Taft, governor of the Philippines, and relieving the holy see from direct responsibility from the withdrawal of the friars from the Philippine archipelago. Several plans to this end have been dis cussed by the vatican authorities. The most acceptable of these is that the generals of the four religious orders concerned on being informed of Washington's request shall themselves order the withdrawal of their dependents, who number about 500. This plan would necessitate a letter from the general of each order to Governo Taft, pledging the writer to this action or the insertion of a clause in the contract between Judge Taft and the vatican that steps to this end will be taken immediately by the generals when they are aware of the wishes of the United States. The vatican would thus be under no odium, the pope merely accepting an accomplished fact.

Democrats Refuse Forecast.

The democratic members refuse to make a forecast as to the result of the campaign beyond the general statement that they are certain to make decided gains in some parts of the country, particularly in the eastern states. They call attention to the discontent among the laboring men as indicated by the strike of the anthracite coal miners by the strike of the anthracite coal miners in Pennsylvania, which, they assert, will draw a large element to the democratic candidates, and they insist that thousands of republicans who are dispatisfied with the old Camp Low dock a strong puff of wind they resident is perfectly safe. the hope of new trusts and rising prices. of republicans who are dissatisfied with the Philippine policy of the administration will also leave their party.

In contrast to the lack of confidence among the democrats is the assurance with which the republicans enter the campaign. At no time in many years have the party managers felt as sure of their ground. Without exception they predict a much larger majority in the next congress than they have in this one. The continued prosperity of the country and a general disposition to indorse the administration of President Roosevelt are counted upon to hold the country with the republicans The leaders declare that the president has strengthened himself with the people by reason of his forceful method of administering public affairs and that he will be enthusiastically indorsed in the elections next fall. The republicans are also perfectly satisfied with their record in congrees. When commenting upon this record they express the belief that if necessary they could carry the country on it alone They were given advantage they say by several mistakes of the democrats which they claim, further exemplifies the saying "You can always depend upon the demo crats to do the wrong thing at the right They refer to the miscarrying of time." the democratic campaign in the senate against the army. The republicans have been anxious to, obtain a well defined record of the methods employed by the opposition senators in the Philippine investigation and Senator Carmack in the last hours of the session supplied this record. Senator Spooner seized the opportunity. For an hour he gave the opposition a castigation, such as is seldom heard in the senate. He was in fine fighting fettle and took the enemy as they came. The republican committee will scat ter copies of his speech broadcast.

Speaker Henderson will take an active part in the campaign. It has been decided to put him on the stump in all of the doubtful districts, which can be reached conveniently in an extensive swing around the circle. The speaker is enjoying excellent health and with the rest he can get between now and the date set for firing the first political gun, he will be in the best condition for "spellbinding."

Representative Littlefield of Maire, one of the very effective debaters in the house, and Representative Grosvenor of Ohio, will also be given wide fields for a discussion of the issues in support of republican

Confingration Devastates Buildings on

Wabash Avenue, Entailing \$325,000 Loss.

CHICAGO, July 6 .- Fire early today destroyed the buildings at 305, 307-9 and 311-13 Wabash avenue, causing losees aggregating over \$325,000. For a time the fire threat ened widespread destruction, as it was only through the utmost efforts of the firemen that the flames were prevented from spread ing to the department store of Siegel, Cooper & Co., fronting on State street and separated from the burning buildings by nly a narrow alley.

Much excitement was caused among the guests at the Auditorium hotel, directly across Wabash avenue from the burning buildings, and at the Auditorium Annex. The guests were aroused from their slumbers at 7 o'clock in the morning as the fire had gained such headway that it threatened other buildings in all directions. On the Wabash avenue side the flames belched out into the avenue so fiercely that was considered unsafe for trains on the elevated loop to pass, and for over two urs all traffic on the loop was suspended.

Union Pacific Evidently Preparing to Resume Shop Operations.

EFFECT OF STRIKE ON TRAIN SERVICE

Delays Their Trains.

Company and Strikers Both Confident of Winning Out.

CAR BUILDERS' WALKOUT IS PROBABLE

Plecework and Company Not Likely to Discriminate in Their Favor.

The importation of nonunion men to fill points over the Union Pacific system and has given rise to a report, which was circulated in Omaha Sunday, that the management of the company intends to make a seneral effort to resume operations in its shops within a very few days.

President Burt was asked yesterday afternoon if there was any truth in this report. He said: "I am not giving out information on that

subject today.' "Will you deny or affirm the report?" was asked the president.

But he refused to do either and declined to discuss strike matters further. The rather prolonged idleness of the boilermakers and machinists is said to be reach of that place. Some time during the derailed and it is remarkable that more of the road and while the officials have insisted that their engines are not suffering nor their traffic facilities impaired in any stand and point to the fact of the frequent delays in Union Pacific trains all over the system as proof that the strike is producing an effect upon the transportation service. Officials utterly repudiate any such reports and hold that whatever delays have occurred during the last week have been due simply to heavy rains and high waters and not in any particular to defective

boilers or car equipment. Can't Run Without Shops.

"As a matter of fact, the Union Pacific road nor any road cannot run its affairs without shops; if it could, it never would more or less injured in the hand-to-hand railroad man yesterday, "and more than that, the Union Pacific, of course, will get after the fracas, but their injuries, while conveniently, but it does not follow and it its shops into operation as soon as it can, serious, will not prove fatal. > Nonunionists Still in Shops. Although more new ones were on their way to take their places, three of the nonunion arrivals from Chicago left the shops and the yards yesterday, joining their comrades who had gone Friday and Saturday. These three, however, changed their minds shortly after they had reached the outside of the yard gates, and asked to be readmitted, but this was refused them. The strikers are still claiming that by today all the men brought from Chicago will have left the shops. There are some, however, who have falled as yet to show any disposition to leave and are apparently

well satisfied with their lot. The fact that Mr. McKeen dropped everything in the west, where he and General Manager Dickinson had gone to survey the field, and started at once for Omaha when the car builders renewed their complaints, more than anxious to patch up matters with the car men and avert their striking if possible. Whether the company's desire DEATH CLAIMS THIRTEENTH for peace will lead it to the extent of exempting the car builders from the piecework regulation is a matter of considerable mement just now to the strikers as a body. Should such a remarkable concession be made the demands of the other crafts will be pressed with more tenacity man Willaim Dodge of the runaway car on and vigor than ever. The fact that the car builders resolutely announce their determination to strike unless allowed to proceed under the old daily-wage system leads many of the strikers to believe the company

Report from Columbus. A report reached Vice President Wilson

yesterday that the only nonunion machinists in Columbus had been "run out of town" by a crowd of strike enthusiasts.

The meeting tonight in Washington hall, at which President Samuel Compers of the American Federation of Labor and President James O'Connell of the International Association of Machinists will speak on organized labor and the Union Pacific strike in particular, is absorbing interest among the strikers.
