STRIKERS IN A RIOT

Reign of Terror Holds Shenandoah, Pennsylvania, in Its Grasp.

SMALL BATTLE FOUGHT ON THE STREETS

Score of Miners and Three Policemen Shot as Result of Trouble.

ONE OF THE OFFICERS WILL LIKELY DIE

Injured Strikers Are Hurried Away by Friends After the Shooting.

SHERIFF'S NEPHEW IS BEATEN TO DEATH

Petition is Being Circulated Asking Governor to Send Troops, but Merchants Are Afraid to Sign the Request.

SHENANDOAH, Pa., July 30.—A reign of terror, compared with which the scenes enacted during the riots of 1900 seem insignificant, holds Shenandoah in its grasp tonight.

Since 6 o'clock tonight Center street, which is one of the principal streets of the town, has been in the hands of an infuriated mob. Three of the borough policemen were shot, one perhaps fatally. Joseph Beddall, a leading merchant and cousin of Sheriff Beddall, was brutally clubbed to death and upward of a score of strikers, whose names at this writing could not be ascertained, were shot by policemen, and it is expected that many deaths will result.

Sheriff Beddall arrived from Pottsville at 7:45 o'clock with a posse of deputies. He has taken up his headquarters at the Ferguson hotel. To an Associated Press reporter he stated that he had asked Governor Stone to send the militia. The governor wired that if the citizens of the town petition for troops he would send them. A petition is being circulated for that purpose now. It is almost certain that the troops will be here tomorrow.

The trouble started about 6 o'clock this evening, when Deputy Sheriff Thomas Beddall attempted to escort two nonunion workers through the strikers' line of pickets. The workmen were dressed in their street clothes, but one of them carried a bundle under his arm, and this aroused the suspicion of the strikers. The bundle was torn from him and when it was found to contain a blouse and overalls the man was taken from the deputy and beaten almost to death.

Sheriff Opens Fire.

In the meantime Beddall opened fire on the mob which had gathered and emptied his revolver. Two of the shots took effect, one man being shot in the leg and the other in the foot. The deputy and the other strike-breaker were now compelled to fly for their lives and took refuge in the Philadelphia & Reading railroad depot. The depot was also surrounded by an angry mob of 5,000, which was becoming more threatening and demonstrative every moment.

Joseph Beddall, a hardware merchant and brother of the deputy sheriff, was seen making his way through the crowd in an effort to reach his brother, and the mob, believing that he was carrying ammunition to those inside the depot, seized him and beat him with clubs and billies into insensibility. He died enroute to the Miners' hospital.

Shortly after this the entire borough police force arrived on the scene and escorted the deputy sheriff and his man to an engine, which had been backed into the depot for that purpose.

When the mob realized that their prey was about to escape they surrounded the engine and the engineer was afraid to move. In a few moments, however, the police fired a volley, dispersing the crowd for a brief period, and the engineer turned on full steam and got away. Stones were thrown thick and fast about the heads of the police, whereupon Chief John Fry gave the order to fire. At the first volley the mob fell back and several were seen to fall.

Police Fly for Their Lives.

The retreat, however, was but momentary. They turned and with revolvers, stones, and even a few shotguns, charged on the little band of policemen and made them fly for their lives. The policemen turned in their flight at short intervals and fired volley after volley at their merciless pursuers, but the mob seemed thoroughly infuriated and revolvers seemed to have no terrors for them. When the Lehigh railroad crossing was reached a passing freight train blocked the progress of the police, two of whom were caught and brutally beaten. One of them, Stiney Yacopsky, will die.

It is believed that upward of 1,000 shots were fired and the wonder is that more fatalities did not result. More than twenty strikers, all foreigners, were shot and at least two of them will die.

Many of the merchants and politicians are refusing to sign the call for troops, fearing that the miners will boycott them after the trouble, and as the governor has made the sending of troops contingent on the petition of citizens, there is some doubt as to whether they will be sent.

At 11 o'clock tonight the streets are still crowded with people, but everything is quiet.

About Forty Strikers Hurt.

The doctors of the town dressed the wounds of nearly forty strikers, all of whom were foreigners, whose names could not be ascertained. It is said at midnight that four of the six policemen were shot. Chief Fry received a slight wound in the hand. Yacopsky was shot in the neck and may die. Ringheiser was shot in the hand and back; not serious. Lauritas was shot in several places and cannot recover.

