Wyoming the Place for Reservoirs. State Engineer Dobson and Assistant Forbes returned today from a trip of inspection through the Platte valley of eastern Wyoming and western Nebraska. They made the trip with a view to ascertaining the elevation of the land in the various sections along the river, preparatory to the formulation of plans for irrigation works.

"I am confident that if the government builds reservoirs for irrigation in this state it -would be better to have them in Wyoming than in Nebraska," said Mr. Dobson. "This of course is on account of the elevation of the land. The conditions in the Platte valley between Guernsey and the state line are more favorable to the storage of water than in Nebraska.'

Mr. Dobson has been notified that Elwood Mead, chief of irrigation investigations for the United States Department of Agriculture, will be in Lincoln on August 7 to consider irrigation matters. It is understood here that the investigation Mr. Mead proposes to make will be preparatory to the work of the government under the new irrigation law. Mr. Mead wrote as follows:

rigation law. Mr. Mead wrote as follows:

I expect to reach Lincoln on the 7th of August and would like to have a conference with you and such of your freigation board as can be got together to talk over our work in connection with interstate and riparian rights. I also wish on this trip to take up any other matters connected with our investigations which may be of general interest. You can say that I come to Lincoln for a conference with you and that I intend to go on to the western part of the state to look after our investigations after the conference is over.

Bronchitis

Ayer's Cherry Pectoral is the only medicine you need. We have been saying this for 60 years. If you want additional proof, ask your own family physician. We will abide by his decision if you will. That's fair, isn't it?

"Ayer's Cherry Pectoral never fails to cure me of a cold. I have recom-mended it to many friends suffering from throat and lung troubles, and they all say it does the work quickly and thoroughly."- Charles Prevost, Plattsthoroughly." burg, N. Y.

J. C. AYER CO., Lowell, Mass.

DAWSON COUNTY MAN OBJECTS Some Statistics and Observations on Arable Land and Its Products.

LEXINGTON, Neb., July 29.-To the Editor of The Bee: I have no intention of entering into the merits of the controversy regarding the taxation of corporations, still less of undertaking anything in the way of a defense of the corporations, but I deyour editorial, "Does Distribution Disribute," in The Bee of July 28.

In that article occurs the following paragraph, "Dawson county is in the semiarid region, sparsely settled, and devoted chiefly to cattle raising."

Dawson county has an arable area of 980 square miles, or 627,200 acres. The Platte valley extends diagonally through the county, ranging from eight to eighteen miles in width and contains, with Wood River and some smaller valleys, approximately 450,000 acres. The balance is pasture land. It is possible that we are entitled to be located in the semi-arid belt, but with him up considerably. He is resting as well 198,000 acres of our valley lands under irrigation I defy a comparison of results with a like territory in the humid regions. The assessor's returns for the present year show 66,000 acres of wheat, mostly winter. Threshing is well under way and the results obtained range from forty to fiftyseven bushels per acre. Putting the average at thirty bushels per acre, which is very conservative, the yield will be 2,000,000 bushels, which is a half million bushels less than elevator men estimate. Besides this there are 46,000 acres of rye, \$7,000 acres of corn, 80,000 acres of alflalfa, which produces three and sometimes four crops per value of cattle, hogs and sheep is \$780,280. These values are obtained by multiplying the assessed values by ten, which I believe I can prove to you, constitutes a conservative and fair estimate.

to \$2 for farm land. Within the last year Oats cutting is about done, with prospects there has been considerable farm land sold of the largest corn crop ever raised. in this county, and the average cash prices paid on bona fide sales has been close to \$25 per acre. The minimum price has been \$15 per acre, and the maximum \$40 per acre, yielded an income equivalent to a value of Over 100 teachers are in attendance. from \$60 to \$100 per acre.

There are only 558 acres of unappropriated government land in the county and these consist entirely of small tracts along the river, which are almost valueless by reason of their size and shape and the growth of brush and briar, by which they are principally covered.

The census of 1900 gives us a population for the little folks in attendance of 12,214, being 12.5 per square mile. This population has been increased since that time by fully 10 per cent and 90 per cent of that total inhabit the valleys named, making the population of those valleys 17.3 per square mile, which, as the whole state of Nebraska has a population of only 13.5 per square mile, I submit that this county cannot be called "sparwely populated," especially as the state includes the cities of Omaha, Lincoln and other large places. In the county there are 109 schoolhouses, of the value of more than \$100,000 and with an attendance of 4,585 pupils, taught by 137 teachers. There are four national banks and four state banks in the county, with deposits aggregating more than \$1,000,000.

