Sharp Advance Follows Early Recession in Grain Pits.

FAVORABLE WEATHER HAS BEARISH EFFECT

Depressing Influence is Short, However, and All Cereals Record Good Gains—Provisions Quit Unchanged to Lower.

CHICAGO, July 11.—Excellent weather, combined with weak cables, caused weakness in wheat today at the opening, but reports of damage of grain in the shock brought about a rally and September closed ⅝@¾c higher. September corn closed 1@1¼c higher. Oats were ⅝@¾c higher, while September provisions closed unchanged to 2½c lower.

Owing to favorable weather and lower quotations from Liverpool there was a short-lived pressure of offerings of wheat at prices slightly under yesterday's closing prices. A brisk demand, however, due to reports from the west and southwest of predictions of rain, quickly brought about a stronger feeling and the close was decidedly bullish. September opened ¼c to ⅝@¾c lower at 72c to 73⅛@73¼c, advanced to 74½c and closed strong and ⅝@¾c higher at 74½c. Seaboard clearances of wheat and flour were equal to 265,000 bushels. Primary receipts were 591,000 bushels, compared with 835,000 bushels a year ago. Local receipts were 70 cars, with 3 cars of contract grade. Minneapolis and Duluth reported receipts of 347 cars, making a total for the three points of 417 cars, against 379 a year ago.

Trade in corn was not particularly heavy, but after a weaker opening caused by increased receipts and good weather the market was strong. The leaders in the bull movement in the July option were credited with buying considerable September, but trading in July was limited. September opened a shade to ⅛@⅜c lower at 60¾@61c and after selling up to 62¼c, closed strong at 62c, a gain of 1@1¼c. July opened 1@3c higher at 83@84c, advanced to 86½c early, then declined gradually, closing with a gain of 3½c at 85¼c. Local receipts were 287 cars, with 52 of contract grade.

Oats were heavy on good weather and a better government report than had been anticipated at the opening, but in sympathy with wheat and corn prices. Trade was only moderate and offerings late in the session were light on predictions of rain in Iowa and Nebraska. September opened ¼@⅜c to ½@¾c lower at 33⅛@33½c, advanced to 34¼c and closed ⅝@¾c higher at 34⅝c. Local receipts were 91 cars.

Provisions had a weaker opening on larger receipts and lower prices for hogs at the yards, and considering the amount of realizing sales of lard by some longs the market exhibited remarkable firmness. The highest price of the season was reached today in lard, and the high figures naturally caused considerable realizing, with a consequent decline. September pork closed 2½c lower at $18.70, after selling between $18.65 and $18.70. Lard closed unchanged at $11.15 after a range between $11.10 and $11.22½. Ribs were a shade lower at $10.90@10.85.

Estimated receipts for tomorrow: Wheat, 105 cars; corn, 315 cars; oats, 120 cars; hogs, 37,000 head.

The leading futures ranged as follows:

METALS—The markets today were narrow and uninteresting at home and abroad Variations from yesterday's prices were few and unimportant. In copper a fairly steady tone was noted, with business, however, quiet. Standard, spot to August, made a slight gain, closing at $11.50@11.85; lake closed at $12.00@12.15, electrolytic at $11.90@12.05 and casting at $11.75@11.95. The London market was quiet, with spot at £53 2s 6d and futures at £53 7s 6d. Locally tin ruled quiet at $28.50@28.75, and in the English market at £127 10s for spot and £125 10s for futures. Lead was quiet and steady here at $4.12½, while London was quoted at £11 6s 3d. Spelter remained quoted at $5.12½ and firm. London was unchanged at £19 2s 6d. Trade in iron has tapered off considerably of late and the tone is possibly a trifle easier, though prices show no change in the local market. Warrants are nominal; No. 1 foundry, northern, $22.00@23.00; No. 2 foundry, northern, $21.00@22.00; No. 1 foundry, southern, $21.50@22.50; No. 2 foundry, southern soft, $21.50@22.50. NEW YORK STOCKS AND BONDS.

Early Advance is Shortlived and General Depression Follows.

NEW YORK, July 11.—Opening prices this morning were at the lowest of the day. There were striking advances afterward, notably in Rock Island and Missouri Pacific, but these proved unavailing to sustain the general market, which sagged slowly but steadily throughout the rest of the session.

The majority of stocks closed lower than last night and the declines were substantial in New York, Chesapeake & Ohio, Chicago & Northwestern and others which have recently been prominent in the rise.

The spurt at the opening was due especially to the encouragment felt on account of the government's monthly crop report, especially in respect to corn, which had a stimulating effect on the demand from the grain-carrying roads; but it became plain at once that the buying was conspicuous only in Missouri Pacific and Rock Island, which stocks are peculiarly associated with the bull leaders of the market. Atchison and the other Pacifics did not move more than a fraction at any time.

The perspective of tomorrow's bank statement was the counteracting influence to the crop report. The heavy movement of currency to the interior has been the subject of comment all week. The usual preliminary estimate of the regular press movement of currency to the interior indicates a balance against New York of only a little over a million dollars. But the subtreasury operations promise to bring the decline in the cash reserves up to nearly $5,000,000.

The report of June exports of domestic products explains the continued scarcity of foreign exchange bills, which, together with the continued selling here of stocks for London account, necessitate the large borrowing from foreign lenders. Total exports of domestic products for June have fallen off over $8,000,000 from the previous month and $15,159,330 from June of last year. In fact, it is necessary to go back to July of 1898 to find a month in which the exports of domestic products have been as low as the last month's $40,627,282.

All the items except mineral oils show decreases, but the cutting in half of the breadstuffs exports shows clearly where the principal shortage is. The market closed dull and easy.

Bonds were quite dull and irregular. Total sales, par value, 1,975,000; United States bonds were unchanged on the last call.

Foreign Financial.

LONDON, July 11.—Gold premiums are quoted as follows: Buenos Ayres, 120.30; Madrid, 37.25; Rome, 1.27. There was a brisk demand for money today in connection with Stock exchange requirements, though the pressure was less than anticipated, owing to the preparations made. There was much uncertainty regarding the future, which the Bank of England return did not relieve. There was no visible prospect of prompt repay of considerable borrowings from the Bank of England. Discounts were firm. Business on the Stock exchange was practically at a standstill and prices had a drooping tendency. The weakness was most marked in consols. The Kaffirs' liquidation of a large bull account had not ceased. The exchange was still apprehenive of the outcome, though support of big houses was expected to lessen the difficulties which were once feared. First-class securities were easier. This was partly due to the condition of the money market. Home rails were dull; Americans were irregular and mostly a fraction above parity; they were neglected, but closed steady; Kaffirs fluctuated at first and later were steady.

The failure of a small broker, Bernard Kirschbaum, was announced.

PARIS, July 11.—Business on the bourse today was uninteresting during the early hours, but the tendency was firm; later industrials were depressed, owing to large realigations; Kaffirs opened firm and closed easier; Thomson-Houstons reacted. The private rate of discount was unchanged at 2⅝ 11-16 per cent. Three per cent rentes, 101f 27½c for the account; exchange on London, 25f 18c for checks; Spanish 4s, 80.57.

BERLIN, July 11.—Business was weak on the bourse today and prices had a hardening tendency. Exchange on London, 20m 47½ pfgs. for checks. Discount rates: Short bills, 2¼ per cent; three months' bills, 2⅝ per cent.