The following printed notice was posted by the mine workers all over the town tonight:

In view of the disturbances that have occurred in Shenandoah within the last twenty-four hours, in utter disregard to the teachings of the United Mine Workers as an organization, and contrary to the explicit instructions of the leaders, we call on all members of the United Mine Workers' union to at once do all in their power to suppress lawlessness and to aid the officers in every way to maintain peace and good order.

JOHN FAHEY,
President District No 9.

Troops Ordered to Scene.

HARRISBURG, Pa., July 30.—Governor Stone has ordered the Eighth and Twelfth regiments and the Governor's troops, in command of General J. P. S. Gobin, to proceed immediately to Shenandoah, the scene of tonight's rioting. General Gobin left here shortly after midnight in a special train, and it is expected that all the troops, the combined strength of which is 1,500, will be on the ground by daybreak. The

KING'S PROGRESS INCREASES

Edward Able to Walk Around on Board of Yacht Without Assistance.

LONDON, July 30.—King Edward's progress continues to be in every way satisfactory. During the day he walked unaided the deck of the royal yacht [illegible] and Albert without any assistance and exercise is reported to have done him good. The earl of Denbigh, one of the king's lords in waiting, speaking at a public meeting today, said he saw no reason why the king should not be strong enough to undertake the fatigue incident to the coronation on August 9.

Queen Alexandra, while attending the coronation fetes at Whippingham, Isle of Wight, this evening, confirmed the reports of his majesty's splendid progress and said he could now walk across the deck of the royal yacht and that he preferred remaining off Cowes to taking another cruise.

The king has signed his approval of the arrangements for the coronation procession, which provides that their majesties shall travel to and from Westminster abbey in the great state coach and by the route originally arranged. His majesty himself feels entire confidence in his ability to carry out this intention. Should the weather prove fine enough, it is expected his majesty will cruise to Portland and back tomorrow.

It is said he has moved practically unaided from his couch in the cabin to the table.

STRANGE STORY OF KUBELIK

Brother Asserts He is a Male Trilby Under Complete Control of His Manager.

(Copyright, 1902, by Press Publishing Co.)

VIENNA, July 30.—(New York World Cablegram—Special Telegram.)—The Czech newspaper, Review Rosbledy, publishes a communication from Vaclav Kubelik, elder brother of Jan Kubelik, the famous violinist, in which he asserts that Jan is a kind of a male Trilby, totally under the baneful influence of his manager, Skriven. The elder Kubelik declares that despite his enormous earnings Jan does not possess a farthing of his own and that he is practically a prisoner in the hands of Skriven, who recently prevented him visiting his mother.

(Copyright, 1902, by Press Publishing Co.)

LONDON, July 30.—(New York World Cablegram—Special Telegram.)—Vaclav Kubelik's story is declared to be preposterous in London musical circles. Hugo Gorlitz, who managed Kubelik's recent tours in America and England, declares that Skriven is a straightforward business man; that Kubelik's money is all banked in his own name, and that all contracts are signed by him. "I consider Skriven Kubelik's best friend," he said. "Kubelik stated once that if Skriven left him he would stop playing at once. Kubelik is very good to his family and pays all the expenses of the education of his brothers."

CARNEGIE BUYS BIG LIBRARY

Presents It to John Morley, Who in Turn Will Give It to British Nation.

(Copyright, 1902, by Press Publishing Co.)

LONDON, July 30.—(New York World Cablegram—Special Telegram.)—Andrew Carnegie purchased the famous library of the late Lord Acton, containing the greatest collection of historical works in the world, and presented it to John Morley. The library consists of 80,000 volumes and it is said that Mr. Carnegie gave $300,000 for it.

The World correspondent learns that Mr. Morley has accepted this munificent gift, but that it is his intention to present it in turn to the British nation.

Lord Acton was one of Mr. Gladstone's closest friends and owed his peerage to him.

CASTRO LEAVES THE EAST

Abandons Eastern Ports of Venezuela, Including Barcelona, to Meet Rebels.

