FLOOD DAMAGE IS SEVERE

Heavy Losses Rendered to Nebraska Individuals and Corporations.

WATERS REcede AND TRAINS RUNNING

As Deluge Subsides Have to Crops, Bridges and Tracks Becomes Apparent, but Full Railway Service Yet Retarded.

FAIRBURY, Neb., July 11.—(Special.)—The waters of the Little Blue river have receded so that railway service is partially resumed. The Tuesday St. Joseph & Grand Island transferred passengers and mails five miles of Fairbury, but Wednesday the flood increased, covering a mile and a half of track. They promise one train today and full service by tomorrow. No trains over the Kansas City & Omaha railway this week.

WATERS REcede AND TRAINS RUNNING

The Rock Island got a train through from Horton Wednesday and this morning one from Omaha, and is sending out local freight west.

WATERS REcede AND TRAINS RUNNING

The damage to county bridges is estimated at \$10,000. The crops in the valley of the Blue river and Rose creek are nearly all destroyed and some stock drowned. All the wheat and oats in shock in the bottoms was washed away, some farmers losing from fifty to eighty acres each.

WATERS REcede AND TRAINS RUNNING

ALBION, Neb., July 11.—(Special.)—Today was the first clear day for a week. About 3.50 inches of rain fell July 10 and 11. The water in the river is still high, but very little damage was done to crops or bridges.

WATERS REcede AND TRAINS RUNNING

WYMORE, Neb., July 11.—(Special.)—The Denver special No. 21, which is scheduled to leave Wymore at 4:35 p. m., was unable to proceed westward Wednesday on account of the high waters at Eudora and so remained in Wymore until 2 p. m. yesterday. No. 13, daily to Denver and points in California, which should have left at 3 o'clock Thursday morning, did not leave until yesterday afternoon at 2 p. m.

WORKING ON CANAL TREATY

Representatives of Two Governments Busy Modifying the First Draft.

TERMS ARE TO BE VERY DEFINITE

United States to Exercise Police and Sanitary Control, but Colombia is Not to Lose Rights of Sovereignty.

WORKING ON CANAL TREATY

WASHINGTON, July 11.—With the exception of signing the treaty by which Colombia will confer all the necessary rights to the United States of the Panama canal by the United States government, Senator Concha, the Colombian minister; Mr. Herran, first secretary of legation, and William Nelson Cromwell, representing the Panama Canal and Railroad companies, are busy engaged studying over certain points in the treaty, which must be modified before the instrument can be signed.

WORKING ON CANAL TREATY

Neither the State department nor the Colombian officials here care to disclose the nature of the modifications which it has now become necessary to make in the treaty, but it is understood that all of them, either directly or indirectly, involve the question of sovereignty.

WORKING ON CANAL TREATY

The close study of the passing of the Isthmian canal act and the treaty presented the Colombian government develops apparently important differences and obscurities in the letter of the documents, which may not, however, exist in their spirit. For instance, section 2 of the canal act authorizes the president to acquire from Colombia "perpetual control of a strip of land" which "jurisdiction over said strip and the ports at the ends thereof, to make such police and sanitary rules and regulations as shall be necessary to preserve order and preserve the public health, and to establish in such judicial tribunals as may be agreed thereon as may be necessary to enforce such rules and regulations."

WORKING ON CANAL TREATY

From this portion of the act it would appear that the United States alone is to make police and sanitary regulations for the canal strip, and establish judicial tribunals for their enforcement. Yet article 11 of the draft of the canal treaty provides for the creation of a "joint commission by the governments of Colombia and the United States that shall establish and enforce sanitary and police regulations."

WORKING ON CANAL TREATY

The rights and privileges granted to the United States by the terms of this convention shall be exercised by the sovereignty of the republic of Colombia over the territory within whose boundaries such rights and provisions are to be exercised.

WORKING ON CANAL TREATY

The United States freely acknowledges and recognizes this sovereignty in any way whatever, or to increase its territory at the expense of the territory of any of the sister republics in Central or South America, but on the contrary it desires to strengthen the reputation of the republic of Colombia and then promote, develop and maintain their prosperity and independence.

WORKING ON CANAL TREATY

Terms to Be Defined. Briefly summing up, it appears to be the last now before the parties to the proposed convention to define with absolute clarity the extent and limits of control, or joint control, to be exercised over the canal strip. For while control is not sovereignty in the common sense of the term, it is a power which may be exercised so closely as to defy identification and it has all along been recognized that any provision of the treaty which threatens in any measure the sovereignty of the South American republic over the canal land will not be acceptable to the Colombian congress.

WORKING ON CANAL TREATY

Minister Concha has been in poor health during the spring and summer and contemplates a journey out of town to recuperate in the open air. It is confidently hoped that the treaty may be signed before his departure.

