

MILITIA MAY HAVE A CAMP

Passage of Dick Bill Provides Funds from the National Treasury.

HARVEST HANDS ARE IN GREAT DEMAND

Deputy Labor Commissioner Has Calls for Many, but Cannot Find the Men—Telephone Officials Are Scarce.

(From a Staff Correspondent.)

LINCOLN, July 7.—(Special.)—Information was received at the state military headquarters from Washington that the Dick bill, designed to promote the efficiency of the militia of the various states, had passed both houses and would be signed by the president.

The bill makes provision, among other things, for the holding of National Guard encampments at the expense of the general government.

The real purpose of the measure is to bring the reserve military force into closer connection with the regular establishment.

If the bill becomes a law it will be important and interesting to the militiamen of Nebraska for it will remove all doubt about the holding of an annual encampment this year.

The law provides: That whenever it shall appear by the report of inspectors, which shall be the duty of the secretary of war to cause to be made at least once in each year by officers detailed by him for that purpose, that the organized militia of a state or territory is insufficiently armed, equipped and trained for active duty in the field, the secretary of war may, in his discretion, request the governor of such state or territory, to pay to the quartermaster general thereof, or such other officer of the militia of said state as the said governor may designate and appoint for the purpose, so much of its allotment out of the said annual appropriation under section 1,661 of the revised statutes as he may deem necessary for the payment, subsistence and transportation of such portion of said militia as he may designate in actual field or camp service for instruction, and the officers and enlisted men of such militia, while so engaged, shall be entitled to the same pay, subsistence and transportation or travel allowances as officers and enlisted men of corresponding grade of the regular army or of any militia entitled to the same, and the officers so designated and appointed shall be regarded as a disbursing officer of the United States, and shall render his accounts through the war department to the proper accounting officers of the treasury for settlement, and he shall be required to give good and sufficient bonds to the United States, in such sums as the secretary of war may direct, faithfully to account for the safekeeping and payment of the public moneys so entrusted to him for disbursement.

Shortage of Harvest Hands.

According to the declarations of competent authorities there has not been such a large demand for harvest hands in any season for the last ten years, as there is at the present.

Wages of from \$1.50 to \$2.50 per day and board are offered and still there are no men to do the work.

"We have requests from all over the state for harvest hands, but can't find men to fill the places," said Deputy Labor Commissioner Wagoner, who received a letter here just a few minutes ago from a man in Malcom, who wants a farmhand for regular employment at \$25 per month with everything found.

The average pay for a farmhand in the past has been \$15. This man in Malcom, he never saw such a scarcity of unemployed men. In Kearney, Polk and York counties they need harvest hands by the score, but this department doesn't know a single man available for the work.

Private employment agencies say they are unable to meet the demands and many of them have asked us for names of unemployed.

Cannot Find Telephone Officials.

Sheriff Branson reported to the Lancaster County Board of Equalization this morning that he had been unable to find any officer of the Nebraska Telephone company in Omaha Saturday, upon whom he could serve the board's order, requiring the production of the company's financial statement of earnings and profits.

The board received the report in silence and continued the hearing of the Commercial club's complaint against the company's assessment until 2 o'clock tomorrow afternoon, when some action will be taken. The case of the Gas and Electric company was considered, but no decision reached.

Charters were issued today to these new banks: The Bank of Scotia, capital stock, \$5,000; incorporators, Charles B. Goodell, G. W. Pittsmon, Charles D. Anderson, Theodore H. Miller, Vincent Kokes, H. D. Coe, Anton Dreier, Clarence Coe, Samuel P. Graham. The Bank of Murdock, capital stock, \$10,000; incorporators, Charles Guthman, F. Wolf, Henry A. Tool, C. E. Mockenbaupt.

The York County Telephone company of York, filed articles of incorporation in the secretary of state's office. The company capitalizes for \$20,000. Its incorporators are: E. A. Wells, J. W. Straight and C. N. Beaver.

