AFFAIRS AT SOUTH OMAHA

Dommence to Talk About Proposed Amend ments to the City Charter.

MORE MONEY NEEDED FOR SOME PURPOSES

Proposition Advanced to Vote Bonds at Fall Election to Take up the Floating Indebtedness of the City.

Since the levy has been made there is more talk than ever about having changes made in the charter at the next session of the legislature. Members of the council give it out that a committee will soon be appointed to go over the charter and pick out the defects and then the city attorney will be requested to draft amendments. What is wanted is permission to make a larger levy for fire, water, police, street repairs and street lights. There is constant demand from the people for improvements and the money can only be secured by levying taxes. Very likely at the fail election a proposition will be submitted to the people to vote on an issue of bonds to take up the overlap and provide money to pay interest. At the present time the general bonded debt of the city is \$307,-000, and the district indebtedness is \$225,wide for interest due on outstanding bonds.

Search Warrant Served.

At the instigation of Mayor Koutsky a city property supposed to be in the pos-session of W. L. Holland, the city electrician. It will be remembered that on July 1 Mayor Koutsky declared the office of city electrician vacant and as the coun- and work wonders for a weak, run-down cil has not confirmed anyone for the place system. Try them. Only 50c. Holland kept on attending to his duties as electrician and assistant fire chief.

Chief Briggs, attended by Captain Troutan, Officer Alstedt and George Curtis, called upon Holland and served the search warrant, which called for certain storage batteries.

The chief was told what property belonged to the city, but in the rush quite a bit of property belonging to the Nebraska Telephone company was carried away and the officers who served the warrant will now have to account to the

Anti-Saloon League Matters.

Mr. Knight, a prominent member of the Anti-Saloon league, called at The Ber office last night to say that the members of the league were not at all disappointed at the action of the city council in referring their petition to the mayor.

Continuing, Mr. Knight said: "Permit us to say, through the columns of The Bee. that the league is not disappointed by the council not having taken any action on our petition, in which we requested that the laws regarding the sale of liquor be enforced. Referring the matter to the mayor is exactly what the members of the league desired. From the first the league has taken the ground that the mayor, being the chief executive of the city, and having control of the police force, is the official responsible for the enforcement of the laws he is the one we will look to for results."

More Washouts. Reports of bad washouts all over the city continue to come in to the officials at the city hall. On Q street, between Twentyfirst and Twenty-second streets, the road is practically impassable. This road is filled ground and the drainage is poor. Every time there is a beavy rain portions of this street wash out, and it costs the city more to make the fills than it would to pave the street from Twentleth to Twenty-fourth street. It is the same on Missouri avenue. The property owners on this stree are circulating a petition for the paving of the street. When a sufficient number of owners sign it is thought that the street will be paved with brick and that will put a stop to the large number of washouts on the street and also prevent the delay to s trame.

City Relays Sidewalk.

On Monday Louis Fifillo, owner of the property at the northeast corner of Twenty-third and H streets, made a demand of the city that the permanent brick walk laid a short time ago and recently torn up by Street Foreman Miller be relaid at the expense of the city. At the time the walk was torn up Miller asserted that the walk was not on grade, but a survey by the city engineer showed that it was. The city has relaid the walk.

Hogeland Addresses Exchange.

Yesterday afternoon Colonel Alexander Hogeland addressed a number of the members of the South Omaha Live Stock exchange at the exchange building on the matter of the passage of a curfew ordipance. It is understood that the members of the exchange will support Colonel Hogeland in his efforts to secure the passage of the necessary ordinance.

Magie City Gossip.

Mr. and Mrs. P. A. Wells have gone east or a couple of weeks' visit. Fred Scott is back from a week's stay with relatives at Sloux City H. J. Peterson, a wealthy Wyoming cattleman, was at the yards yesterday. Miss May Carlin, one of the stenographers at the city hall, is on the sick list. The South Omaha cavalry troop will hold business session at the troop amory to-

Archbishop Ireland Delivers Address to Educators at Minneapolis.

LARGE ATTENDANCE AT CONVENTION

High Water Mark is Reached and Over Twenty Thousand Teachers Are Gathered in the City of Mills.

