Report that He Is Not Satisfied with

Action of Cardinals Denied.

STORY RESULT OF A MISUNDERSTANDING

Suggestion Made to Vatiena that is the Appointment of Representative to Manila an Amer-

ican Be Named.

ROME, July 19 .- The dispatch from Rome published in the Daily Chronicle of London today asserting that the pope is intensely displeased at the way in which the commission of cardinals has conducted the negotiations with Judge Taft in the matters of the friars in the Philippines that he has annulled the procedure of the commission and has summarily dissolved it, expressing the view that the American demands were reasonable and signifying his readiness to treat with Judge Taft personally, is based on an entire misun-

lerstanding of the situation. The commission of cardinals was no summarily dissolved. Its work ended with the acceptance of Cardinal Rampolla's proposition to defer further discussion of the negotiations to Manila. As all the parties agreed to this it is absurd to say that the pope is desirous of personally treating with Judge Taft. On the contrary, the pope has expressed the highest satisfaction with the result of the negotiations. He said: "Having started dithe happiest events of my pontificate." Interest in the Philippine question now centers in the appointment of an apostolic delegate to Manila, as it is considered the Annie F. Biesmann, \$2,800. selection will be an indication of real in-

tentions of the holy see. Governor Taft has unofficially intimated to the vatican that the appointment of an American prelate would be preferred and mentioned the name of the Rt. Rev. George Montgomery, bishop of the diocese of Monterey and Los Angeles.

It is thought to be impossible to select Bishop Thomas O'Gorman of Sieux Falls, S. D., because of his participation in the negotiations here.

Doubt, however, is expressed about the vatican appointing an American, as the opinion is expressed in pontifical circles that an entirely independent delegate is ner Retreat and Huron streets, \$5,000; S. required to properly deal with the questions at issue.

Need for Delegate.

WASHINGTON, July 19 .- No matter how that at the last moment the vatican officials should accept the principal proposition advanced by Governor Taft, it is bestaffs on the Omaha public building in lieved here that it will still be necessary the friars' properties.

FEED THE CHILDREN. Learn What to Give Them.

People with weak children should look to food for making the youngsters stout and hearty. Scientific selection of food is the true way to health.

A mother speaks of her experience in feeding children. She says, "About two years ago our little two year old Isabella was taken with stomach and bowel trouble She was so low at times that we despaired

of her ever recovering.
"She could not digest the lightest kind of food. She lingered along from August to November in that condition when I decided to try Grape-Nuts in small quantities three times a day. I poured boiling water over them and let them stand five minutes to soften, then added sweet cream and a very little sugar.

"Well, from that day, the 15th of No vember, 1898, until now we have never had to give her a drop of medicine and she is the picture of health. So also is my lit-tle boy, now two years old. He has lived on Grape-Nuts since he was a year old and he is the stoutest little fellow you nearly ever saw.

"Nearly everyone asks what I feed the children, for they are so big and healthy. "Our 12-year-old daughter began to have headaches about last Christmas, and we put glasses on her. She got some better, but was still very poorly. Finally, I took away most of her food and put her on Grape-Nuts. She steadily improved and is now able to go to school regularly and quite well." Name given by Postum

age of Grape-Nuts.

Convention of United Mine Workers A

ADOPT PLAN SUGGESTED BY MITCHELL

Provide an Assessment Against Those at Work to Assist in Paying Expenses of the Striking Hutchison has rendered a decision in the

INDIANAPOLIS, July 19 .- The convention of the United Mine Workers adjourned at o'clock this afternoon after declaring against a general strike, providing for the raising of a fund with which to aid the striking anthracite miners and issuing an appeal to the American people for sup-

The recommendations brought in by the special committee appointed in the executive ession of yesterday, and which are practically identical with those suggested by President Mitchell in his address on the first day of the convention, and unanimously adopted by the convention, are as follows:

adopted by the convention, are as follows:

1. That the national treasurer be authorized and directed to immediately appropriate \$50,000 from the funds of the national treasury and place it at the disposal of the officers of districts Nos. 1, 7 and 9 (these are the anthracite districts).