WILLEMSTAD, July 30.—All eastern ports of Venezuela, including Barcelona, have been abandoned by President Castro, all of whose forces and resources are being concentrated near La Victoria, which is three days' distant from Caracas and which is near the mountainous district of Guarico, where the advance guard of revolutionists under General M[illegible]za appeared some days ago.

General Mendoza's forces retreated, however, to join General Matos' army, which today was in the neighborhood of El Sombrero and advancing by forced marches. Once these two forces effect a junction it is expected they will take the offensive against President Castro. The situation of the government is far from clear, regardless of the fact that the revolution seems lacking in decision. In a sense President Castro holds the situation, and a single defeat of the revolutionists would probably render him arbiter of the country's future. The president intends to leace Caracas for La Victoria Thursday.

The revolutionists have reappeared on the outskirts of Caracas. The United States cruiser Potomac has left La Guayra.

EMPEROR TALKS OF PRUSSIA

William Says It Holds Foremost Position Within the German Empire.

BERLIN, July 30.—The German emperor in replying to an address of welcome at Emden today said Prussia now held the foremost position within the empire and the king of Prussia had what no other German emperor had been in a position to acquire, namely, the necessary mastery of his own house. On this basis it was again possible to take up the old problem which his predecessors had always kept in view. Emden, the emperor said, had never given way to cries and lamentation, but had awaited the future in God-fearing silence, an example which many Germans might imitate. Better days were in store for the city, upon which it lay to turn circumstances to account, while on himself devolved the task of maintaining peace so that Emden might look forward to prosperous development.

Cholera Epidemic Increasing.

CAIRO, Egypt, July 30.—The epidemic of cholera here is increasing; there were forty-one new cases and thirty-five deaths yesterday. At Moucha there were twenty-two new cases and fourteen deaths. The disease made its appearance at Eizeh.

Costa Rican Volcano Threatening.

MANAGUA, Nicaragua, July 30.—La Democracia states that the volcano Poas, in Costa Rica, is putting forth groaning sounds and emitting ashes. The volcano is about twenty miles from Alajuela.

NEW YORK FOR ROOSEVELT

Senator Platt Makes this Assertion After Conference with President.

DISCUSS STATE AND NATIONAL POLITICS

Story that Governor Odell is to Retire from Politics Denied and Claim Made that He Will Be Candidate for Re-election.

OYSTER BAY, July 30—"President Roosevelt will have a solid delegation from New York state to the next republican national convention." This statement was made this afternoon by Senator Thomas C. Platt of New York, after a conference with the president at Sagamore Hill.

Mr. Platt was accompanied to Mr. Roosevelt's country home by Colonel George W. Dunn of Binghamton, chairman of the republican committee of New York. The visit to the president was by appointment.

At 9:30 in the morning Senator Platt and Colonel Dunn boarded the government yacht Sylph at New York, and fifteen minutes later the trim little ship was under way for Oyster Bay. They arrived off the J. West Roosevelt landing at 12:38 and were conveyed immediately to the shore in a launch. At the landing they were met by one of the president's carriages and driven directly to Sagamore Hill.

Conference Lasts Two Hours.

After a cordial welcome by Mr. Roosevelt, luncheon was announced. During the two hours' conference which ensued both national and New York state politics were discussed, the question quite naturally revolving principally around state affairs. Senator Platt reviewed the political situation in both the national and state fields. He already had declared himself to be a supporter of President Roosevelt for the presidential nomination in 1904, and he expressed the opinion that, barring unforseen contingencies, the president would be nominated to succeed himself.

It was here that he made the statement at the head of this dispatch. Mr. Platt assured Mr. Roosevelt that perfect harmony existed among the leaders and among the rank and file of the republican party in New York, and that, without doubt, the entire republican ticket would be elected this fall.

The story that Governor Odell might retire from politics to accept a handsome business offer was adverted to, but merely in the form of a denial of its authenticity. Governor Odell has had, it is understood, several offers during the last year or two to go into business in a way advantageous to him, but all have been declined. He is a candidate for re-election and will be nominated in September, it is confidently expected by Senator Platt.

Senator Platt Arrives.

Shortly after 3 o'clock Senator Platt, leaning on the arm of Colonel Dunn, descended the steep flight of steps to the J. West Roosevelt landing to take the launch for Sylph. Physically he looks stronger and better than he has looked for several months. To a representative of the Associated Press he said that he felt "very well indeed."

