

TIME FOR EQUALIZATION

Only One Member of Board Present and Session is Adjourned.

ALL COUNTRY REPORTS ARE NOT YET IN

Total Increase in Assessment of State Will Be About \$5,000,000, of Which \$3,000,000 Is in Douglas County.

(From a Staff Correspondent.) LINCOLN, July 21.—(Special.)—This was the day designated by the statutes for the beginning of the annual task of reviewing and equalizing the assessments made in the various counties for the purpose of taxation, but as only one member of the State Board of Equalization was in the city no headway could be made.

Auditor Weston opened the record, noted the absence of Governor Savage and Treasurer Stuefer, and ordered an adjournment for no specified time. It is expected that a meeting will be held as soon as the three members can conveniently come together.

A few of the counties have thus far failed to report the assessment made this year, but from the figures received it is estimated that the grand assessment will be approximately \$5,000,000 greater than last year. Douglas county will give \$2,000,000 of this increase. Lancaster county's assessment is the lowest made since 1886. The total of all counties, including the railroad, telegraph and Pullman property, will not be far from \$175,000,000.

The statute under which the board will proceed provides "That it shall be the duty of said board to examine the various county assessments and to decide upon the rate of the state tax, the state school tax and the state sinking fund tax, to be levied for the current year, together with any other general or special taxes required by law to be levied."

Big Sales of Farm Machinery. There has been an unprecedented sale of farm machinery and implements from Lincoln this year, which speaks the prosperity of the farmer and the good condition of his crops. These sales are not confined to any particular section, county or district, but extend throughout the agricultural portion of the state, so far as it lies within the territory of the Lincoln distributing houses. This territory includes for many of the implement houses nearly all of the counties south of the Platte river and a small portion of Kansas.

In Lincoln this year are pipe dealers in thrashing machines, while last year there were only three who sold this class of farm machinery. One implement firm has constructed a new warehouse at a cost of nearly \$25,000 and several others have put up buildings of smaller dimensions.

"Sales are about three times as great as they were ten years ago," said C. E. Haynie, general agent of the McCormick company, "and they are steadily increasing. I think it is safe to say that in all lines of farm machinery this year there are larger sales than they ever have been. Last year was a good one, but I think this will beat it."

"Our territory includes everything south of the river and there is not one section of it where the crops have failed. There has been local damage in several places, but I think the general percentage, on the small grain, will be less than 10 per cent. That is a small loss when it is considered that the acreage of wheat is much more than 10 per cent greater than last year. The yield is good, better than the average, in fact."

In keeping with an agreement formed several years ago the larger Omaha and Lincoln implement dealers will not display their machinery at the state fair this year. The Lincoln dealers will invite all visiting farmers to their warehouses, where they will be prepared to show their machinery, but only a few of them will maintain displays on the fair grounds.

New Rating on Banks. There seems to be a wide difference of opinion as to whether state banks are required by law to file their articles of incorporation with both the secretary of the State Banking Board and the secretary of state, or merely with the former, as has been customary in the past. The attorney general, in an opinion given for the banking board, holds that they must file in both places. Some of the banking institutions already organized have heeded this ruling by having a duplicate copy of their articles filed in the secretary of state office, but the others are content with the authority given them by the department.

Secretary Royce has notified each state bank of the attorney general's ruling, but as it will be some time before the secretary of state has established a custom it is not likely to be generally observed. Former Attorney General Smyth ruled that the filing of articles with the banking board was sufficient to satisfy the demands of the law.

The question has never been raised in a formal way and it is therefore impossible for the secretary of the banking board or any other official to determine definitely the exact status of a bank which has recorded its articles in only one office. Mr. Royce urges bankers to be on the safe side by completing their record in both departments. He is enforcing the attorney general's ruling as to all new banks chartered, and is without authority to do the same against those already doing business.

Articles of incorporation of these new banks were recorded in the secretary of state's office. The Bank of Trumbull, Trumbull, Clay county; capital stock, \$5,000; incorporators, William Glover and Theodore Glover. The Bristol State Bank, Bristol, Boyd county; capital stock, \$5,000; incorporators, Frank Nelson, Charles H. Hartung and George W. Bell.

