Amelia Bingham has definitely decided to appear in "Mme. Flirt," which filled the whole of last season at the "Athence." Maud Adams has arrived in Paris from Switzerland. After five shopping days here she will return to the Toursine district to visit historic castles. She will spend her vacation at the same convent where she

sought rest last summer. Mme. Pilar Morin has signed two engagenents, completely taking up her next season. She will appear in private society entertainments in London until January, when she will play here in a new pantomime. In March and in June she will play the title role in Eugene Moran's new comedy. She says she will not return to the United States for several years.

Margaret Ayer, whose meszo soprano voice has been the wonder of the past season, is confronted with the prospect of a lawsuit with the management of the Na-tional Opera Comique. It seems that she agreed to sing there the next two winters, but her mother, Harriet Hubbard Ayer, objecting vigorously, the young woman finally refused to sign a contract. Manager Carre now argues that an oral agreement is binding. Margaret intends to return home next month. -Several shocks of earthquake were experienced here yesterday. There was a terrific one at 9:45 in the morning. It was accompanted by a loud, rumbling, explosive sound like thunder. Furniture was set in motion everywhere; bottles and crockery were thrown from shelves in shops and several buildings were damaged. There was no loss of life, but a great panic prevailed. The most severe shock lasted only

ten seconds. These shocks were probably caused by subterranean gas or steam explosions. A few days ago it was reported that the saddie between the two craters of the Soufriere volcano had collapsed, result-ing in the fall of thousands of cubic feet of sand and scoria rock into the funnel, thus blocking the threat of the crater and it is now claimed that the gas and steam, failing to find an outlet by the throat or funnel, caused internal explosions and intense concussions.

Million Dollars. MARQUETTE, Mich., July 19.-It is of-ficially announced that the Cleveland Cliffs Iron company has purchased the lease held by the Itasca Mining company on 160 acres of land adjoining the Hawkins mine on the western Mesaba range.

The consideration was \$500,000 cash and 7 cents per ton for all ore now shown up (about 5,000,000 tons) and all that is yet to be found.
