LABORING FOR BOYD COUNTY SETTLERS

Sanford Parker in Lincoln Trying to Induce Commissioner Follmer to Sign Deeds for the Lands.

(From a Staff Correspondent.) LINCOLN, July 17 .- (Special Telegram.) -The republican state committee in its initial meeting of the campaign tonight, canvassed the political situation in the various communities, elected a state executive committee and attended to other matand congressional nominees and congressional district chairmen attended the conference. It was voted to maintain the state headquarters in Lincoln, at the Linfiell hotel. The executive committee, consisting of one member from each congressional district, was appointed by Chairman Lindsay, on authority given by the state committee, as follows: First, J. C. Sea-crest, Lincoln; Second, Victor Rosewater, Omaha; Third, William P. Warner, Dakota City; Fourth, Clark Robinson, Fairmont; Fifth, L. W. Hague, Minden; Sixth, Aaron Wall, Loup City.

The chairman and executive committee was authorized to appoint a vice chairman. Senator Dietrich and all nominees present were called on for speeches and responded briefly. Besides the state nominees there were present E. J. Burkett of the First district, J. J. McCarthy of the Third, Judge Norris of the Fifth, and Moses P. Kinkaid of the Sixth. Chairman Lindsay spoke of the work be-

fore the committee and made several suggestions regarding organization and other features, The reports from the various districts were optimistic, every member of the com-

mittee being confident of republican gains in his own locality. J. H. Mickey spoke in a few well choses words, promising to do all in his power for a complete republican victory.

Work for Boyd County Settlers.

Sanford Parker of Boyd county, repre senting contesting homesteaders of that county, is striving to induce Commissioner Follmer to sign the state's deed to the disputed land. The State Board of Edu-cational Lands and Funds, at a meeting held in April, authorized the governor to deed the land back to the general government. This action was taken in accordance with an act passed by the last legislature. Mr. Follmer claims the lands are the property of the state, legally and rightfully, and therefore withholds his eignature from the instrument.

Mr. Flick called at the land commis sioner's office this afternoon, but Mr. Follmer was absent and no progress was made He expects to take the case up later and push it to a final and speedy settlement. Senator Dietrich was in Lincoln today conferring with political friends and attending to matters of private interest. This afternoon he met J. H. Mickey in consultation and discussed the gubernatorial situation, giving him the benefit of knowledge gained in one campaign for the executive chair. The senator called at the various offices at the statehouse and tonight was prominent among the visiting

republican leaders and workers. Senator Dietrich said the only probable colution of the Cuban question is through treaty. He did not think, however, that measure.

Ryan Makes Motion.

President Ryan of the Illinois miners at once offered a motion, which was promptly seconded, that the recommendstions be adopted. The question was just being put, when a delegate arose to ask for information, and then began the debate which continued until adjournment. Many speeches were made, those in favor recommendations of President of the Mitchell being in the ratio of three to one,

compared to those against. Upon motion of John Dempsey, secretary of District No. 1, of the anthracite district, an adjournment was then taken until 10 o'clock Friday to enable the anthracite men to hold the caucus. At a caucus of the and unfit to be at large, so the Board of Illinois delegation tonight it was deter-Insanity met hastily and it was considered mined to oppose any general strike. It was also decided to stand by the recommendations of President Mitchell with the exception of the one declaring in favor of an assessment of \$1 per week on members of the union. This assessment should, the Illinois men declare, be made on a percentage basis and Illinois will make fight for this.

Ohlo tonight took action similar to that of Illinois. The Iowa miners held a caucus held a high place in the affections of the in the evening and decided to uphold the action of President Mitchell.

Strike Out of the Question.

The action of the caucuses tonight makes general strike practically out of the question, as the anthracite men cannot carry their point without the aid of Illinois and with that state and Iowa and Ohio against them, there is no apparent manner in which a strike can be ordered.

The meeting of the anthracite miners held after the adjournment of the convention resulted in nothing but the conclusion that there was no way in which a strike could be forced and that those members of the anthracite districts who were anxious for a strike would be disappointed. There was a long conference and a vote was decided upon, but when it was partially taken it was seen that the result would be so strong in upholding the recommendations of President Mitchell that the vote was not considered. While there is an element among the anthracite men that is greatly disappointed it is not likely that any fight will be made upon the floor of the convention.

President Mitchell said tonight: I am greatly pleased with the outcome of work done by the convention so far, and I have no doubt that the policy outlined in my speech today will be carried out substantially. Some minor changes may be made, but the policy as a whole will be followed by the convention, I am certain.

AFFAIRS AT SOUTH OMAHA Pirst Installment of This Year's Tax

LIQUOR DEALERS FEELING THEIR LOSS

Becomes Due October 1.

They Are Expected to Enter Some

Kind of Protest Against Enforcement of Mayor Koutsky's Sunday Closing Order.

The first installment of the 1902 tax, just levied by the city council, becomes due

on October 1 and becomes delinquent on January 1. As for the second installment, it falls due on April 1 and becomes delinquent June 30. This provision of the new charter was inserted by the charter builders with a view to making the payment of taxes easier on those who are building and paying for their homes. Last year, in a great many instances, the entire tax was paid by the small property

owner during the fall months, while the corporations took advantage of the twopayment clause. The plan, however, appears to be satisfactory to the city officials and all who desire may take advantage of it. With money available now it is expected that Treasurer Howe, as soon as he can

get around to it, will issue a call for war-

rants in order to put a stop to the payment of interest. While there is money on hand now, the running expenses of the city are constantly on the increase and the appropriation will not pay any of the overlap which has been accumulating for years. Those who are familiar with the financial condition of the city assert that the best Johnson, escort; Charles H. Nelson, inner thing to do is to issue bonds this fall for \$50,000 to take up the overlap. Bankers say that such bonds would sell for from

4% to 5 per cent and in case of 5 per cent bonds a premium would be paid. This question is to be taken up shortly and discussed in order to lay the matter properly before the people. More than likely the proposition to vote bonds to pay the overlap would not come up before the regular election in November.

Planning a Remoustrance. It was reported last night that the liquor dealers in South Omaha are making preparations to remonstrate against the continuance of Mayor Koutsky's Sunday closing order. Eighty-eight saloons are now in operation in this city and it is estimated that an average of \$30 is taken in every Sunday by each. This is really considered a low average, as some of the larger places run as high as \$60 to \$75. One brewery alone lost the sale of seventy-five barrels | At the Boyd. of beer last Sunday. One dealer said that not less than \$3,000 was spent in Omaha and adjoining resorts last Sunday which would have been put in circulation here had it not been for the mayor's closing order. Just what the liquor dealers propose to do is not known, but a plan is being arranged whereby they can retaliate.

lob Accomplishes Its Purpose So Quickly and Quietly that Jailer in Charge of Prisoner Cannot Give the Alarm.

OWENSBORO, Ky., July 17 .- John Anderson, a farmer, who was in jail here charged with the murder of his wife on the night of July 8, was taken from prison by masked mob of about forty men and hanged to a beam over the city scales on one of the principal streets of Owensboro

at about 2:30 o'clock this morning. The lynchers, who are supposed to have come from the scene of Anderson's alleged crime about three miles west of Owensboro, made their entrance into the city quietly and, going to the jail, demanded admittance, which was refused.

They then battered down the prison door and while some went to the prisoner's cell to lead him out, others of the mob surrounded the failer and his family to prevent them from giving the alarm. Anderson was soon secured and in a few moments was led across the street from the orison, where a rope was placed about his neck and he was hanged to a beam over a pair of scales. The mob then dispersed