Charles Q. DeFrance, fusion candidate for state auditor, filed a statement today showing that his expenses in connection with his stand for the nomination amounted to \$2.65. Of this amount \$2.25 was expended for badges and the remaining 40 cents for stamps.

Adison Waite of Syracuse today assumed the position of head bookkeeper in the secretary of state's office, succeeding Fred Miller who was promoted two weeks ago to the office of deputy.

The change was occasioned by the resignation of Deputy F. W. McCartney, who became postmaster at Nebraska City.

Attorneys E. W. Simeral and John D. Howe of Omaha, and M. F. Harrington of O'Neill, who appear in a legal capacity before the supreme court tomorrow against the State Board of Equalization, in the mandamus case instituted by The Bee Building company, arrived in Lincoln last night and today held a conference preliminary to tomorrow's hearing.

Crop Condition in Johnson.

TECUMSEH, Neb., July 7.—(Special.)—A slight fall of rain visited this section last night. During the month of June nearly thirteen inches of rain fell at this point. The farmers have worked early and late in the wheat fields on the uplands during the last week, but the fields on the lowlands are yet too soft for the machines. Considering the damaging elements the wheat is turning out well, the farmers

CHAUTAQUA SESSION CLOSES

Assembly at David City Brought to Successful Climax with Large Attendance.

DAVID CITY, Neb., July 7.—(Special.)

Yesterday was the closing day of the second annual session of the David City Chautauqua assembly and the climax was reached in point of attendance. Special trains were run from Fremont and St. Paul, and they brought large crowds.

Dean Alfred A. Wright of Cambridge, Mass., delivered two addresses that were entertaining and instructive, one in the forenoon, "The Supreme Duty of the Lord Jesus," and one in the afternoon, "Whose Bible Do We Believe?"

In the afternoon, "The Haymakers" rendered a sacred cantata. This organization is under the direction of Prof. W. H. Myers, and gave one of the best entertainments of the assembly.

The evening program was a sacred concert by the Orpheus Jubilee Singers, by far the largest crowd yet on the ground heard them and their work was warmly applauded.

Notwithstanding the continuous and excessive rains during the entire time the attendance has been phenomenal as compared with last year, and the receipts have exceeded by a large margin.

A company is now being formed and the David City Chautauqua assembly will be a permanent organization.

TREATS BABE INHUMANLY

Iowa Man at Ord Throws New-Born Infant in a Hole and is Jailed.

ORD, Neb., July 7.—(Special.)—O. C. Winden, declaring to come from Anita, Ia., is in the county jail here awaiting the verdict of a coroner's jury, which will probably result in a serious charge being preferred against him.

He is a horseman, and came here May 5, putting up at the Transit hotel. He was joined May 22 by a woman, purporting to be his wife. During the night of July 3 a child was born to them. Early the next morning Winden carried the child in a wooden bucket and dumped it in a shallow hole in the corner of his horse lot and covered it with an old skirt.

When the landlady went to the room occupied by the couple she was told by the woman that the child had been dead. The authorities were notified and Coroner Brink at once started an investigation. The doctors think the child would have lived with proper care.

The couple claim to have been married at Des Moines, July 4, 1900. The woman's name was Laura Kelley.

Guests in the hotel say they heard a baby's cry during the night. The coroner's jury is still examining witnesses and it may be some time before a verdict is reached.

WOMAN BURNED TO DEATH

Falls in Pit While Carrying Lamp at Nebraska City and is Fatally Injured.

NEBRASKA CITY, Neb., July 7.—(Special.)—Mrs. Margaret Buchanan was burned so severely yesterday morning that she died late in the afternoon.

She was awakened by a noise and getting up she lighted a lamp and started to investigate, when she was taken with an epileptic fit, which she has been subject for many years. She fell on the bed, breaking the lamp and setting fire to the bed. Before she came out from the attack her entire body was burned to a blister.

Her screams aroused her son, who was in the room, and he extinguished the flames and sent for help. Everything possible was done for her, but she died in agony about 4 o'clock in the afternoon.