E. A. Gilbert of York filed an affidavit asserting that he made no expenditures in connection with his candidacy for the fusion nomination for lieutenant governor. Hays Gives Way to Umstead. CLARK COUNTY, Neb., July 21.—(Special.)—The publicans convention of the Eighteenth senatorial district met here Saturday, with two candidates in the field, Joe A. Hays of Merrick and J. H. Umstead of Nance. After 21 ballots, standing 16 to 14, each time, Mr. Hays moved to make

FEDERATION THEIR OBJECT

Union Pacific Boilermakers, Machinists and Blacksmiths to Unite.

ONE BIG UNION TO CARRY ON STRIKE

Men Now Out Decide that Closer Organization is Necessary and Will Get Together for Better Efforts.

The amalgamation of the boilermakers, machinists and blacksmiths unions into one federation as a means of securing a more effective organization which will combat the Union Pacific in the present strike and preserve and protect the interests of the three crafts in the future, is the latest and most important step contemplated by the strikers from the Union Pacific shops. The plan for instituting this central body has been discussed among the strikers for some time and has been it is understood, approved and decided upon. All that needs to be done is the placing of this plan into execution.

The boilermakers and machinists are more thoroughly organized on the Union Pacific than the blacksmiths, both the former crafts having district lodges and all their local lodges being represented on the executive committee, which harmonizes and facilitates the interests of all. But the blacksmiths have not extended their line organization beyond the district lodge, neither are their local lodges sufficiently cared for by committees, which are regarded as essential elements in the successful operation of a strike. Owing to the deficient organization of the blacksmiths, therefore, the work of uniting the three crafts into one central organization necessarily will be done by slow degrees, but it is said to be the intention to carry this plan through with as little delay as possible.

Blacksmiths Will Form a District. The machinists began their strike here under the direction of their district officers, and the boilermakers, whose district president is John Kennedy, chief executive officer of the local lodge of boilermakers. Prior to the formation of the federation the blacksmiths will organize a district lodge, whose officers will be elected, work hand in hand with the district officers of the other crafts, and the three will be united under the regulations of the federation.

Information was obtained yesterday through the boilermakers that the Union Pacific had employed Charles Hemple, former of the Burlington shops at Havelock, to come to Omaha and install the piecework system. It is stated that Mr. Hemple is retained at a salary of \$200 a month. James J. Clair is at present foreman at the shops and it is not known whether or not he will be displaced by the new man or will also be retained.

The strikers have decided upon another new method for waging their fight. They will employ a staff of camera pickets, whose duty it will be to photograph every man who goes into the Union Pacific yards to work during the present troubles and who may apply for work or participate in any way in opposing the interests of the strikers. They feel that the thought of future use of these photos may deter many strike breakers and have a valuable effect for the union.

The four men on the big hammer in the blacksmith shop in Omaha struck yesterday. They were at the meeting of the blacksmiths Sunday and signified their disposition to quit, although when one of the quartet was asked if they had quit or were going to be repaid that they thought of striking.

From Cars to Pattern Shops. The force of nonunion men in the Omaha shops was transferred yesterday from the cars in which they have been lying into the new pattern shop building, which has been conveniently arranged and equipped for their respective comfort. The floor becomes their dining room and on the upper floor they will sleep. The building is large and airy and both apartments ought to be very comfortable.

Radical counter claims are being made by the Union Pacific officials. They have neither side seems to be at all impressed with the assertions of the other and the fight still proceeds with apparently no sign of abatement. "It is merely a waiting game," as one man expressed it yesterday morning.

Strikers are still applying to us for work. One came Saturday and said his resources were exhausted and that he must earn some money. He thought he would return to work tomorrow and was sure he would have done long ago and it is not been for the restraint of the union. There are others who feel the same way. The only trouble is that, while many of the men want to come back to work, none feel like taking the lead in making a break.

But a break will be made and information has reached us that it may come about the middle of this week. Greece Says It's Absurd. "What absurdity it is for any official to make such a statement as this," said Samuel H. Grace, secretary of the machinists' executive committee. Why there is not the least suggestion of a break in our ranks and the officials of the Union Pacific know it or ought to. Our men are stronger in their convictions today than they have ever been and they will never go back to work for the Union Pacific until they get the concessions they are after. Our ranks have not been broken, but are as much intact today as when this fight began.

President Kennedy of the local boilermakers' union said: "Well, that is a cheerful view for the company to take; so cheerful, in fact, that it makes me laugh. Why, man, there is not a boilermaker who would go back to work for the Union Pacific under any conditions other than those for which we are contending. Instead of contemplating anything of this kind, we are laying plans for a more aggressive fight, determined not to lay down until we have won completely."