I do not suppose for an instant that The Bee intended to disparage Dawson county, day addressed a letter to George H. Work but we aspire and are entitled, as I think of Hastings, informing him that the In. | the foregoing will show, to a higher rank ternational Agency company, which has an than that of a "cow county," and, regardoffice in the Rialto building in Chicago, is less of intentions, the paragraph quoted not authorized to do an insurance busi- would convey the impression to one who is ness in this state and that insurers in not familiar with the conditions that this the company can have no resources was a cattle country and nothing more. through the courts for losses sustained. It is about time that the Omaha people selling liquor in his establishment after should consider the proposition of nomithe prescribed closing hours. His case nating a republican. W. J. B., another wolf in sheep's skin, is in the deal, evidently, and wants a place on the fire and police board. Me, too, Gurley, wants a job as United States district attorney, of course. Your friend, R. A. H.

Bountiful Harvest at Lexington

LEXINGTON, Neb., July 31 .- (Special.) -Oats are very heavy and will yield from sixty to eighty bushels per acre. The prospects for the best corn crop ever grown here are assuring. Fall wheat is yielding from thirty to fifty-five bushels per acre. No spring wheat threshing has been done yet. Two beavy crops of alfalfa have been cut, with fine prespects for two more heavy crops. There is a large number of land sales being made, land ranging in price from \$20 to \$50 per acre.

Increase Elevators' Capacity. THAYER, Neb., July 31 .- (Special.) -F. P. Van Wickle, owner of several elevators in York county, is building large additions to each elevator. Mr. Van Wickle says that the crop in Yerk county will be the largest in the history of the county and that he, as well as other eleowners, are obliged to increase their elevator capacity so as to be able

to handle the large crop. Jamestown Coal Mining a Finsle. FREMONT. Neb., July 31 .- (Special.) -- Colored Women's clubs proved something Further developments at Jamestown of a surprise in its placing Miss Reberca J would indicate that coal mining will not Dunbar of Providence, R. I., at the head of be a profitable venture at that point, owing that organization. Miss Dunbar secured to the poor quality of the vein and its the presidency by just one vote over Mrs. limited width. SHORTS APPEAL TO THE LAW

Court Asked to Help Men Who Sold Oats They Did Not Own.

DECISION IS UNFAVORABLE TO LONGS

Injunction Issued Which for the Time Protects Complainants Against Any Alleged Corner in Onts on Board of Trade.

CHICAGO, July 31 .- Judge Chytraus today modified the injunction issued yesterday restraining the Chicago Board of Trade and the Board of Trade operators, James A. Patten, Carrington, Patten & Co., and Bartlett, Frazier & Co. from conducting a corner in July standard oats, by restrainng the defendants from asking the president of the Board of Trade to endose down margins deposited by the complainants, Waite, Thornburn & Co., to secure 55,000 bushels of short sales.

The court held session, however, before the opening of the Board of Trade, in order that a decision might be reached before business was begun. So important, however, did the court consider the precedent of the case, that a motion for a dis-BLOOMFIELD, Neb., July 31.-(Special solution of the temporary injunction was relegram.)-At the republican senatorial not considered and the case will come up

The effect of the action of the court is for the time to protect the complainants today Hon. William P. Warner of Dakota against any alleged corner and is con-City was nominated on the first ballot strued as working against the buil clique of operators on the board.

Argument was brought to bear by at torneys for the board and for the defendant operators that inasmuch as both the complainants and the defendants were members of a tribunal that adjudicated mature in asking for an injunction against corner when no such corner was in effect and when the Board of Trade rules specifically prohibited corners.

Not Worth Price Asked.

The defendant members of the board of trade in answer to the injunction denied the affirmation that July standard oats were worth not in excess of 35 cents a bushel and said they were worth more than that price. They also denied any conference among themselves or Joseph Bidwell, grain inspector, to corner July oats or to forestall the market in that oats. They denied that they had given a fictitious value to the article and that they had made any purchases for July delivery since July 1.

It was set forth that the elevator ac commodation and railway facilities of Chicago were such that would allow of delivery of fifteen times the amount of oats bought of Waite, Thornburg & Co. by the defendants, and that frequently the defendants had bought ten times as much as their total purchases in this delivery.

Purchases of Bull Citque. Following are the purchases made in

July standard onto by the buil clique as set forth in their affidavit: Bartlett, Frazier & Co., 900,000 bushels; Carrington, Patten & Co., 100,000 bushels; James A. Patten, 860,000 bushels.

Attorney J. H. Monroe, for the defendants, in addressing the court, made at 64 cents and sold at 65 cents. James BLACKSMITH'S ANVIL SILENT money by buying property at a less price | cents before noon in sympathy with July.