MINNEAPOLIS, July 9.-High water mark in the attendance at the National Education association convention has probably been attained and it is assured that the attendance record has been broken. The visitors in the city today were estimated at considerably over 20,000. A good-natured rivalry has sprung up be tween Iowa and Wisconsin for the largest delegation from any other state other than Minnesota. Each state claims 2,000 present. Indiana will probably hold third

The department meetings were all well attended today and there were fifteen of them. Tomorrow there will be thirteen meetings and Friday, when the convention closes, there will be twelve. The feature of the day was the great meeting of the general association tonight in the Expo-sition building. The attendance did not

Hon. Michael Ernest Sadler, L.L. D. "Hope," for nearly an hour held his audience with one of the most thoughtful and scholarly addresses delivered as yet before work in England and showed clearly that work and the workers in the two countries and that great good would result from an interchange of ideas, suggestions and experience.

The principal address of the session was delivered by Archbishop John Ireland of St. Paul. The well known churchman and orator was at his best and was given a

warm reception by the great assemblage Chief Virtue of the Prencher.

"Devotion to the Truth, the Chief Virtue of the Preacher," was the subject of the archbishop's address. Particular interest was shown in the archbishop's reference to the Spanish-American war and to conditions in the Philippines. He said in part:

the Spanish-American war and to conditions in the Philippines. He said in part:

I am one of those who see in the sequence of the late Spanish-American war the guiding hand of a mighty providence and the outburst of forces long gathering in the bosom of the nation, sure, at one moment or another, to break out in a respectices self-assertion. Nevertheless, I shall never deny that among the immediate causes of the war there are to be numbered the exaggerated statements, the lies, too, and the calumnies, the ceaseless appeals tured and disgraced the utterances of certain other manipulators of public opinion. I know for a fact that the instructions going from the office of a newspaper to its European correspondent read this wise:

With all that makes for war, nothing the exaggerated statements, the less too, and the calumnies, the ceaseless appeals to read the utterances of certain other manipulators of public opinion. I know for a fact that the instructions going from the office of a newspaper to its European correspondent read this wise:

With all that makes for war, nothing the mentor of the general welfare of humanity I should have devotion to truth prevali! I should name the newspapers. The greatest needs she enumerated were training in clear, definite, brief power of statement, greater simplicity of exprescion for teacher and pupil, greater power of illustration and marked extension of oral,

combined with written work, System of Supervision

James Remsen of Cincinnati aroused the department by his demand for a closer system of supervision of schools by the state. He pointed out that the extraordinary activity in educational matters had given rise to confusion and lack of coordination. Present state bureaus, he declared, do not supervise thoroughly and well because too small and underpaid. In the department of business education

the president, I. O. Crissy of the regents office, Albany, N. Y., said that a committee of nine had spent the year formulating a general course of procedure and detailed courses of study for business education in public high schools. The demand for fouryear courses was so strong and showed so decided a trend toward practical business instruction that the committee's work was most important.

Digests what you Dyspepsia Cure

We have heard a great deal about "heart to heart talks." The little talks where people get right down to honest reason, to common sense.

You have no doubt at some time or other experienced the annoying and painful symptoms of indigestion. Digestion is the process by which nature transforms our food, by means of various juices called digestants, into blood which is then carried throughout the body and used to make flesh, muscle, bone, nerve, brain and material of every kind of which the body is composed.

Indigestion may arise from a variety of causes, but generally because some of the elements which make up the digestive juices

Undigested food gives you all kinds of trouble

In the first place you have a most distressing feeling in your stomach, especially after eating. Soon this undigested food ferments, the gas distends the stomach, and in its efforts to escape, it causes belching. It also causes a pressure against the nerves and arteries leading to the heart, giving rise in the mind of the sufferer to the idea that he

from correct. Most supposed heart trouble is nothing more nor less than indigestion. of course that is serious enough but you

want to know where the seat of the trouble is, so you can treat it properly.

Again, such food as should be digested in the stomach but is not digested there, passes into the intestines and bowels where it causes more trouble. The bowels become constipated or "clogged up", the waste matter is not passed off but is to some extent absorbed heart in the system. This rolents absorbed back in the system. This poisons the blood. Then what can you expect? Can any person think that this poisoned blood can make healthy flesh, healthy bone, healthy kidneys, healthy liver, healthy bone, healthy kidneys, healthy liver, healthy heart, or a clear, healthy, active brain? Is it any wonder that ninety five per cent of the American people have bodily afflictions? The whole point is this. If people would digest their food properly most human ills would discovered.

