COMMERCIAL AND FINANCIAL

Record Price Since the Civil War Made in July Oats at Seventy-Two.

CELERAL MARKET DULL AND LISTLESS

Benrish Factors Are Plentiful and Other Cerest Lines Are Depressed -Provintens Are Active and Irregular.

CHICAGO, July 25.—Grain traders beheld the odd spectacle fodgy of oats seiling higher than both wheat and corn and yet the phenomenon caused hardly a ripple in the dull and uninteresting business routine. July new oats sold at acc when a few shorts wanted the staff. Cash outs were absorbed by the buil leaders at as high as lic in order to keep them from the anorts. While oats were seating in crib tots at these fancy figures September wheat was around live and the hitherte fancy July corn at something under Sic. In general, however, at may be said the July corners were resting. Shorts in wheat, corn and oats in that month seemed penned in by the big interests. The other markets were doing little because of fair weather, good crop reports and other bearish influences, which in turn, however, had little effect because of the fears of July manipulation. In the and September corn is lower, July corn lightweet, September oats holds lower and July oats is higher. Provisions were very rregular and closed 1840 up to 1746 lower. Wheat worked lower on the influence of lower cables, good weather and a unit trade. Crop advices continued favorable and receipts bore out the reports as to quantity, although grading was very good, as of late. The foreign market weakened, together with the excellent country prospects, geemed to undermine the confidence of the bolders.

The strike of telegraph measengers, which

The strike of telegraph measengers, which spread to the floor of the exchange, interfered with the business and had its modizum of bearish influence. July showed itself very sensitive to any supply or demand and shorts were as usual victorious. The price hung around 71c and closed ke down at 75kc. September was offered freely. Opening Maybe to a shade lower at 720 12kc that option dipped to 71kc and closed weak, \$529-kc lower at 71kc. Local receipts were 200 cars, to contract grade: Minne-apolis and Duluth reported 202 cars, making a total for the three points of 407 cars, against 424 a week ago and 357 last year. Primary receipts were 1,038,000 bushels, compared to 1,031,000 bushels last year. Seaboard clearences in wheat and flour equaled 42,000 bushels. Argentine shipments were 9,000 bushels last year.

120,000 bushels. Argentine shipments were 19,000 bushels for the week, against 256,000 pushels last year.

Corn was even more dull than wheat. The wheat weakness, together with good crop reports, had a depressing influence in the sorn pit and very free offerings by a leading house bre as September prices ic. Trade in the sorn pit and very free offerings by a leading house bre as September prices ic. Trade in the sorn pit and very free offerings by a leading house bre as September prices ic. Trade in the sorn is a small and prices held near significant of the sorn in the part of the shorts to absorb broke the price to a weak close at 63%c. There was a momeniary support in September, but the effect was hardly noticed. September sold from at 63%c. There was a feeling that July was simply slumbering before it burst forth into a voicano-like eruption. Receipts, 241 cars, 61 of contract grade.

Oats ruled lower in the deferred options in sympathy with other grains and on not unfavorable weather. July shorts who did not settle yesterday were frightened by the rumor that because they would not settle at 70c the prices were to be pushed still higher. In consequence of their bids for several "fives" July new sold at 72c, the record price since the civil war. This was the only feature. Trade, otherwise was dull, offerings in new deliveries were freer and prices dipped. After the early advance July dipped back and closed only ½c up at 704c. September sold between 34%c and 33%c and closed weak, %6%e down at 34% 144c. Receipts were 140 cars.

Provisions were very irregular, although not particularly active. Early advances in

c and closed weak, %65½c down at 34@c. Receipts were 140 cars. rovisions were very irregular, although particularly active. Early advances in yard hog market and a good support brokers caused a brisk advance. Lard ectally shot up, September lard once re selling at \$11. The early high prices, who at once unloaded on the little ows, depressing prices badly. Lard ne held up. Late trade lapsed into dulis. September pork sold from \$17.57½ to 70, dipped to \$17.25 and closed 17½c down \$17.37½. September pork ribs, after selling m \$10.62½ to \$10.40, closed weak, 5c lower \$10.50. atlimated receipts for tomorrow: Wheat,

timated receipts for tomorrow: Wheat, 10,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.
