did.

Adam Rescavage, vice president of District No. 1 United Mine Workers, in an address issued tonight says:

The Lithuanians, Poles and Slavonians who stand by the United Mine Workers' union until a victory is won, are the real friends of the coal fields.

Will Try to Break Strike.
The movement of empty coal cars along the railroads and the unusual activity about several of the collieries in the region indicate to the strikers that an effort is to be made in a few days to start at some of the collieries.

The operators assert that they have sufficient men under engagement, both returned strikers and imported men, to man several of the collieries. While they will not admit that work may be resumed next week, there is a general belief that the effort will be made.

In the Hazelton region the Pardses are expected to mass men at the Harwood colliery, which, being on the outskirts of the region, is in less danger of attack than a mine in the heart of the district, and the coal can be shipped from it without being sent past any mining village. A number of miners are said to have applied for work in response to the notice of the company that it was ready to receive applications.

In the Wyoming region all indications point to a resumption of work at Nanticoke No. 5 colliery on the Susquehanna coal company. This mine is situated at the edge of the Wyoming basin and its output goes over the Pennsylvania railroad.

To Start Work in the Colliery.
It is also stated that from the Wyoming division mines of the Delaware, Lackawanna & Western company one colliery

CHINESE MAKE AN APPEAL

Minister Wu Requests United States to Use Good Offices.

WANT SOLDIERS TO LEAVE TIEN TSH

Foreign Governments Fail to Keep Faith with China by Evacuating City as Agreed in Settlement of Boxer Trouble.

WASHINGTON, July 5.—The Chinese government has appealed to the government of the United States to use its good offices to cause the allied powers, who still retain their soldiers in Tien Tsin, to evacuate that place in conformity with the spirit of the agreement of Peking which settled the Boxer troubles.

The appeal was made today by Minister Wu directly to Secretary Hay, in the shape of a cablegram from Viceroy Yuan Shih-Kai of Chih-Li, which the minister supplemented with a long verbal explanation. The cablegram is as follows:

Translation of a cablegram received July 4, 1902 (fifth moon, twenty-ninth day) from Viceroy Yuan Shih-Kai of Chih-Li, dated July 3, 1902 (fifth moon, twenty-eighth day): Your cablegram of July 2 is received with much gratification. In the final protocol signed by the different powers there is no stipulation that a supplementary convention will be made in regard to the restoration of Tien Tsin. But the foreign military forces have arbitrarily given rise to fresh complications and drawn up demands for a supplementary convention. The number of Chinese guards to be stationed at Tien Tsin within the limit of thirty kilometers.

Since the brigades in the vicinity of Tien Tsin, on account of the looting of the arsenals in 1900, are generally well armed it would be impossible for such a small force to suppress and punish brigandage. Much less can it police the city and vicinity. It is reasonable to suppose that the military officers appear to be willing to restore the city, but in reality they wish to remain there in order to keep their action is not by any means for the public good.

The foreign ministers at Peking do not approve their action and they have repeatedly remonstrated with them, but military officers have not been willing to come to an agreement. The ministers and the military officers each hold to their own opinions, which greatly impede the progress of our affairs.

I request you to ask the government of the United States to consult with the other governments, so that instructions may be sent to the different military officers direct, ordering them to accede to the suggestions of the foreign ministers to the end that the restoration may not be further delayed.

Successor to Li Hung Chang.

The author of this message, Yuan Shih-Kai, has taken the place of the late Li Hung Chang to a large extent in dominating Chinese foreign policies, and the United States government is more disposed to heed his appeal because of his excellent conduct during the Boxer uprising. He was the principal means of communication between the outside governments and the legation during their time of peril and but for his strength of character the entire province of Shan Tung would have been drawn over to the Boxer cause.

Secretary Hay will address himself to the various governments, probably through Mr. Conger at Peking, and the foreign ministers there located. The situation at Tien Tsin is peculiar, and, in the view of the State department, the attitude of the foreign military officials there is perfectly unreasonable. The State department has satisfied itself that the foreign ministers at Peking whose governments are represented by these military leaders are thoroughly anxious to have the treaty of Peking enforced in a fair spirit, and to that end to have Tien Tsin evacuated at the earliest possible moment by the foreign officers, so it will carry the Chinese appeal to governments concerned.

Celebration Leads to Family Quarrel.

The firing of a miniature cannon on the Fourth and the trouble which ensued landed J. F. Pterrow and George Catrow in jail last night. Catrow being the complaining witness. The men are brother-in-law and live in adjoining houses at 77th and Center streets. In preparation for the Fourth they made a brass cannon several days ago. During the celebration a young man of Pterrow loaded the gun to the muzzle and then begged the 15-year-old boy of Catrow's name to supply the match. As a result Catrow's name was used. Pterrow fired and kicked in the door. Catrow grabbed his shotgun, but was restrained from using it by his sons. Pterrow reloaded and accidentally cut his own fingers with the razor. Catrow wants his brother-in-law bound over to keep the peace.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, when decay of the bones takes place, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, making it the ideal remedy in all scrofulous affections. It builds up and purifies the deteriorated blood, makes it rich and strong and completely eradicates the deposits are prevented, and a complete cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.