In response to inquiries the senator said he and Colonel Dunn had had a very pleasant talk with the president.

"The object of our visit to Sagamore Hill," suggested Colonel Dunn, "was to discuss pending national matters with President Roosevelt, and to inform him of the condition of the republican party in the Empire state. Our interview was entirely satisfactory."

Discussing the political situation in New York state, Senator Platt said:

"Perfect harmony exists among the leaders and among the rank and file of the republican party in New York. President Roosevelt will have a solid delegation from New York state to the next republican national convention. He will meet no opposition in his own state."

As to his conference with Mr. Roosevelt the senator said: "We did not discuss local appointments with the president. Our talk was particularly on national and state politics, conditions rather than personalities. In response to other inquiries Senator Platt said that Governor Odell would again be a candidate.

General Meeting of Society of Cuban Planters Held and Program is Arranged.

HAVANA, July 30.—At a general meeting of the Society of Cuban Planters, which was held here today, the executive committee of the society proposed a program, which was subsequently adopted. This program supports the plan of Emilio Terry, secretary of agriculture, to raise a loan of $4,000,000 to assist Cuban planters and for the establishment of mortgage banks. The proclamation sets forth that the society considers imperative the payment of the army.

Regarding the rumors that the society intended to declare for annexation, it was stated that some members favored the step, but that they did not appear at the meeting to support it.

In the course of a speech, one prominent planter said: "We are all annexationists, but the time for annexation has not yet arrived."

Prefeto Lacoste, at one time mayor of Havana, was elected president of the new executive committee.

Substantial Reduction in the Rate of Levy for Douglas County.

OTHER COUNTIES ALSO ARE FAVORED

LINCOLN, July 30.—(Special.)—The State Board of Equalization completed its labors today and fixed the rate of assessment for the present year. That of Douglas county was fixed at 4½ mills as against 7⅝ mills in 1901. On the present valuation this will call for a tax contribution of $114,263.26 from Douglas county in 1902. At 2:30 yesterday afternoon members of the Omaha Real Estate exchange received word from Lincoln that the State Board of Equalization has given Douglas county what the exchange asked—a levy of 4.5 mills. The state levy last year was 7.375 mills.

The county levy this year is 15 mills, as against 17.2 last year, so that if the report from Lincoln be true the total levy is 19.5 mills against 24 23-40 last year, or practically a reduction of 5 mills. The city levy was reduced from 33 mills to 30.

Douglas county had a delegation before the state board both Monday and Tuesday. It comprised Attorney J. H. McIntosh, County Attorney George Shields and, as witnesses, F. H. Myers of the Benson-Myers firm, Thomas S. Boyd, formerly land examiner for the Anthony Loan and Trust company, and F. J. Fitzgerald of the R. C. Peters company, these three as experts on farm lands; Fred Wead, W. G. Ure and John N. Frenzer as experts on city lots. The testimony of these, each of the first three being obliged to go over the state map county by county and answer half a dozen questions each from members of the board, occupied most of the first day. The second day affidavits from residents of four different counties were read, and Deputy State Labor Commissioner Watson called to strengthen the showing that Douglas county is assessed on a one-sixth value while others are assessed only on a tenth, and that it should, therefore, have a 40 per cent less levy. After the testimony Shields briefly and McIntosh fully discussed the propriety of this course, showing that an equalization board must equalize, regardless of whether or not the revenue to the state prove adequate. They showed how manifestly unfair it would be to hold up Douglas county just for the benefit of the state treasury. One of the delegation says that the state board was very chilly and somewhat scornful at first, but was won over in the course of the second day.

FIRE DESTROYS WAREHOUSE

Portion of Chicago Plant of Thomas J. Lipton Company Burns.

CHICAGO, July 30.—Fire in the plant of Thomas J. Lipton company at the Union stockyards tonight caused a loss of $225,000.

Only by the hardest kind of work could the firemen confine the fire to the building in which it started. The entire contents of the warehouse "B" were destroyed only the walls of the building remaining. The warehouse was a four-story structure, 125 feet long by 100 feet wide. It was filled with pickled and cured meats. In the upper story were thousands of strings of sausages and the lower floors were filled with hams, bacon and lard. For a time the entire plant of the Lipton company was threatened.

