SURPRISE CONVENTION

Centest for Nominations More Easily Settled Than Had Been Expected.

PRESENT INCUMBENTS RENOMINATED

Harmony Prevails Throughout the Convention, Which Adjourns, Talks and Confines Itself to

This ticket was placed in nomination yesterday by the republicans of Pottawattamle county, and the list shows that the present incumbents of the several offices to be voted on this fall captured the convention with hands down, figuratively speaking. The anti-third term resolution, which it had been announced would be presented to the convention by one or more of the county delegations, was conspicuous by its absence, and the gathering proved a veritable love feast from start to finish, especially for the officeholders seeking renomination. There was not the least discord, at least none that appeared on the surface, to mar the proceedings, and the a thoroughly businessitke manner and in a surprisingly short time.

These delegates were selected to the state, congressional and judicial conven-

Starts Without a Speech.

When the convention was called to order a few minutes after 11 o'clock by George S. Wright, chairman of the republican county central committee, every precinct was represented by a full quota of delegates except Kane, outside the city, which failed to hold its primary and select the one delegate to which it was entitled. After reading the call Mr. Wright announced Attorney George H. Mayne as temporary chairman and the convention selected Charles labors and has been deprived permanently Atwood as temporary secretary. On as suming the gavel Chairman Mayne said he would refrain from making a speech, as there were no issues at present to talk about. The convention then got down to business and named the following com-

RRUTCH-BOUND

inconvenient and tiresome mode of locomotion - there is no more pathetic sight than a person slowly and painfully moving along the street supported by these artificial limbs.

When Rheumatism settles in the bones and muscles of the legs, it is safe to predict that the victim will eventually become helpless and crutch-bound. The corrosive irritating matter that is deposited in the joints and muscles causes the most intense pain, the knees and ankles swell, and when the natural oils and fluids that lubricate these parts are completely destroyed the joints become locked and the muscles drawn and stiff, and crutches a necessity.

The acid poisons that produce rheumatic pains form in the blood, and are distributed through the system, and lodged in the arms, shoulders, hands, back and feet, or other parts of the body-resulting often in total disability. A permanent cure of Rheumatism can be effected only by a complete cleansing of the blood, and no other remedy so surely accomplishes this as S. S. S. It neutralizes the acid effects, purifies and invigorates the stagnant blood, and the gritty corrupt particles are washed out or dislodged by the

new rich blood, and relief comes to the pain-racked sufferer. S. S. S. leaves no morbid, irritating matter in the blood to reunite and produce another attack, but expels every atom of it from the system. S. S. S. is a purely vegetable remedy, and does not impair the digestion or general health like alkali or potash remedies. Write for our special free book on Rheumatism, and if any medical advice or other information is wanted, our physicians will gladly furnish

it without charge.