You no doubt would cure your indigestion if you knew how, wouldn't you? Certainly. Now if the digestive juices or fluids are lacking but we substitute something com-posed of exactly the same elements or ingredients, isn't it common sense that the result will be the same? If a certain

combination of elements will complete-ly digest food in a glass tube or in a bottle, under proper conditions, isn't it common sense that the same elements will digest the food in the stomach? Of course it is; it can't help it. Several years were expended in perfecting a preparation that would do this very thing. The result was Kodol Dyspepsia Cure. It contains every element necessary to the complete and perfect digestion of all classes of food.

It permits you to eat all the good food you want and digest every particle of it without any ald whatever from the stomach, allowing the digestive organs to rest and regain their normal healthy condition and strength. By digesting all you eat, Kodol Dyspepsia. Cure tones up the entire system. It will give you life, health, strength, ambition, a good appetite, sound, healthful sleep and pure, rich blood that will enable nature to correct many tills to which the other organs. correct many ills to which the other organs of your body may be subject.

Kodol Dyspepsia Cure never falls to cure dyspepsia, indigestion and stomach troubles, even after all other medicines have failed. Can there be any possible reason why it will not cure you?

Heart to Heart Talks. Candid

Dear Sirs:—I had suffered for years with stomach trouble and after doctoring with several doctors who did me no good and after being in bed three weeks at one time when I could eat nothing, and my heart troubled me and ached so at times that I thought I was going to die, a friend recommended your Kodol Dyspepsia Cure. After I began taking the first bottle, I commenced to improve at once and my appetite began to improve at once and my appetite began to improve. Now after taking two bottles, I am so that I can eat anything and every-thing. I cannot recommend too highly the Kodol Dyspepsia Cure to all sufferers with stomach trouble and indigestion, and would stomach trouble and indigestion, and would say to all that if you will only try it, you will be cured as I am now, after having spent hundreds of dollars with doctors and getting no better, while a few bottles of Kodol Dyspepsia Cure made me well.—Yours most respectfully, Mrs. Julia Hursh, Butte des Morts, Wis.

Dear Sirs;—It gives me great pleasure to write you concerning the good qualities of Kodol Dyspepsia Cure. I had a stomach trouble of four years standing, which was so bad at times I was forced to abandon business and remain in bed.

I had tried physicians and all kinds of dyspepsia tablets in vain. At last through the recommendation of my druggist I tried a bottle of Kodol Dyspepsia Cure. The effect was highly gratifying, as I received im-mediate relief and less than two bottles effected a complete cure. I never travel without a bottle of Kodol Dyspepsia Cure in my valise. It does the work quickly and thoroughly and I cannot

say too much in its praise.—Yours truly Geo. R. Colbath, Alpena, Mich. Luke J. Collins of East Windsor, New York deposes and says that he has been troubled with dyspepsia for two years, having acidity

of the stomach (heartburn) and indigestion so that he took no comfort from eating any kind of food, but after having tried prescriptions from several physicians without any permanent relief, by taking two bottles of Kodol Dyspepsia Cure he appears to be cured.—Luke J. Collins.

to be cured.—Luke J. Collins.

Sworn and subscribed to before me on the 13th day of June, 1901.—Geo. E. Collins, Notary Public.

Gentlemen:—I have sold all the Kodol Dyspepsia Cure I bought of you and ordered twice from the jobber. I recommend on my own accord every bottle of Kodol Dyspepsia Cure I sell and haven't heard of a single complaint. Yours, Jno. P. Isterling, Corydon Junction, Ind.

Dear Sirs:—After seven years of suffering from chronic indigestion. I was finally

from chronic indigestion, I was finally cured by using three bottles of Kodel Dyspepsia Cure.—Mrs. Annie Alcorn, Meredith, Pa.

Its work is held to be a long step toward desirable national uniformity among leading schools and colleges.

Hold Department Meetings

Of the department meetings held this Temorrow another general session will afternoon the one of most general interest be held, when James Wilson, secretary of was that of special education, held at the agriculture; Mrs. Carrie Chapman Catt of Hennepin Avenue Methodist Episcopal church. Dr. David Graham Bell, the inventor of the telephone and president of the department, explained the objects of the department and the wonderful work which it and the educators of defectives throughout the country is doing. Dr. Bell's remarks were frequently interrupted by applause. In the course of his address he said: "One of the greatest defects of the present methods of the education of defectives is the sending them to special schools and taking them away from the home. This can in a large measure be done away with by the establishment of day schools for special instruction as a part of our regular public school system. Of course I do not university, on the need of more practical advocate the doing away of the special schools, but the work is only a small part tion and co-ordination of the work on the of what could be accomplished by a well teaching of the actual instead of the the- organized system with an efficient corps of oretical child as the ultimate purpose of trained instructors. Children partially defective are at the present time drifting along without adequate instruction, and the

Government for Peace.