BOUNCES AN OIL INSPECTOR

Deputy Glasgow Asked to Resign for Alleged Violation of Orders of His Chief.

LINCOLN, July 7.—(Special Telegram.)—State Oil Inspector Hayes has asked for the resignation of Deputy Inspector Hugh Glasgow, because of his violation of the order prohibiting the inspection of oil in bottles at railroad stations, and has selected Ed A. Church of this city as his successor.

Glasgow will be in Lincoln tomorrow and, it is understood, will resist the action. Hayes alleges that he has conclusive evidence against him. It is explained that the merchant who dealt in oil along a given railroad route will bring his samples to the stations, that the inspector may perform his task without leaving the train.

JAILBREAK AT GRAND ISLAND

Two Prisoners Escape by Forcing an Exit with Cripple's Crutch.

GRAND ISLAND, Neb., July 7.—(Special.)—About 11:15 last night County Jail Guard Thorne discovered two prisoners, who had just crawled out through the jail window. They ran to the opposite corner and turned, allowing the jailer but one shot.

Only two having made their escape and there being nine in the jail in all, the jailer paid attention to the men left behind and the escape of the others was prevented.

A crutch of one of them was crippled was found near the window, from which the men had removed the iron grating by mining away all the masonry. The two who escaped were serving time for minor offenses.

POINTS TOWARD A SUICIDE

Clothes of Old Man Found on Platte River Bank and Theory is Self-Destruction.

FREMONT, Neb., July 7.—(Special Telegram.)—J. Datal of North Bend left his home Sunday morning and is thought to have committed suicide by drowning in the Platte. Some clothing identified his was found today near the bank of the river. He was very despondent and for some time had seemed badly worried.

Searching parties have been this afternoon watching the river and sandbars without avail.

He was about 70 years of age and retired from active business. A son of his is in the mercantile business at North Bend.

Assailant Makes Good Escape.

TECUMSEH, Neb., July 7.—(Special.)—The bloodhounds were unsuccessful at following the trail of the fellow who broke into the Chenoweth house here Friday night and attacked a 15-year-old girl. The scent was pretty old when the dogs were put to work, and two slight showers of rain had fallen between the time of the act and the arrival of the dogs.

Sunday Schools Meet at Tecumseh.

TECUMSEH, Neb., July 7.—(Special.)—A district Sunday school convention was held in this city Sunday, at the Baptist church in the afternoon and the Presbyterian church in the evening. The attendance was good.

DAMAGE BY WIND AND WATER

Heavy Losses from Storms Result to Crops and Other Property.

GAGE COUNTY IS WORST SUFFERER

Struck by Deluge Which Sends Blue River on Rampage, Flooding Fields and Causing Washouts.

BEATRICE, Neb., July 7.—(Special Telegram.)—This section was visited by a cloudburst this morning, 1.69 inches of rain falling in less than an hour. The Blue River and its tributaries rose rapidly and soon flooded the bottom lands. A three-inch rainfall is reported at Wilber and De Witt and nearly that amount at Crete.

A big washout occurred on the high line west of De Witt and on account of the Burlington tracks being under water west of Crete several westbound mail line trains were sent through this city via Wymore today.

The Burlington and Union Pacific roads experienced no trouble in getting trains through to Lincoln this morning. The river is still rising and fears are entertained of another disastrous storm sweeping this locality. The oats and wheat crops will be damaged badly as a result of the storm.

RED CLOUD, Neb., July 7.—(Special Telegram.)—A disastrous storm swept this country early this morning. Over two inches of water fell at this place; reports are coming in of damages from wind, rain and high water.

MEAD, Neb., July 7.—(Special.)—The rain Saturday evening, yesterday and this morning, has done a large amount of damage to the small grain crop, as the farmers are unable to continue harvesting. This is cut and shocked is damaged to such an extent that some of it will not be worth threshing. Corn is not much damaged, but farmers are not prospering properly. It is by far the worst of proper cultivation the crop may be shortened. A small amount of corn in low places is submerged, but this is a very small percentage.

