FINISH DOUGLAS HEARING

Board Takes the Plea for Reduced Tax Rate Under Advisement.

PENITENTIARY BUILDINGS

Holt County Hunter Plays Trick on Deputy Game Warden and Gets Him Into a Damage Suit.

(From a Staff Correspondent.) LINCOLN, July 29,-(Special.)-The hearing before the Board of Equalization on the application of Douglas county for a reduction in its tax assessment for state purposes was completed this afternoon. The board trok the matter under advisement, promising to give the facts presented careful consideration. An adjournment was taken until tomorrow morning. when the work on other counties will be resumed. Auditor Weston said this afternoon he thought the assessment would be completed before Friday of this week.

Bids will be opened by the Board of Public Lands and Buildings tomorrow for finishing the construction of the administration building at the penitentiary and for repairing the west cellbouse. It is estimated that the probable cost of the work, with the materials necessary, will be between \$20,000 and \$30,000. There is no money available for this purpose and if a contract is granted by the board it will be with the understanding that the contractor will look to the next legislature for his remuneration.

The fire early last year totally destroyed the office building of the institution and badly damaged the west cellhouse. With an appropriation of \$75,000 the board has purchased a new set of cells for the east wing, almost completed the administration building and erected a roof over the west

The east wing of the institution is now overcrowded and the board hopes to have the old cellbouse refitted, so that fifty or CHAUTAUQUANS GREET MICKEY more of the convicts may be confined therein. The members feel that they were completed, because of the bad sanitary conditions existing, to attempt the completion of the repairs and reconstruction, notwithstanding the deficiency.

Several contractors indicated a desire to take on the work, so it is not believed that the lack of funds will prevent the board's plan from being carried out. With the money now available the administration building will be put in condition for occupancy probably by August 15, but will still lack some much-needed im-

prevements. Plays Trick on Game Warden.

AK-SAR-BEN GO TO DEADWOOD

Merry Party of Excursionists Leaves to Attend Black Hills Carnival.

REPRESENTATIVE OF BUSINESS INTERESTS

Personnel of Party Shows it Onof Strongest that Ever Left Omaha on a Visit of Pleasure.

When the Ak-Sar-Ben excursion to Dead wood started last night there were ap proximately 135 men and about a dozen women on board, but before it got out of the yards the total was 136, for Gould Dietz was left at the depot and only by good captors. They are now in jail awaiting foutune and the vociferous shouts of the crowd did he get the train to stop and take him along.

At least 200 persons took advantage o the evening to visit the depot and see friends and relatives started. It reminded one of the sailing of an ocean liner, and the noise of the visitors and the excursionists was so great at the preliminaries attending that starting of the train was unnoticed until the cars were really in motion. It was said by those at the depot to he the best trade and pleasure excursion east of here. The shaft is thought to have which ever left Omaha, as it included not only a majority of the board of governors of the Knights of Ak-Sar-Ben, but a large proportion of the heads of Omaha houses. The train was made up of five sleeping cars, two standard Pullmans and three tourist cars. The men generally took the tourist cars, leaving the standard sleepers to the men who were accompanied by women, and to the South Omaha party of twenty-six persons, who had engaged one of the standard cars especially for the members of the Stock Exchange.

Cars Neatly Decorated. The cars were decorated with Ak-Sar-Ben colors, banners of that order flying from the front of each car, while along the sides were printed streamers bearing the words: "Omaha Ak-Sar-Ben Pilgrimage, 1902." "Ak-Sar-Ben Carnival, September 24 to October 4." "Grand Parades and Electric Pageants, October 1 and 2," "South Omaha Union Stock Yards Live Stock Exchange." The ropes which held the streamers in place were covered with paper of the Ak-Sar-Ben colors. A baggage car had for the time being been transformed into a commissary car and carried not only food, but samples and advertising matter for the excursionists.

Accompanying the excursion was the Twenty-Second Infantry band, in charge of Bandmaster Reichart, consisting of twenty pieces. The band will not only head the procession of the Omaha men at Deadwood, but will supply music where stops were made enroute.

The train was in charge of Conductor "Cush" Pender and drawn by engine No. J. H. St. in charge of Engineer S. J. Hibber. It P. P. will make no stop except for coal and water until it reaches Long Pine this morning, about 6 o'clock. Rome Miller, who controls the eating houses along the Elkhorn. has made especial preparations for the excursionists at Long Pine, where breakfast will be served, and has arranged to serve the tourists at each eating station along the route.
