It was in her case that the supreme court almost created a sensation by reason of two opinions diametrically opposed, not merely on questions of law, but of fact. When the court held that the conviction of Mrs. Kuhn, for alleged killing of her husband, was borne out by the evidence and Justice Waterman, since resigned, wrote an interesting opinion to that effect, Justice Weaver, newly on the bench, wrote a dissenting opinion, which fairly swept away the foundations of the majority opinion, according to many lawyers. Justice Weaver made it plain that in his estimation the testimony in the case, which was all circumstantial, fell far short of being sufficient on which to base a conviction.
