Governor and General Culby Decide to Send Two Regiments to Loavenworth.

REPORT ON THE MILLARD RIFLES CASE

Court of Inquiry Recommends Discharge of the Company but General Colby to Likely to Attempt Reorganization.

(From a Staff Correspondent.)
LINCOLN, Ang. 4.—(Special.)—After conforring with Governor Sayage and receiving his favorable decision Adjutant eral Colby today forwarded to Adjutant General Corbin at Washington an official scooptance of the invitation to have the Nebraska National Guard go into encampment at Fort Riley, Kan., sometime during the month of September. Contrary to the general impression all expenses of the obilisation must be borne by the state. The principal items are transportation, sub-

elstence and per diem of officers and men-"I talked this matter over with the governor and was agreed that it would be a valuable thing for the guard to be stationed for a short period with the regular army troops," said General Colby. "We both looked with faver on the joyitation and I Bome of the numbers of the Omaha convention.

Some of the numbers of the Omaha convention. have written to General Corbin accepting it. The two regiments will be ordered out, probably the last week in September."

there is between \$3,000 and \$5,000 to the credit of the military department that can be used to partially pay for the proposed camp at Fort Riley. All additional expenses will go to make up a deficiency bill to be under the direction of W. E. M. Hatklepresented to the next legislature.

General Colby said this afternoon he did

not know how long the troops would be 30,000 and it is conservatively estimated that one of ten days in Fort Riley will cost about as much. Last year the per diem of officers and men amounted to about \$15,000, the subsistence to \$5,000 and the transportation \$4,000.

The order of the adjutant general will include only the two regularly organized regiments. The independent companies, the artillery, the cavalry and the signal and engineering corps are expected. The sta-tions of the companies included in the two regiments are: First regiment, York, Ful-lerton, Beatrice, Weeping Water, Wilber, Madison, Geneva, Nelson, Waboo, Colum-bus, Omaha, Broken Bow; Second regiment, Rearney, St. Paul, Nebraska City, Fairbury, Tekamab, Lincoln, Omaha, Aurora, Tecumsch, Schuyler, Norfolk and Albion. The First regiment has an aggregate membership of 697 and the Second regiment 724. Report on Millard Rifles.

The military court of inquiry, appointed Colby to investigate charges preferred against officers and members of the Millard Riffes of Omiha, has presented an unsulmous report recommending that the entire com-

CUARD IS TO GO INTO CAMP as possible for the national convention in FIGHT FOR GULF TRAFFIC DO YOU GET UP

Southern Pacific.

ROCK ISLAND WILL BID FOR THE TRADE

Scheme to Enter Galveston and Strengthen that and Other Southern Ports Involves Several Interests.

NEW YORK, Aug. 4.—(Special Telegrams.)

On August 1 the Southern Pacific began
to operate a service to Galveston in addition to the existing service from New York Island; Corresponding Secretary W. A. to New Orleans. The service, says a South-Baldwin, Ulyases; Treasurer C. S. Paine, ern Pacific official, will consist of the Morgan and Cromwell lines merged into one corporation under one management and with one head office, although full details are not yet ready for publication. Both these lines have been under the domination of the Southern Pacific for some time and the purpose to be served by their consolida tion is that they may be operated with economy and with perfect harmony as the New York-New Orleans link in the Harriman transcontinental route. This is an official statement on the somewhat widely rumored change in the sallings of the ves-

sels of these lines. A Rock Island official states that the Rock Island is going to make a bid for the trade through gulf ports when the system is completed and that recent moves on the part of Southern Pacific result from knowledge of the fact and preparation to me-

Importance of Such Control. The paramount importance of gulf traffic entrol to the Harriman interests will be inderstood, when the statement can be control of the ordinary freight tariff on transcontinental business. It costs as much SEARCH FOR AN INSANE MAN to carry a ton of freight one mile by rail this fact before us it may be stated that on a mileage cost basis Mr. Harriman operates a Breight service across the continent 500 miles shorter than any other. This does not apply to passenger traffic, express, pershable or rush freight, because, of course, the trunk lines from New York control these by the fact that they are much faster. Nor is this freight control the only reason Harriman is strengthening his resources along the guif. Rock Island is coming into

Galveston, International & Great Northern into New Orleans, Atchison, Topeka & Santa Fe into one or other in time and 'Frisco has lately made it very clear that a gulf port is among the things it is going to obtain before many years are past. Therefore it behooves Southern Pacific to take care of resources. The tremendous increase of the percentage of the grain from the middle west which has gone through gulf ports of late years is the prime cause of the anxiety of all these roads to get a foothold on the gulf.

Southern Pacific's Big Scheme. Southern Pacific has plans to spend FREMONT, Nob., Aug. 4.—(Special.)— \$1,500,000 in Galveston. The reasons for this Agitation against Sunday base ball has be-plan are stated by a Southern Pacific official in close touch with Mr. Harriman to be

Alleged Marderer in the Tolle. The first and most important is that windows. Nor there is much greater possibility in the furthere are had to the lines running into are destroyed. New Orleans and bandle traffic satisfacto rily for a few years at least, but Southern Pacific can only increase its, strength in which it cannot go, while by taking time by the forelock in Galveston it secures a port in which it will be possible to expand and increase facilities, no matter how

> Harriman Anticipates Rivals. The second reason that Galveston was favored is that Mr. Harriman desired to anticipate the establishment of a rival shipping point at Galveston by other lines Atchison, Rock Island and possibly 'Frisco. Two of these at least are alming at the establishment of steamship services from 'Frisco, according to its officials, certainly will get a gulf port, but indications are that it will be New Orleans rather than any port further west. At any rate, when other lines come to Galveston they will find Southern Pacific ready to fight for the guif traffic, with a strong line of modern steamers, a well-liked and fully estab-lished land line and all the facilities that are needed for terminal and other pur-pones. It is apparent from the remarks of Southern Pacific people that the close relations recently entablished between the Rock Island and the Mallory line are not egarded without some anxiety in Southern
