A Comparative Statement Showing the Taxes Paid and the Net Receipts of the Various Railroads Owned by the C. B. & Q. Co. in Nebraska.

The railroads owned and operated by the C. B. & Q. Co. in Nebraska can be placed in three classes. The first is a class that is profitable, and from the amount of revenue received, could be called paying ventures.

Table with 4 columns: Class, Miles, Taxes Paid, Net Receipt. Rows for Class No. 1, 2, and 3.

A compiled statement of the operations of these three classes gives the following results:

Table with 6 columns: Class, Miles, Taxes Paid, Tax Paid Per Mile, Net Receipt, Net Earnings Per Mile. Rows for Class No. 1, 2, and 3.

In comparison with the second class railroads owned by the C. B. & Q. system in Nebraska, we offer the following running through the States of Ohio, Pennsylvania, Vermont and Maine:

Table with 6 columns: Railroad, Miles, Net Receipts, Tons Per Mile Handled Per Mile, Tax Per Mile, Per Ct. Tax to Net Earnings. Rows for Pittsburg, Besemer & Lake Erie, St. Johnsbury & Champlain, Bangor & Aroostook, C. B. & Q. (2nd Class).

It is hardly necessary to make comparisons with the third class of roads; the statement shows that they were operated at a loss of \$433,130.17, and that the \$100,254.20 paid in taxes was only an addition to that loss.