Officials of the Union Pacific say the working forces of the boilermakers and machinists have been increased at Omaha and Cheyenne. They say the visit of Vice President Wilson of the machinists to Cheyenne was immediately followed by additions to the shop force there.

War in mind that the Champagne you bear is Cook's Imperial Extra Dry. Made in America, better than foreign makes. Steps from One Jail into Another. FREMONT, Neb., July 21.—(Special.)—The police arrested a tough-looking negro Sunday, who was identified this morning as the man who had terrorized a family on the south side by demanding money and brandishing a club in a threatening manner. He was expected and he said last night that he had just completed a thirty-day sentence in the Douglas county jail for disorderly conduct. He was given a thirty-day sentence in the Dodge county jail.

Flankinton Catholics Get Priest. SIOUX FALLS, S. D., July 21.—(Special.)—Rev. T. N. Stanton has been appointed pastor of the Catholic church at Flankinton and will in future be stationed there. Heretofore the Flankinton church has had no resident pastor and services have as a result been very irregular.

Health Board Does Clean Job. NEBRASKA CITY, Neb., July 21.—(Special.)—The action of the Board of Health regarding the cleaning of the water mains has brought forth the desired result. Between five and six feet of sediment was taken from the basins. It is thought that with the additional settling room the city may be able to have clear water once more.

Evangelist Quits Nebraska City. NEBRASKA CITY, Neb., July 21.—(Special.)—Dr. Williams, the evangelist, who has been here for the past three weeks, closed his meeting last night. The meetings have been much more highly attended than was expected and he said last night that he was decidedly disappointed with his work here.

A LETTER TO OUR READERS

NEW HAVEN, Addison Co., Vt. Dr. Klinger & Co., Binghamton, N. Y.

Gentlemen—About a year ago I was suffering from what I supposed was rheumatism. I became so bad that I could hardly get on my feet from a sitting position. I ran down in weight from one hundred and ninety-five to a hundred and forty-five pounds. I tried different kinds of medicine, but received little or no help. I saw Dr. Klinger's Swamp-Root highly recommended for kidney trouble, but I never had any idea that my kidneys were affected. I thought I would try a fifty-cent bottle of Swamp-Root and see what the effect would be. I commenced taking it according to directions and in few days I saw that it was helping me. I used the fifty-cent bottle and then bought two more dollar bottles and they completely cured me. I have got back to my original weight, one hundred and ninety-five pounds, and I am a thorough advocate of Dr. Klinger's Swamp-Root. Very truly, Feb. 17, 1902. WM. M. PARTCH.

You may have a sample bottle of this wonderful remedy, Dr. Klinger's Swamp-Root, sent absolutely free by mail; also a book telling all about Swamp-Root. If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember Klinger's Swamp-Root. Dr. Klinger's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

DECIDES BANKRUPTCY CASE Minnesota Court of Appeals Makes Important Ruling in Bank Suit.

ST. PAUL, Minn., July 21.—The circuit court of appeals today filed a decision in a St. Louis bankruptcy case involving the principle that all unexempt property which a bankrupt has owned four months before the filing of a petition against him must be distributed share and share alike among his creditors.

The Fourth National bank of St. Louis held notes against the Siegel-Hillman Dry Goods company of that city, in the aggregate sum of \$60,000. Less than four months before the latter was adjudged a bankrupt it had paid on these notes the sum of \$14,000. Then the affairs of the bankruptcy company went into the hands of the referee. The trustee, S. L. Swarts, moved that all the claims of the bank be extinguished unless it surrender the \$14,000 which had been paid on the notes it held against the company.

The referee granted the motion and the bank appealed to the federal district court, which directed the referee to deny the motion. Mr. Swarts thereupon appealed the case to the circuit court of appeals and had the judgment of the lower court reversed.

The Post Check. A bill has been before congress to retire the present five, two and one dollar bills and substitute notes, payable at any post-office, in their places and which shall pass as currency. If it becomes a law it will be inevitable to many forms of business as Hostetter's Stomach Bitters is to those who suffer from headache, indigestion, dyspepsia, insomnia, nervousness or malaria. It will positively cure these diseases. Try it and satisfy yourself.

Fall Will End in Death. SIOUX FALLS, S. D., July 21.—(Special.)—Joseph Berdahl, the 8-year-old son of J. M. Berdahl, a prominent resident of Colton, was perhaps fatally injured while playing on a gate. He slipped and fell, breaking a rib and injuring himself internally to such an extent that his recovery is unlikely.

