Among these were several for High school cadet uniforms. For years these uniforms have been furnished by a local firm, it receiving for them \$16 suit. Among the outside blds was one for \$14 per suit by a Cincinnati firm and another for \$14.95 by a Kalamazoo house. Since all the bids were for a heavy quality of cloth, all were rejected, and the secretary was directed to advertise for bids, calling for both heavy and light goods. A resolution authorizing the appointment

of a committee to investigate the feasibility of increased school facilities at or near Monmouth park was adopted. After the adjournment of the meeting the members of the board and several former members, in all about twenty, were

given a supper at the Calumet restaurant by the officers re-elected last night.

C., was in the city yesterday on his way from Stanley Basin Idaho, to the national capital with samples of gold ore which he extracted from a new mining discovery made by himself in the Stanley Basin, sixty-eight miles north of Ketchum, June 14. He will have the samples assayed by the government as-

Captain Bryan represents a syndicate in which ex-Senator John M. Thurston is interested. He reports the finding of a rich ledge of gold, which he believes will turn out more abundantly than the prolific fields of Thunder Mountain, near his place. He exhibited several rich-looking specimens

here yesterday. Owing to the favorable location, the excellence of the roads and the proximity of the mine to the railroad, Captain Bryan says that there will be millions in his discovery if the gold turns out no more than \$5 to the ton. The field is one of the oldest and richest placer districts in the west. But the syndicate represented by Captain Bryan will install machinery for quartz

mining at once. Captain Bryan carries with him to Washington a petition aigned by 120 people for a postoffice which he believes will be opened near his claim. He looks for a large influx of prespectors and a profitable output of the precious metal within the next few months. He says mining can be carried on in the winter, notwithstanding the fact that he waded through a foot and a half of snow on the Fourth of July to making his way out of the country.

Final Figures on Assessed Valuation of City Reported to Council.

ANTI-SALOON LEAGUE MAKES REQUEST

Matter in Which it is Interested is Referred to Mayor Kontaky, Who Takes Whole Thing Under Advisement.

At the council meeting last night City Tax Commissioner Fitzgerald turned in a statement showing that the revised figures of the recent assessment showed a valuation of \$16,091,205.86. The communication was placed on file without comment.

There was a remonstrance presented against the council passing the proposed water company ordinance. A request was made that the question of an extension of the franchise ordinance be submitted to the voters of South Omaha. By direction of Mayor Koutsky, who occupied the chair, the remonstrance was placed on file.

Several members of the Anti-Saloon league were present and anticipated a report from the license committee. In order not to disappoint the leaguers, Broderick, as chairman of the license committee, submitted a report, referring the entire matter to the mayor. Then one of the members of the league arose and asked what by H. C. Corsa, formerly of the appraiser's the mayor was going to do about the petition filed. In reply Mayor Koutsky said that he would take the matter under advisement.

A new curfew ordinance was introduced expected at the Treasury department, did and referred to the judiciary committee In speaking for the ordinance Colonel Alexander Hogeland told the mayor and members of the council what good had been done by the passage of similar ordinances in other cities, and he urged most earnestly that the ordinance suggested by himself be passed to take the place of the present curfew ordinance. In order to allow the city attorney to draft the appropriation and levy ordinances the council adjourned until tonight, when

it is expected that these documents will

be presented and read for the first time.

Revised Figures Submitted. A session of the finance committee of the city council was held yesterday afternoon, when Tax Commissioner Fitzgerald submitted the corrected figures of the 1902 city assessment. The Board of Review made a number of changes and in going over the books Mr. Fitzgerald found a number of clerical errors, which were cor-The valuation, as now returned by the tax commissioner, is \$16,091,205. Annoy Garbage Hauters.

Owing to the delay in making arrangements with Herman Kountz for an open road to the river those here who are en gaged in hauling dead animals and garbage are compelled to go to Omaha and then drive through a portion of the roadway in Riverview park in order to reach the point on the river where the city garbage is dumped. This long drive adds additional expense to each trip and prevents to a great extent the rapid disposal of garbage. On account of the altercation now going on between the owner of the land abutting on the river and the city officials the erection of a crematory has been suggested. Such an affair would cost money, but for years past there has always been a fuss about a road to the river and a great deal of money has been spent in trying to make a suitable road. It was asserted by a member of the council yesterday that if a suitable piece of ground could be secured, which was easily accessible, it would pay the city to erect a crematory, and thus do away with all of the bother about dumping refuse into the river. It is understood that an eastern company stands ready to take up the proposition, providing the city officials do not care to do so. In case an independent company was formed it would be necessary for the city to grant a ten-year franchise for the handling of garbage.

Cudahy Reopens Shops.

Yesterday E. A. Cudaby, vice president of the Cudahy Packing company, gave directions that the carehops at his plant be reopened. About twenty-five men went to work at once at the old scale of wages. There was no strike at these works, but about two weeks ago Mr. Cudaby decided to close down the shops. This was brought about by a demand from the men for an increase in wages. In reply Mr. Cudahy closed the works. An agreement of some sort was reached yesterday between Mr. Cudahy and the carmen and the result was that the shops were opened. In speaking of the matter last evening Mr. Cudahy said that he expected that by the end of the week the entire force of about fifty men