REBELS COMPLETE AMNESTY

Promise is Also Made to Reform Existing Electoral Laws Over Which the Revolutionists Have Been

WASHINGTON, July 9 .- Senor Don Jose Concha, the Colombian minister at Washington, today made the following statement regarding the terms offered the revolutionists in Colombia if they will surrender

Fighting.

The Colombian government has offered to the rebels complete amnesty, freedom ville. A number of delegates were onof prisoners, help for transportation of the chiefs and soldiers of the rebel army to Crow" laws are in force, but Bishop Clintheir domiciles, with true security for ton declared the obnoxious laws are not their persons and property, reform of the enforced in Louisville and it was time for electoral laws, with the intervention of the council to quit dodging the south and the prominent members of the revolution- to hold its meetings in some of the cities ary party, immediate convocation of congress and guarantees of liberty and securfty of suffrage in the next elections. The Colombian president, Senor Marroquin, was not in office when the revolution started in 1899, and what he offers today was the same he offered during his first administration in 1898. The liberal directory in Bogota has accepted the terms offered by the president and a great number of heads of guerrillas in the center of the country have surrendered, but the leader of the rebellion abroad, Senor Vargas Santos, has asked for the payment of the debts contracted in foreign countries by the rebels and for the appointment of several members of the retal forces to government po-

Demands Not Conceded

These two demands have not been conceded. The conduct of Senor Santos is not approved by the majority of his party, and hence this chief has limited his pretensions to the appointment of a new government, but the government has not yet answered this proposition.

In Washington the matter is conducted by the Colombian minister, who requested from the rebel leader, Senor Santos, the issuance of a solemn protest against the intervention of foreign governments in the Colombian civil war, an intervention which was originated with the purpose of awakening Colombia in order to decide afterwards the controversies of boundaries be tween those foreign countries and Colombia. The rebel leader has declined to

issue and publish such a protest. The interior of Colombia is nearly pa cified, the principal chiefs of the rebellion, Vargas, Uribo-Uribe and Soto, have left the country after serious defeats. The only point at which the war continues with any importance is at Panama. The purpose of the rebels today is reduced to that of maintaining a situation that will make impossible the regular administration of public affairs, especially in the isthmus, and protecting in this manner the interests of a neighbor which has a great interest in those disorders, so as to prejudice the United States against the canal and prevent negotiations in this matter. To remuneral the rebels' service with supplies of arms, ammunition and soldiers with which to kill Colombian brethren, to annihilate public wealth and destroy the hope of progress of their own

Brooklyn Eagle: -The medical men retired from the operating room after the operation was performed and stepped in the antercom to shake the hand of con-

gratulation. "Glorious operation," said one. "Most successful, precise incision and omplete evacuation of the abcess," said

mother. The operator smiled modestly as these compliments were showered on him. The

commonplace layman sidled up and remarked: "Then the patient will recover? I am so glad of that." The three medicals looked down haught-

ily upon the layman and, after an embar-

rassing pause, one said: "We were talking of the operation. That was gloriously successful. Don't annoy us with secondary considerations." Ten days later the layman attended a

Funeral Notice. The members of North Omaha lodge No. 189, A. O. U. W., are requested to at-tend the funeral of our late brother, Charles A. Lundell, from residence, 2008 Charles street, Thursday afternoon at 2 o'clock. Interment in Prospect Hill. Sister lodges invited.

L. H. SROUFE, rvited. L. H. SROUFE, Master Workman. F. M. M'CULLOUGH, Recorder.

often the healthiest of a family of chil-dren? The reason seems to suggest it-self. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They est well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made hap-py by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription." "I will be very glad to say a few words for Dr. Pierce's Pavorite Prescrip-tion," writes Mrn. P. B. Douglas, of Mannonwille, Brome Co., Quebec. "Dur-ing the first four mouths, when I looked forward to becoming a mother, I suf-fered very much from nau-sea and vomiting, and I felt so terribly sick I could scarcely eat or drink any.

Those who suffer from chronic disby letter, free. All correspondence strictly private. Address Dr. R. V. strictly private. Ad Pierce, Buffulo, N. Y.

Dr. Pierce's Plessant Pellets cure bil-tousness and sick headache.