FARM LANDS OF WYOMING. Bulletin Issued by Census Department Shows Valuation and Refers to Need of Irrigation.

WASHINGTON, July 11.—A bulletin issued by the bureau today places the number of farms in Wyoming at 6,095. They cover an area of 8,134,536 acres, or 13 per cent of the total area of the state, and are worth \$26,265,500. The live stock on the farms is worth \$39,145,877.

WORKING ON CANAL TREATY

The farms are of an average size of 1,333 acres, but 12 per cent included in them only 19 per cent is improved. A portion of the bulletin is devoted to the question of irrigation, of which it says: "The progress of agriculture in the decade 1890 is attributed to the success in the raising of hay and forage, cereals and other crops. The total increase in irrigated land in 10 years is 1,225,000 acres. Most of this land was public domain in 1890, but now it is private. The value of irrigated land is \$15 per acre, or \$6,056,832. Irrigation has added this large amount to the farm wealth of the state."

FRIARS MAY NOT WITHDRAW. General Belief that United States Will Not Secure Everything Desired in Philippines.

WASHINGTON, July 11.—The negotiations now in progress at the Vatican respecting the friars and their lands will not fail. Of that the administration officials here feel certain. It was realized at the beginning, when Governor Tati's instructions were framed, that they represented the extreme of our claims, and that they did not preclude the idea of reasonable compromise by mutual concessions. The negotiations are progressing in this spirit.

WORKING ON CANAL TREATY

WASHINGTON, July 11.—The Treasury department has perfected a plan for the payment of the claims against the Pan-American Exposition company to be paid out of the appropriation of \$500,000 made in the general deficiency act. By the terms of the appropriation payments are to be made pro rata on claims for "labor, material, services and other expenses."

"I AM FULLY AWARE

Of the Excellent Curative Qualities of Pe-ru-na."

Says Congressman Geo. E. Harris From Mississippi.

Hon. Geo. E. Harris of Mississippi, Lawyer and Author of several law-books, was member of 41st and 42nd Congresses, after which he was elected Attorney-General of the State of Mississippi. This prominent gentleman from 1347 9th St., N. W., Washington, D. C., as follows:

"I take pleasure in recommending your Peruna to anyone suffering with catarrh. I am fully aware of its excellent curative qualities."

GEO. E. HARRIS.

A STRAIGHT COURSE

Pointed Out to Those Who Have Catarrh in Any Form.

You have chronic catarrh, have you? You have had it some time? And could you not find a cure? Well, there are thousands more like you in this country. If the slightest vestige of the catarrh remains over during the hot weather it will begin to make itself felt now. If you really want to get cured this is the way to do it.

Get a bottle of Peruna and take a tablespoonful between each meal and at bedtime. When you have continued this for thirty days sit down and write a letter to Dr. Hartman, Columbus, O. Tell him exactly your symptoms; how long you have had catarrh; what effect the medicine has had on you. He will answer your letter promptly telling you what to do further. He will make no charge. And if you will continue to write to the doctor you are sure to get cured. Some cases take longer than others. Perhaps the average length of time it takes to cure a genuine case of catarrh is three months. Some get cured much quicker than this. Stubborn cases may require longer treatment. Time or trouble ought to be no barrier to one afflicted with this dreadful disease.

All people who are interested in knowing about catarrh can get an instructively illustrated 64-page book on chronic catarrh in all stages and location, free of charge.

J. R. Allen, Lock Box 50, Florence, S. C.

"Last fall I went to my physician for treatment. He told me that my nervous system was run down, and gave me some medicine. I received no relief, and it began to look as if I was not going to get well. I saw Peruna advertised to be good for nervous prostration (systemic catarrh), and bought six bottles. I am fifty years old, and am now heavier than I ever was in my life—gaining 12 pounds from the use of Peruna. J. R. ALLEN.

Mr. T. M. Fletcher, Cincinnati, Ohio, writes:

"I am traveling for the Regina Music Co., of No. 11 East 22nd St., N. Y. I have had catarrh of the head for the past five years until there was hardly a day passed that I didn't have a headache. I tried a great many blood and catarrh medicines without any visible results, until after hearing about Peruna. I decided to give it a trial. I commenced to use it about four months ago. I now have a fine appetite, and the pains in my head have entirely left me. I certainly have been greatly benefited by Peruna. T. M. FLETCHER.

Mrs. Nancy L. Stewart, Admiral, Texas, writes:

"I would like to tell you what Peruna has done for me. I had catarrh of the nose, head and throat, and could hardly swallow or get my breath, for two months. I tried every medicine available, but could secure no relief. I commenced to take Peruna, and it was like a charm. It not only cured me completely, but I am stouter than I have been for many years. "Every one says I look twenty years younger. I do not hesitate to recommend Peruna to my friends." MRS. NANCY L. STEWART.