ENGINE JUMPS THE TRACK

Plunges Over Steep Embankment Into River, Killing Engineer and Fireman.

ALTOONA, Pa., July 30.—Engineer John W. Kemmerling was instantly killed and his fireman, H. M. Nicely, fatally injured in a wreck at Pack Saddle, sixty miles west of Altoona, at noon today. Their train, the westbound fast mail on the Pennsylvania road, was wrecked by the engine jumping the track on a curve while running at a very high speed. The locomotive plunged over a fifty-foot embankment into the Conemaugh river. The engineer was crushed under the huge mass and the fireman was so badly injured that death resulted in a few hours. The postal cars remained on the roadbed and were not badly broken. The train carried no passengers. Brakeman Bert McGinnis and three postal clerks were roughly shaken up, but their injuries are not of a serious nature.

NOVEL PLAN TO GET VOTES

Former Chief of Police Devery Entertains Women and Children at Picnic.

NEW YORK, July 30.—Between 15,000 and 20,000 women and children were the guests of former Chief of Police William S. Devery on a water picnic today.

Devery is a candidate for the democratic leadership of the Ninth assembly district and the monster outing was a feature of the spectacular campaign he has been conducting.

Men were excluded and the six shiploads of excursionists consisted only of women and children from the Ninth district. It was the biggest excursion ever handled in this city. Two large steamers and four large barges were required to handle the crowd, and Devery was personally in charge. Ten physicians, a corps of trained nurses, lifesavers, an opera company a vaudeville troupe and four bands were taken along and refreshments served in unlimited quantities.

The chief commissary of the expedition had 150 assistants and the list of supplies was as follows: One thousands pounds of roast beef, 1,200 pounds corned beef, 1,500 pounds of ham, 2 barrels of sugar, 4 tubs of butter, 20 barrels of potatoes, 20 crates of tinned tomatoes, 10 crates of raw tomatoes, 500 heads of cabbage, 250 pounds of coffee 500 large loaves of bread, clam chowder for 30,000, 500 pounds of cake, 500 gallons of ice cream, 8,000 quarts of milk, 250 boxes of soft drinks, ten barrels of birch beer, 1,400 bags of popcorn and candy.

(From a Staff Correspondent.)

DES MOINES, July 30.—(Special.)—Under conditions in many respects most auspicious and yet on a day when the heat in a great hall was almost intolerable, the representatives of the republican party of Iowa to the number of more than 1,200 gathered today to renew their allegiance to the principles of the party and name the candidates for state office required under the law. It was a genuine harmony meeting, a gathering in many respects like other great republican conventions in Iowa and yet lacking somewhat in the intense interest which is generated by hard contests for place usual in republican conventions in Iowa. It was a foregone conclusion that the first five on the ticket would be named by acclamation. A few days ago it was made plain that the auditor of state would also be named by acclamation. There were but three contests for places. These were entirely personal. The chief interest was in an effort to have the party reverse itself on the platform of last year. This also proved a fizzle all round. So it was not possible for this convention to be as important as some other conventions of the party in recent years.

There were a number of distinguished statesmen present. Speaker Henderson came in and was received with great applause. Secretary Wilson of the Roosevelt cabinet was similarly honored, and Senators Allison and Dolliver and members of congress were well received. There was intense applause for Governor Cummins when he appeared. The convention was enthusiastic all through, the music was good, the spirit manifested most excellent.

Smith Makes a Hit.

Judge Walter I. Smith of Council Bluffs, congressman from the Ninth district, made a hit with his speech as temporary chairman. He spoke especially of the tariff and trusts and placed himself distinctly in line with progressive thought in this state. He was generously applauded for his strong remarks and he spoke with a strong voice and deep earnestness which commanded rapt attention.

Speech of Chairman Smith.

Hon. Walter I. Smith, temporary chairman, said in part:

The republican party is dedicated to promoting the honor and glory of the republic and the freedom, prosperity, moral well-being and happiness of all its children, whether they dwell at home or in the islands beyond the sea that have been added to its territory.

We are proud of all the great achievements of the party in the past four years, of the union saved, of slaves made free, of free labor better paid and more constantly employed than in other days, of greater prosperity and of increased wealth, of the wide diffusion of knowledge and happiness among all the people.

To the end that men may be kept in all parts of the world seeking