STREETS OUT OF BANKS.

HEBRON, Neb., July 7.—(Special.)—A sharp electrical storm, followed by a fierce wind, rain and hail storm, visited this city Saturday evening, doing much damage to growing crops and causing a precipitation of 4.11 inches, the heaviest rainfall since 1881.

The rivers and creeks have risen out of their banks and now cover a broad area of fields of wheat, corn and oats. The rivers are still rising and the farmers apprehend more serious damage before they subside.

YORK, Neb., July 7.—(Special.)—York county was again visited by rain and the precipitation was 3.1 inches. The crop is in the best of condition. It has been very wet, wheat has been harvested so far without much loss.

NEBRASKA CITY, Neb., July 7.—(Special.)—There was almost a cloudburst over the city this morning and a number of bridges were washed away. Some damage was done the small grain, but it is not serious except in a very restricted area.

There was a washout on the Missouri Pacific three miles above here. The train was held up for three hours. The creek bottom was washed away and around via Weeping Water. The stub took the passengers south and met the train at Auburn.

ALBION, Neb., July 7.—(Special.)—Boone county has had over three inches of rain this week. A heavy wind and rain storm Saturday evening did some damage to heavy oats and wheat. A large barn of Asher Warner was demolished. It was insured. Corn never looked better. Fall wheat and rye harvesting is now on, each yielding a very heavy crop.

RAILROAD TRACKS WASHED OUT.

FAIRBURY, Neb., July 7.—(Special Telegram.)—Heavy rains in the last forty-eight hours have caused the Little Blue river to overflow its banks and flood the bottom land, destroying a large acreage of crops. Travel over highway bridges on the river is impossible. No trains are running on the railroad. The St. Joseph & Grand Island railway reports a washout east and west of the city. The Rock Island has a washout west of the river and several breaks on the Nelson branch of the same line. The B. & M. reports two washouts on Rose creek, west of 223 miles, against the Republicans at Culbertson was partially destroyed.

OAKLAND, Neb., July 7.—(Special.)—Saturday evening a severe storm passed over Oakland and east of town there was considerable damage done. Windmills, corncribs and buildings were blown over. At the farm of Prof. Valbrecht, northeast of here six miles, the barn was removed several feet from its foundation and the porch torn from the house. At the farm known as the old Kessler place considerable damage was done, but no particulars have been learned, as wires are down.

NEW TOPOGRAPHICAL MAP.

PLATTSMOUTH, Neb., July 7.—(Special.)—R. C. McKinney and F. L. Owen of Washington, D. C., and M. A. Steele of Marion, Ind., United States geological surveyors, commenced work today for making a 30-minute sheet, which is one-fourth degree of longitude and latitude. After taking the elevation at the Missouri river here they commenced work at a point six miles west of this city, and the survey will include a portion of Cass, Otoe and Lancaster counties. The topographical map is to be made under the direction of the geological survey, and will give all the roads, streams, hills and houses and their elevation.

Called to Lincoln Diocese.

ROCHESTER, N. Y., July 7.—Father John J. Carey, ordained last month, has been called to the diocese of Bishop Bonamus of Lincoln, Neb.

John J. Carey is a young clergyman, recently ordained. He will be assigned temporarily to St. Theresa's pro cathedral, where he will assist Father Reade.

Big Land Sales in Boone County.

ALBION, Neb., July 7.—(Special.)—Some great land sales have been made here during the last few days. The Allerton lands in Boone county, 5,000 acres, were all disposed of in a body to a syndicate at a fine figure. John Peters sold 150 acres for \$10,000. J. D. Brewer sold 300 acres for \$15,000 and A. W. Ladd sold 150 acres for \$3,200.

POLLICIANS ON PAIR PROGRAM.

