They told them that the struggle has become a hopeless one and asked them to declare the strike off. A majority of the men agreed with the speakers, but a minority of radicals with President Curran and shouted down the majority. An adjournment was then taken until tomorrow morning, when another meeting will be held.

GROCERS FORM COMBINATION

New Concern to Be Known as the National Grocer Company. CHICAGO, July 15.—A combination of wholesale grocers, organized substantially along the lines advocated by James B. Forgan for the consolidation of country banks, has been effected by Chicago capitalists. Incorporation papers for the combine will be filed in New Jersey today. The new company will begin operations with a capitalization of \$5,000,000, of which \$2,500,000 already has been subscribed.

The National concern will gain control of the largest houses in Illinois, outside of Chicago, Indiana, Ohio, Missouri and Michigan. The National and the Chicago Grocer companies are not to be merged, but retaining separate organizations will have a close working arrangement. The National Grocer company will buy direct from importers, manufacturers and sugar refiners and will handle direct imports through the Chicago office.

Other officers of the new company are: Second vice president, Amos Museman, Grand Rapids, Mich.; third vice president, William Phillips, Saginaw, Mich.; treasurer, Harry H. Hightman, secretary, H. S. Griggs, Jackson, Mich.

W. H. McCord does not regard the new trust as a matter of great moment. He says it does not involve the Omaha houses, at least in the way that the big Chicago houses are in it. "Of course I have seen or heard nothing of this," said Mr. McCord, "but I do not believe that such big firms as the Reid-Murdoch people and the Franklin MacMillan-Bradley company, care to lose their identity by merging in such a way. The organization will not make any difference to us here. We expect to go on selling the goods as usual."

STEEL TRUST FILES ANSWER

Says Assets Amount to One Billion Four Hundred Million Dollars.

STATEMENT OF CORPORATION PROPERTY

Mr. Schwab Maintains that He is in Position to Know Actual Worth of Properties and Makes Affidavit Accordingly.

NEWARK, N. J., July 15.—The answer of the United States Steel corporation to the suit brought by J. Aspinwall Lodge, William H. Curtis and Bernard Smith, who asked for an injunction to prevent the company from carrying out its bond conversion plan, was filed today before Vice Chancellor Emery. When the case came up before the vice-chancellor it was put over until July 15. The answer is sworn to by Charles M. Schwab as president. For the first time since the organization of the steel corporation a detailed statement of the assets of the properties of the subsidiary companies is furnished. These assets are stated to include 400 producing mills of the value of \$300,000,000, seventy-five blast furnaces of the value of \$48,000,000, iron and Bessemer ore properties of the value of \$700,000,000, coal and coke properties of the value of \$100,000,000, natural gas fields of the value of \$20,000,000, cash in bank to the amount of \$68,000,000 and over \$80,000,000 of material in process of manufacture. The total value of the companies' property, including cash and cash assets, is placed at \$1,400,000,000 by Mr. Schwab in an affidavit which is part of the corporation's reply. The companies' earnings are stated to be at the rate of more than \$100,000,000 a year. A saving of \$40,000,000 a year is credited to the ore properties and it is estimated that the ownership of transportation facilities saves the company \$10,000,000 annually. The earnings of the coal and coke properties are stated to be more than \$1,000,000 a month.

These statements as to values and earnings were presented to disprove a charge by the plaintiffs that Mr. Schwab, the president and Mr. Trimble, the secretary, made a false certificate when they certified that in their judgment the properties were worth at least the par value of the preferred stock after deducting all indebtedness. The corporation declares it has no knowledge that Lodge is the owner of 100 shares of its preferred stock, but admits that in August, 1901, 100 shares of preferred stock were transferred to his name on the companies' books. It is denied that William H. Curtis is the owner of any of the company's stock and it is declared that Bernard Smith, the holder of 200 shares of preferred stock, which was transferred to him on June 25, 1902. The conversion plan was agreed upon at stockholders' meeting on May 15. The answer admits that the conversion plan includes a payment of \$10,000,000 to J. P. Morgan & Co. It denies that any of the acts contemplated will work fraud or injury to the complainants, but says that the country stockholders who consummated will be greatly to the benefit of the corporation and of every stockholder. The answer says that some of the directors are members of the syndicate formed by J. P. Morgan & Co. to float bonds and that that fact was communicated to stockholders in a circular dated April 17, 1902. It is further declared that the directors so interested constitute a minority of the board of directors; that they were individually at the time of the formation of such syndicate and now owners of large amounts of the stock of the defendant corporation and that they became parties to said syndicate and assumed their proportion of the liability thereof in order to secure the success of the plan of purchase and to protect the preferred stock, as they believed such plan to be of great value to the defendant corporation and its stockholders.

YACHT CAUGHT IN A STORM

Two Persons Drowned and Eight Barely Escape from the Water.

