The Omaha View Improvement and Political club has been formed with fifty-seven charter members. Its avowed object is to secure improvements for Omaha View and to enter into politics as far as is necessary to secure the improvements needed.

Other committees will be named, but these are to look after the matters most needing attention. One of them, the committee on lights, began its active work last night by calling at Councilman Katt's home.

The street railway committee will visit the officers of the Omaha Street Railway company to insist on the Prospect Hill extension of the Harney street line being carried out to Omaha View.

WHY PHYSICIANS FAIL

To Cure Many Cases of Female Ills. Some Sensible Reasons Why Mrs. Pinkham is More Successful Than Many Family Doctors.

A woman is sick—some disease peculiar to her sex is fast developing in her system. She goes to her family physician and tells him a story, but not the whole story.

She holds back something, loses her head, becomes agitated, forgets what she wants to say, and finally conceals what she ought to have told, and this completely mystifies the doctor.

It is a wonder, therefore, that the doctor fails to cure the disease? Still we cannot blame the woman, for it is very embarrassing to detail some of the symptoms of her suffering, even to her family physician.

This is the reason why hundreds of thousands of women are now in correspondence with Mrs. Pinkham, at Lynn, Mass. To her they can give every symptom, so that when she is ready to advise them she is in possession of more facts from her correspondence with the patient than the physician can possibly obtain through a personal interview.

Following we publish a letter from a woman showing the result of a correspondence with Mrs. Pinkham. All such letters are considered absolutely confidential by Mrs. Pinkham, and are never published in any way or manner without the consent in writing of the patient; but hundreds of women are so grateful for the health which Mrs. Pinkham and her medicine have been able to restore to them that they not only consent to publishing their letters, but write asking that this be done in order that other women who suffer may be benefited by their experience.

Here is Proof of the Value of Mrs. Pinkham's Advice.

"DEAR MRS. PINKHAM:—I have been taking your medicine for two months and write to you for some advice concerning it. I am in very poor health and have been for nearly three years. I am troubled with a pain and soreness in the back of my head and neck which develops into an almost unbearable headache at time of menstruation. Since last August I have been confined to my bed a great part of the time. In January I was taken very sick with one of my awful headaches, and lay for five weeks in a critical condition. Our doctors were unable to tell me the cause of my illness. I had a slow fever seemingly in my nerves with a marked bilious affection. I was completely prostrated. My physician did nothing for me but to put me to sleep, and it was the condition of my nerves at the time of menstruation. I was advised to take Lydia E. Pinkham's Vegetable Compound, and would like your advice and to know the cause of my bad feelings."—Mrs. FRANCES I. MCCREA, Sheridan, Mont. (April 27, 1900).

"DEAR MRS. PINKHAM:—I wish to testify that I have been greatly benefited by the use of your medicine. After taking four bottles I felt better, my head and neck were greatly relieved. After reading the testimonies in the book you sent me, I believed that I had a tumor, and a while after when something the size of an egg passed from me, I was convinced of the fact. I now feel like a new creature, can go to my work, and can eat and sleep well, a privilege that I appreciate very much."—Mrs. FRANCES I. MCCREA, Sheridan, Mont.