DAVID CITY, Neb., July 7.—(Special.)—New attractions are daily being procured for the Butler county fair, which commences on July 15. Prof. Henry Shields, with his two thoroughbred hurdle teams, has been engaged for a race during each

TEACHERS HOLD CONVENTION

Annual Meeting of National Educational Association at Minneapolis. TENURE AND SALARIES OF TEACHERS. Fixed Pay and Certain Employment Some of the Things Advocated by Leaders in the Work of Education.

MINNEAPOLIS, Minn., July 7.—Bright skies and balmy breezes greeted the teachers and educators who arrived here today to attend the session of the National Educational association. All incoming trains brought large delegations. The local committees had their arrangements so carefully organized that there was no trouble, and the assignment of quarters went rapidly on.

The meetings of the day were those of the national council and of the Indian educational section. The council is the inner circle of the association and attention to it is esteemed a high honor. Its memberships are limited and run for life.

The session was held in the Unitarian church, and after a few preliminaries Nathan C. Schaeffer of Harrisburg, state superintendent of public instruction in Pennsylvania, read a paper on "Taxation as it Relates to School Maintenance." He declared that as taxation for school purposes is now the accepted policy of every civilized country, its nature and purpose should be taught in connection with history and civics in the schools.

The second paper of the morning was by Albert G. Lane, district superintendent of schools, Chicago, on "Taxation and Teachers' Salaries." He said in part: The reports of county and state superintendents show that if effective instruction is to be imparted to all children, more compensation of teachers, for permanency in their work and for centralized schools in rural districts, is imperative.

He commended the proposition that the fund for the payment of teachers' salaries be increased by the distribution of a larger amount of money to be raised by general state tax, and to be distributed in such a way as to insure the maintenance of rural schools for 100 to 150 days each year.

He continued: Effective administration of a school system can be most easily secured when the teacher can work with the certainty of compensation on a fixed scale, without radical and violent fluctuations, when the general principles of civil service prevail and teachers are retained during efficient service and good behavior. To secure these results in the larger cities the statutes relating to the raising of taxes for the teachers' salaries should be amended to provide for an adequate and definite amount.

The discussion was opened by J. M. Greenwood, superintendent of schools, Kansas City, Mo. Superintendent C. B. Gilbert of Rochester, N. Y., read a paper on the afternoon session of the national council on "The Function of Knowledge in Education."

The other afternoon paper was by William T. Harris, United States commissioner of education, on "The Difference Between Efficient Causes and Final Causes in Controlling Human Freedom."

The discussion was opened by John W. Cook, president of the Northern Illinois Normal school at DeKalb, Ill. The morning session of the Indian educational section at Plymouth church was given up to greetings from Governor Van Sant, State Superintendent J. W. Olson and others. Responses were made by Indian Commissioner W. A. Jones of Washington, D. C., S. M. McCowan, Oklahoma, president of the section; Lieutenant Colonel R. P. Pratt, superintendent, Carlisle school, Pennsylvania; H. B. Pears, superintendent Haskell Institute, Kansas; E. T. McArthur, superintendent Sisseton Indian school, South Dakota; C. F. Pierce, superintendent Briggs Institute, South Dakota; Miss Estelle Reel, superintendent, Indian school, Washington, D. C.

In the afternoon President McCowan read his annual address and a large number of papers were read by Indian educators.

A Good Thing for Mother. If she is tired out, sickly, run down, Electric Bitters will give her new life or more no charge. Try them. 50c.

LEHMANN GETS TWO YEARS. Former Member of St. Louis House of Delegates Sentenced to Penitentiary.

ST. LOUIS, July 7.—Julius Lehmann, former member of the house of delegates, recently convicted of perjury in connection with franchise bribery cases, was today sentenced to two years' imprisonment in the state penitentiary. A motion for a new trial, being denied by Judge Ryan, who, before passing sentence, overruled a motion in arrest of judgment. Lehmann's attorney gave notice of appeal to the supreme court, giving bond in the sum of \$10,000.

Carland Favors Sioux Woman.