CHICAGO, July 15.—Two persons perished in the lake and eight others fought hard for life clinging to the wreckage of a yacht, Arab IV, owned by John H. Cameron, cashier of the National Bank of the Republic. The yacht was struck sud- denly by the fierce storm which swept over the city late in the evening and cap- sized the boat in a twenty-one footer. It was one of the best known yachts in the harbor.

The dead: MARY TAYLOR, 18 years old, 141 Fifty-first street. HARRY JENSEN, 37 years old.

The bodies of the two young persons drowned were found in the cabin of the yacht when the boat was towed into the harbor at 7 a. m. today. Presumably the boy and girl who had met death had taken refuge in the yacht's cabin when the storm broke and they were unable to extricate themselves when the boat went over.

The Arab IV was built last spring and took part in the races for the Sir Thomas Lipton cup. The boat finished second in the race.

THE CAMPING OUTFIT.

If you are going camping you will need in your box of either some packages of Malta-Vita. These come in a neat package may be carried for any distance and kept for any length of time and the contents when needed will be in perfect condition if kept dry. The shaking the horse gets so harmful to the Malta-Vita. When you arrive at your chosen place to camp, your food for the first meal, that most difficult of all meals to prepare when in the woods, is ready to serve. No cooking required, no vain searching for the many elusive things necessary to the ordinary meal. You have placed in one small parcel a package of Malta-Vita, the little dishes required, spoons, and, if fresh milk is not readily obtained, a bottle or can of condensed milk. If you have never tried this combination your first meal will be a surprise. The work and worry is practically done. Afterward the dishes are easily cleaned by pure, cold water, and you are ready to settle things in the camp. Many meals will be taken in this way when all are too tired, or too busy with the things they really came to do, to cook. When you go camping you do not go to work, but rather to rest and enjoy the quiet and freedom from the routine of the usual work-a-day existence. Malta-Vita is a thoroughly cooked and malted grain food, prepared ready to eat. It is made from the finest selected wheat in which the starch has been converted to natural sugar and the product thoroughly malted and semi-digested. It is the only food of its kind that is the product of its nature known to science. It is sold everywhere by grocers at 15c per package.

REPLIES TO MRS. WALDRON

Government Files Answer to Petition to Restrict Indian Agent Hatch.

WILL DETERMINE STATUS OF MIX-BLOODS Suit to Prevent Official from Ousting Woman from Land Deeded by Interior Department to Black Tomahawk.

SIoux FALLS, S. D., July 15.—(Special.)—James D. Elliott, United States attorney for South Dakota, and W. C. Porter, assistant attorney, have filed in the office of Clerk Pendar of the federal court in this city an answer to the bill of complaint in the suit of Mrs. Waldron against the United States, Black Tomahawk and Ira A. Hatch, United States Indian agent at Cheyenne river agency, which involves the ownership of 324.49 acres of valuable land adjacent to the town of Fort Pierre. The suit is important for the reason that it will determine the status of all mixed-blood Indians, not only in South Dakota, but elsewhere in the United States. At the present time no less than thirty similar suits are pending in Nebraska awaiting the outcome of the Waldron case, which will be less yet reach the federal circuit court of appeals or the United States supreme court. Mrs. Waldron is a woman of three-fourths white and one-fourth Santee Indian blood. She and her husband, a full-blooded Sioux Indian, are opposing claimants of the land. The contest between them has been in progress for more than twelve years. Black Tomahawk, owing solely to being of full Indian blood, went out before the Interior department in 1884, and some months ago gave a patent for the disputed tract, which Mrs. Waldron has steadily occupied since 1888.

Would Restrict Indian Agent. He then called upon Indian Agent Hatch to remove Mrs. Waldron from the land, and she in turn instituted the present suit for the purpose of restraining the Indian agent from the land, possibly, establishing her right to the tract. Judge Carland of the United States court in this city recently decided in her favor, holding in substance that where a claimant is recognized by the proper authorities as an equal footing with the white citizen, she maintains tribal relations, as in the case of Mrs. Waldron, it is not material whether the party is of full or mixed blood.

In answer to her complaint, the government filed a reply which is to the effect that the Indian agent, at that time, in any Indian reservation, or within the Indian country, and never lived in the Indian country or claimed a membership in any tribe of the United States. It is further alleged that she was born at Vermillion, S. D., in the year 1861, and that she was married to a white man, a member of the United States, and of a half-blood Indian woman of the Santee Indians, who was a member of the Santee tribe, and married at Vermillion.

Huron in Jim River Valley. HURON, S. D., July 15.—(Special.)—That section of South Dakota known as "the corn belt" was visited with numerous showers and in some localities heavy rains the past week, while the temperature has been warm. What a favorable start for crop growth that the preceding week. The crop is doing well and making better progress than anticipated; some fields are weedy and where touched by frost are backward, but altogether the crop gives good promise. Wheat, barley, rye and oats are all in comparatively the same splendid condition, with corn and flax, millet and potatoes equally as good. The hay crop is simply enormous; never better, and many are preparing for this harvest both for home consumption and shipping.