2. That all districts, subdistricts and local unions be appealed to to donate surplus in their treasury as large an amount as they can afford.

3. That an assessment of 10 per cent be levied on the gross earnings of all members of local unions in districts Nos. 6, 8, 12, 19, 23 and 25, and an assessment of 51 per week upon all members of local unions in districts Nos. 6, 8, 12, 19, 23 and 21. The members of districts now on strike which may resume work before this assessment has been removed, shall be assessment as been removed, shall be assessment for the gross earnings of 11 per week, whichever the district may decide from the time work is resumed.

resumed.

4. The assessment shall be paid direct from the local unions to the national secretary, and the local unions will be held responsible for the payment of the same.

5. An assessment of 25 per cent will be levied upon the wages, sairary or percentage received from the organization of all national, district and subdistrict officers and organizate.

and organizers.

6. The assessment shall begin with the 18th day of July, 1902.

7. All contributions made from the national office to the anthractic region will be divided pro rata to each anthractic district in accordance with the number of miners and mine laborers in each of them, as shown by the most recent coal reports.

To Find Work for the Strikers.

It was voted that each local union in the regions that are at work select a committee which shall secure work for as many of the men on strike as possible in the locality where the local union is situated and that the same requests be made of the local unions of the American Federation of Labor and also that committees be appointed by local unions to canvass the business men in their localities for subscriptions.

In accordance with the recommendations of the special committee it was voted to issue an address to the public. This address as reported by the committee, says:

When we look upon the enormous for-tunes that our labor has made possible, with the innumerable comforts and luxuries that it brings to the people at large, and then examine the paltry pittance we receive as wages for the labor we have to perform, the dangers we undergo, the dampness we must endure, the foul air we must breathe and the peculiar rheumatic and jung trouand the peculiar rheumatic and lung trou-bles, superinduced by these conditions which we must bear, we naturally feel that we are being unjustly dealt with in the smail amount of this world's goods which we receive in return for so much labor and so many sacrifices.

Have Sought Better Wages.

One hundred and fifty thousand of our craftsmen in the anthracite region of Pennsylvania have sought to procure better wages and relief from many galling conditions under which they have been compelled by tions under which they have been competed, to labor in the past. They have tried by every honorable means known to civilized men to adjust the grievances with their employers without resorting to a strike. In this they have failed because the employers have assumed to be the only parties interested in all the questions involving the operation of the mines, a position that has not been sustained by the conditions existing since a stoppage of work has taken place.

Some of the coal operators have been quoted as saying that the question is not

Some of the coal operators have been quoted as saying that the question is not one of wages, but they believe it to be an opportune time to destroy the union. Whether they have made this statement or not, their actions indicate that their purpose is to destroy our organization.

If it is the purpose of the coal operators to destroy our union, then, upon the principle that self-preservation is the first law of nature, we would be fully justified in taking drastic measures to prevent the accomplishment of their designs. We believe we have within our reach the means by which that purpose can be thwarted. No legal power can compel us to work if we desire to remain idle.

We believe that our interests in the community of which we are a part and our obligations to the operators with whom we have agreements require that we shall not inaugurate a general suspension of work in the coal trade. They may destroy our union, but they cannot make us violate our contracts.

our contracts.

The struggle in the anthracite region will be continued until our demands have been granted or a competent board of arbitration has declared that we are wrong.

More Money Needed.

The care of 150,000 men and their families in a protracted struggle, such as this is likely to be, will require the expenditure of a large sum of money in the purchase of food. Our own resources are limited. We have levided a large assessment on those of our members who are at work to assist us in caring for those who are on strike. We need more money for that purpose and we appeal to every trade union and trade unionist, to every citizen whose interests are involved, and to every lover of fair play, to assist us in raising \$1,000,000 per month from cutside sources as long as the strike may last.

We believe that with this amount of money, together with the amount received from our own members, we can continue the struggle until justice has been secured for the anthracite miners.