SIoux FALLS, S. D., July 7.—(Special.)—Judge Carland of the United States court has granted until July 15, in which to file the answer of the government in the suit of Mrs. Jane E. Waldron against the United States, which involves the ownership of a valuable tract of land adjoining the Fort Pierre townsite. The struggle for the land is between Mrs. Waldron, who is a mixed-blood Sioux Indian woman, and Black Tomhawk, a fullblood, and has been pending for more than twelve years.

Alexandria Journal Sold.

SIoux FALLS, S. D., July 7.—(Special.)—J. W. Beckham, who for some years has been editor and publisher of the Alexandria Journal, has sold the property to W. A. Lamson, a practical newspaper man of Geddes, S. D. The new editor will assume control August 1.

Farmers Make Big Sales.

SIoux FALLS, S. D., July 7.—(Special.)—In one day recently commission houses at Clark paid to the farmers of that vicinity an aggregate of about \$3,000 for wool. On the same day the Clark creamery paid to the farmers nearly \$4,000 in exchange for milk and cream.

If You Want the Best

In looking at offices in different buildings, the greatest praise the owner or rental agent can give an office is to say that it is "as good as an office in The Bee Building." It may be in some respects, but it can not be in every respect.

The Bee Building is one of the only two absolutely fireproof office buildings in Omaha. The Bee Building is the only building having all night and all day Sunday elevator service. The Bee Building furnishes electric light and water without additional cost. The Bee Building is kept clean, not some of the time, but all of the time.

Keep these points in mind when looking for an office, and you will take one of those listed below, if you are wise.

List of vacant rooms in

The Bee Building

Ground Floor.

ROOM 11: 12x12 feet. Faces Seventeenth street and has windows along alley. This is a large, light room, and the rental price includes heat, light, water and janitor service. It has an entrance both on the Bee Building Court and Seventeenth street. Price \$25.00.

First Floor.

SUITE 101: There is no finer office suite in Omaha than this one. It is located just on the right hand of the great marble stairway, and has unusually large windows looking upon the front entrance way of the building. It fronts on Fourteenth street. This room is 12x12 and the other 12x12. It has a burglar-proof vault, marble mantle-piece, hardwood floors, and will be refitted to suit tenant. Price \$25.00.

ROOM 102: This room is just at the head of the main stairway on the first floor. It would be a very desirable office for some real estate man or contractor. The floor space is 10x12 feet. Price \$20.00.

Third Floor.

ROOM 308: This room is 12x12 feet and is very conveniently located near the elevator. A sign on the door can be readily seen in stepping off the elevator. Price \$15.00.

ROOM 309: This room is 12x12 feet and is very conveniently located near the elevator. This room is particularly adapted for some concern needing large floor space and is a exceedingly handsome office, having an entrance leading the court and windows looking out upon Seventeenth street. It has a very large burglar-proof vault, hard wood floors and is one of the choicest offices in the building. Price \$25.00.

Fourth Floor.

ROOM 401: 12x12 feet. This room is next to the elevator and faces court. It has a large burglar-proof vault and is well ventilated. Has good light, and for the price furnishes first-class accommodations. Price \$17.50.

Fifth Floor.

SUITE 514: This is a very large room, 17x24 feet. It faces west, but is very light and well ventilated. It is very seldom that space of this size is offered in the Bee Building. It could be used to advantage by some firm employing a large number of clerks, or requiring large floor space—a wholesale jeweler, or manufacturer's agent, who would like to be in a fire-proof building, or it will be divided to suit the tenant. Price \$50.00.

ROOM 521: This room faces the court and is 12x12 feet. It has a burglar-proof vault, and as it is near the telephone office and on the same floor with a number of grain firms, it would be a particularly good room for a grain firm desiring first-class accommodation. Price \$20.00.

Sixth Floor.

SUITE 610: This consists of two rooms, both 19x21 1/2 feet. Each of them has a large burglar-proof vault and is well ventilated. Has good light, and where any business or professional man may be comfortable. Price for the two \$25.00.
