Trainmen on Freights Dissatisfied with Arrangement of Their Time Schedules and They Will Submit Demand.

Union Pacific strikers take exception to the figures and statements the officials gave out regarding the number of men employed in the various shops. The strikers assert that in most cases the statistics are inflated and the claims unfair. Referring to the statements of the company, as published Sunday morning, S. H. Grace, one of the strike leaders and a member of the machinists' executive committee, said:

"The statement is made by the officials that they have a force in their Omaha shops equal to 65 per cent of their full force, or practically the same-sized force that was at work prior to the last reduction, just before the walkout. They also state that they have in all departments, including Council Bluffs, 675 men, as compared with a normal force of 975 men in busy times.

#### Say it is Misleading.

"This statement may be correct so far as the number of employes is concerned, but it certainly is erroneous and misleading when compared with the facts. In the first place, the men did not walk out, but were discharged and paid off without a moment's warning. In the next place, the 675 men now employed out of a normal force of 975, are not boilermakers, machinists or blacksmiths, but men employed made by any official of the Union Pacific company is intended to mislead and hoodwink the public. The statement that they have a force at present working equal to 65 per cent of their normal force of the title of "air." bollermakers and machinists is-to use no stronger expression-also misleading.

The strikers, especially the botlermakers, are deriving much satisfaction from reports their fight, having been given every concession asked. White the argument has been advanced by some of the trainmen that the shopmen have as good as lost their battle since they have falled to gain a complete tleup of the shops, the strikers maintain that they are bound to win and express themselves as thoroughly satisfied

with the progress of affairs. The company points to the fact that it is getting some very capable and skilled men from Chicago, who have left good positions to accept work from the Union Pacific, while there was a chance to get more money than they were making, as proof that the strikers are gradually losing KING WILL BE OUT TUESDAY out and will eventually be conquered and left to look for other places unless they Edward to Be Transported to Royal decide soon to accept the company's offer

The car builders have apparently dropped all thought of striking. At Ronemus left the city for the west to make a thorough itinerary of the Union Pacific shop towns. Assert Additions to Yellowstone Park Take Awny Their Winter Range.

CODY, Wyo., July 13 .- (Special Telegram).-This entire section is excited and romise of no little future trouble caused by the recent forest reserve extensions Ever since the president issued his proclamation about six weeks since quiet meetings among the sheepmen have been in dulged in but no action was taken until the arrival of A. A. Anderson, the artist of New York, who has a large summer ranch on Wood river. The extension takes in many townships of land adjoining Yellowstone park which have heretofore been the winter ranges for thousands of sheep. Mr. Anderson was appointed special superintendent of the Yellowstone park and empowered to employ sufficient force to carry out the law and upon his arrival last week he announced that made after the board had announced to the he would compel the withdrawal of all sheep now on the extension. This has created a fever of excitement, not only with the flock masters, but with all the people of Big Horn and Sun Light basins. Mr. Anderson, who is personally very wealthy, is charged with being the instigator of the roads declared they had agreed to no such law and already he has been threatened with assault. A mass meeting of the stockmen and others is called to meet at Meeteetze next Wednesday, and today riders are out notifying flockmasters and others

Resolutions will them be adopted and sent to the president by a committee ask-ing the suspension of the act until they can have a hearing. If carried out it is alleged it will nearly ruin the greatest industry of this entire region, because the winter range of sheep, which is of the greatest necessity, will be taken away and the present low ranges in the crowded condition will not be anywhere near sufficient. The meeting next Wednesday will doubtless be largely attended.

It was a grim fete day, in which the number of participants was augmented by throngs the morning trains brought in. The outsiders came from towns within a raduis of fifty miles or more. These visitors spread themselves out in squads and took in the various points of interest associated with the tragedy. The foot of the tramway leading up to the main pit mouth all paid a visit to. Hundreds gathered there at a time in the vain hope of seeing newly discovered bodies brought forth to gratify their curous gaze.

Collections for Destitute All the churches of Johnstown paid more

Although Lord Salisbury's resignation does not necessarily involve the reconstruction of the cabinet, it is believed there will be some changes. It is not considered unlikely that some of the ministers will be made peers in order to make room for new blood in the cabinet. It has been the idea that Mr. Balfour would be elevated to the peerage, leaving Mr. Chamberlain to lead in the House of Commons, the notion being that this arrangement would be the best to conciliate the divergent interests of the cabinet; but it is understood that, at any rate for the present.
