

NO ADVANCE IN GRAIN RATES

Omaha Lines Do Not Intend to Follow Kansas City's Lead.

BUMPER CROP WILL NOT BUMP PRICES

Kansas City Roads Announce Higher Tariff to Chicago and Mississippi River Points Beginning This Month.

Notwithstanding the announcement from Kansas City that grain rates from that point to Mississippi river points and Chicago will be advanced in view of the bumper crops this year, Omaha freight officials say the normal rates out of this city will undergo no changes, this, too, in spite of the enormous harvest in Nebraska and tributary sections. The advances at Kansas City will become effective August 15. Wheat rates will go up to 12 on wheat and 11 cents on other grain to Chicago, 7 cents on wheat and 6 on other grain to the Mississippi river and 15 cents on wheat and 14 on other grain to the Gulf ports. The present rates are 7 cents on both wheat and corn to Chicago, 6 cents to the Mississippi and 12 cents to the Gulf.

Rate for Music Festival. The Omaha terminal lines have announced, as a result of their meeting Thursday, a one and one-third fare for the round trip to and from Omaha during the musical festival of August and September, this rate to apply on all roads within a radius of seventy-five miles. Tickets are to be sold on Wednesdays and Saturdays and limited for the return to the following day. While this action is inoperative as far as the Omaha lines are concerned, its confirmation rests with the Western Passenger association, before which all such matters finally go. The local men have recommended favorable action, which no doubt will be taken by the association.

Something New in the Balloon Line at Krug Park.

A rare and startling balloon ascension is on the Sunday program at Krug park. Prof. J. W. Hall and H. Hall both ascend on a single hot-air bag 94 feet high—the largest balloon ever sent up in this city and the first ascension of the kind ever made here.

Dance Tonight.

CAUGHT HIM ON SHELL GAME

John Westberg Bounced Again by a Hogs Mason in Search of Assistance.

"Our Frank Shell is at home, yours is a fraud," read a telegram in picturesque lack of punctuation received by City Comptroller Westberg. It is from George E. Flowers, master of Floyd lodge, A. F. and M. C., of Alton, Ill., and was in reply to an inquiry sent out Thursday as to the standing of one Frank Shell, who, claiming to be a Mason in distress, had applied to Mr. Westberg for aid. The moment he read it he knew he had been taken in on a shell game. The hogs shell presented himself at the comptroller's office Thursday and told how he had been employed as a boiler maker at Rawlins, Wyo., but had been thrown out of work as a result of the strike being settled, how his wife had been killed three weeks ago in a railroad accident and how he was left with two little boys on his hands. He added that he was a member of Floyd lodge, No. 537, Alton, Ill., and of Medina shrine, St. Bernard commandry, No. 25, Chicago. The story cost Mr. Westberg \$2 and a promise of \$10 more.

"The statement about his being a non-union man was where the stroke of genius came in," said the comptroller, "as it seemed to me that no man who was telling a lie would make himself out a 'scab' when he could just as well be in good standing in his union."

A WELL KNOWN ALBANY MAN

Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy. About eighteen months ago Mr. W. S. Manning of Albany, N. Y., widely known in trade circles as the representative of the Albany Chemical Co., was suffering from a protracted attack of diarrhoea. After trying Chamberlain's Colic, Cholera and Diarrhoea Remedy," he says, "and obtained immediate relief. I cheerfully recommend this medicine to those similarly afflicted."

LAW PRACTICE IN PORTO RICO

American and Spanish Systems Both Prevail in Island for Time.

B. J. Horton is visiting his brother, B. E. Horton in this city. Mr. Horton is now located in Porto Rico, where he is practicing law before the federal courts. "We have two systems of law in operation in Porto Rico at this time," said he. "The federal courts, the judges appointed by the president of the United States, have original jurisdiction in cases involving \$1,000 or more. In these courts the common law practice prevails and many of the statutes of the United States are applicable. The legislature of the island has recently enacted a number of new laws and modified to a certain extent the laws and precedents established during the days of Spanish dominion, but we have the experience of all causes involving less than \$1,000 tried by courts where Spanish law and precedent is supreme. Few American lawyers practice before the local courts, and the work of changing the present condition will be slow. "Porto Rico is constantly improving under the dominion of the United States. The ordinary citizen is well enough satisfied, but many of the prominent families who held office under Spain are not very well satisfied with having their graft broken."

OXNARD ON RECIPROCIITY

Head of American Beet Sugar Company Says He is Opposed to the Policy. Henry T. Oxnard was the guest of General Manderson yesterday while passing through the city. "I have nothing to say to the public specially at this time, but you may say for me that I am unalterably opposed to this idea of reciprocity. It simply means free trade under another name. There are some strong institutions in this country which have a system of protection grown to such proportions that they cannot only manufacture all of the goods in their lines that the country needs, but in order to obtain the most satisfactory results for their owners must reach into foreign markets. They are willing to sacrifice the smaller interests to gain a market. The beneficiaries of the protective system for years have been willing to have the system annulled for their benefit and admit to this country free everything which they do not manufacture in order to gain a market abroad. "The beet sugar industry in the west has never been in better shape than it is today. There are many farmers who are beginning to see the benefits which will accrue to them, while others have long ago derived benefit from the location of the factories. "There is no truth in the rumor that the American Sugar Refining company has secured stock in the American Beet Sugar company. So far as I know none of the stock in the latter company is held by holders of the other stock. Really, however, I have nothing to say except to emphasize my objection to reciprocity."

LAKE OKOBOJI

The delegates to the convention of the Association of the Railway Mail Clerks of the Sixth division have returned from Chicago, where the convention was held. Omaha failed to land any of the officers of the division, the "Chicago push" being lined up against them at every point. G. H. Worley, Omaha's candidate for delegate, was made first alternate to the national convention at Buffalo, but he was the only Omaha man to get on the list. The Omaha branch of the association, with a number of visitors from the Lincoln branch, will hold a picnic Saturday at Courtland beach, at which the usual games and races will be held. CHAUFFEURS UP IN PROTEST

Will Petition Park Board to Modify Its Rules Governing the Chug-Chug Carts.

The Automobile club of Omaha, D. Risley, president, is preparing to petition the Board of Park Commissioners to rescind its order under which motor vehicles are excluded from the boulevards. The matter will be taken up at the next meeting of the club and a committee will be appointed to confer with the board. "I think the rule is unjust," said President Risley. "The club does not care so much for being excluded from the parks, but we believe that we ought to be permitted to use the boulevards, since they are about the only thoroughfares of the city that are suitable for automobiling. It is absurd to say that horses are afraid of automobiles; they are not, since they are accustomed to trolley cars. The only horses that are afraid of automobiles are horses from the country, and if we are going to make our laws to accommodate them we'll have to exclude street cars from the streets and build sheds for the steam car tracks. "We have tried hard to avoid accidents of whatever kind, and thus far we have succeeded. I don't think the park board wants to discourage automobiling in Omaha, but this will be the effect of this rule if it is allowed to stand." City Comptroller Westberg has an ordinance prescribing a set of rules for chauffeurs and placing the maximum speed at twelve miles an hour, which he will report to the city council next Tuesday evening. This ordinance has received the endorsement of the Automobile club of Omaha. Card of Thanks. We desire to thank the friends and neighbors for the kindness and sympathy shown us in our late bereavement. MR. AND MRS. SAM CROWLEY. Bargain sales on page 7.