The reading of the report of the com-More Money Needed.

The reading of the report of the com mittee and the appeal to the public was listened to in absolute silence, but as the voice of Secretary Wilson ceased, there came a tremendous cheer from the delagates that foreshadowed unanimous adoption, which followed a few minutes later. The miners from Illinois announced that they had appropriated \$50,000 from their treasury for the support of the anthracite strike. Ohio gave \$10,000 and Iowa and Indiana promised contributions to be made

President Mitchell declared that there was approximately \$1,000,000 in the treasury of the various local unions and that his construction of the clause directing the unions to contribute "what they could afford" was one-half of this money. The convention was then adjourned by

the singing of "America." Immediately after the adjournment Pres ident Mitchell called the meeting to order again to hear a belated report from a committee appointed early in the week to prepare resolutions of condolence upon the recent mine disasters in Pennsylvania and Utah. The report censured sharply District Mine Inspector Roderick of Pennsylvania for allowing work to be commenced in a mine before all the corpses had been re

moved. President Mitchell requested that the report be held until the matter could be investigated personally by the officers of the union and the report was referred to them for future action. The convention then adjourned for the second time.

Sheridan Arrives from Manila. SAN FRANCISCO, July 19 .- The United States transport Sheridan arrived this morning from Manila with 612 men of the Thirteenth infantry, 154 men of the Third cavalry, 554 casuals and 76 sick. The cavalry will join the headquarters of their regiment at Fort Assiniboine, and the Thirteenth infantry will be as-

City & Pactic Railway by Judge Hutchison. ONAWA, Ia., July 19 .- (Special.) -- Judge

City & Pacific Railroad company, claiming \$40,000 damages for injuries received in falling off the platform at Mondamin, Ia., in August, 1900. The decision is in favor of the plaintiff for \$2,500, with interest at the rate of 6 per cent, from date of accident until the

case of Luella S. Pickett against the Sloux

time judgment was rendered. All costs are taxed against the defendant. An appeal to the supreme court wi'l do doubt be taken.

resident Beardshear Gets Vacation. AMES, Ia., July 19.-Special Telegram.) -The Board of Trustees of the Iowa State college closed its meeting here today. I

granted President W. M. Beardshear indfinite leave of absence on account of unfavorable reports that came from Minneapolis concerning his state of health. The board thought best for him to rest entirely for several months. Secretary Stanton will act as virtual head of the institution until his recovery.

The contract was let to L. Harbach of Des Moines for furnishing the new engineering hall for \$18,000. A contract was let to Proudfoot & Bird of Des Moines for preparing plans and specifications for the new \$300,000 brick and stone central building.

Prohibitionists at Onawa.

ONAWA, Ia., July 19 .- (Special Telegram.)-The prohibition convention here was a pretty thin affair, only about wenty-five persons in attendance. N. C. Marr was chosen president and H. M. Watson, secretary. E. C. McLaughlin, C. C. Brewer, John Williams, Silas Dean and John A. Heisler were selected delegates to the state convention. Considerable discussion arose over the question of placing s county ticket in the field, and after many suggestions had been made the matter was placed in the hands of N. C. Marr, H. M. Watson and Mrs. Churchill, with power to act. A collection was taken up and the convention adjourned.

DOSE TAKEN WAS NOT FATAL Deserted Wife Falls in Her Attempt to Take Her

Life. At 2 o'clock yesterday afternoon the apparently lifeless body of a woman about 30 years old was discovered by a man named Pierce, lying in a patch of weeds at Sixth and Dorcas streets. The police were notified and the woman taken to the station. After working until 5:80 o'clock Police Surgeons Hahn and Mick brought the woman to consciousness and out of danger. She then admitted taking 15 cents worth of chloral hydrate, which she bought in a drug store, with suicidal intent. She said her husband had left her and that she had become despondent since. The woman, who gave her name as Mrs. Means, was

take enough to kill her. The husband is said to be in Sloux City.