FORECAST OF THE WEATHER Fair and Warmer Tuesday in Nebraska, with Increasing Cloudiness Wednesday.

WASHINGTON, July 21.—Forecast: For Nebraska and South Dakota—Fair and warmer Tuesday; Wednesday increasing cloudiness. For Iowa and Missouri—Fair and warmer Tuesday; Wednesday increasing cloudiness; fresh south winds. For Illinois—Fair and warmer Tuesday and Wednesday; fresh northwest winds, diminishing.

For Kansas—Fair Tuesday, warmer in east portion; Wednesday increasing cloudiness. For Colorado and Wyoming—Fair and warmer Tuesday and probably Wednesday. Local Record.

OFFICE OF THE WEATHER BUREAU. OMAHA, July 21.—Official record of temperature and precipitation compared with the corresponding day of the last three years: 1902 1901 1900 1899.

OMAHA'S NATIONAL BANKS

Consolidated Statement Shows Gains in Each Separate Direction.

EXCESS OVER LAST YEAR MOST MARKED

Midsummer Season of Trade Stagnation Finds the Local Financial Institutions Far in Advance of Their Previous Record.

The statements of the condition of the Omaha national banks as compared with the condition of last year shows in every material branch of banking there has been distinct gains in each of the institutions. A reflex of the general conditions of business in the community is shown in the loans and discounts, this item increasing in the aggregate more than \$2,000,000 over last year at the same time. In spite of the falling off in trade, which usually takes place in the summer months the loans and discounts have increased more than \$700,000 over the amount shown in the April statement, which was taken at the time merchants were moving their spring stocks.

Even with the large increase in the loans and discounts the available cash on hands shows a slight increase over last year, while it shows a decrease over the April statement. The deposits for the present time show a gain of over \$1,000,000 over the corresponding month of last year, and an increase of over \$600,000 over the April statement. The total resources of all of the banks show an increase over last year of more than \$500,000, but show a slight decrease over the April statement. There is nothing unusual in this, as the spring statements, as well as those of the fall months, usually show greater activity in the money market, and therefore a larger amount of resources than those statements issued in the summer and winter when business is comparatively slack.

Following is the comparative statement of the seven banks: Loans and Discounts.

Table with columns: Bank Name, July 1902, July 1901, April 1902. Rows: First, Omaha, Nebraska, Merchants, United States, Commercial, Union.

"I Have a Fine Appetite and Perfect Digestion—Pe-ru-na is Surely a Grand Medicine."

MR. A. J. WRIGHT, treasurer of the Ancient Order of Foresters' Court, 5419 Stratford, Ont., writes:

"I have suffered for two years with pains across my back, and severe stomach trouble. I feared that I had kidney trouble, and felt very discouraged until I used Peruna. It took only five bottles to completely restore me to health and strength. The catarrh of my stomach has entirely disappeared. I have no more pain, but a fine appetite and perfect digestion. Peruna has my approval. It is surely a grand medicine!"—A. J. Wright.

MR. A. J. WRIGHT

When the stomach is affected by catarrh there is a large quantity of vitiated mucus poured out into the stomach, which constitutes a very serious drain upon the vital powers. This mucus passes away in one form or another and is generally unnoticed by the patient, who is unable to account for the great weakness and prostration which is experienced. These patients complain of lassitude, all tired-out feelings, their blood becomes thin, nervous system deranged, food seems to do them no good, continuous and increasing weakness. The unfortunate victim wonders why he should be so weak, why his food gives him no strength, why his blood should be so thin. But the evil effects of catarrh of the stomach are not yet all told. Not only does it set up the weakening drain already referred to, but it interferes with, sometimes nearly prevents, the digestion of food. This alone would make the patient drain upon the system. When the food reaches

the stomach it lies there undigested, because it does not find a proper quality of gastric juice. Instead of digesting it so as, forming gas, belchings of sour fluid, pain and a sense of fullness at the pit of the stomach, suffocating sensations, sick headache, palpitation of the heart, great despondency; in short, producing a condition popularly known as dyspepsia.

Peruna is a specific for catarrh of the stomach. It cures the catarrh by removing the cause. With clean, healthy mucous membranes catarrh cannot exist.

If you do not receive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, president of the Hartman Sanitarium, Columbus, Ohio.

WEAKNESS AND PROSTRATION
