INDIANAPOLIS, July 17.—If the voice and influence of President Mitchell of the United Mine Workers prevail with the members of his organization, there will be no general strike of the organization. The chances of such a step being taken now are very remote. In his speech in the convention this afternoon Mr. Mitchell advised strongly against a strike and urged that the bituminous miners continue at work and that a system of assessment upon the members of the order, which he outlined, be carried into effect as the best means of affording aid and support to the striking anthracite miners.
