

Judged by Last Record.

Two or three times every year we buy space in this paper to tell you of Genuine Money Saving Opportunities. On Wednesday, August 6th, the doors will open at eight o'clock, and at that hour we will commence a Cleaning Up Sale of Summer Merchandise—and our word for it—you will be disappointed if you don't attend.

First on the list is Undergarments.

WE SELL ONLY THE GOOD KIND—Made only from best materials—the work of only sanitary workshops, equipped with the most modern machinery. We make mention of only a few items to give you a slight idea what to expect.

FIRST ON THE LIST—Gowns made from good muslin, four hemstitched tucks, usually 50 cents, on Wednesday morning at 3 o'clock, 35 cents.

SECOND LOT—Contains gowns made from cambric and muslin—square neck, trimmed lace insertion and edge, some V neck with tucking, usually \$1, on Wednesday at 8 o'clock, 55 cents.

THIRD LOT—Made from fine cambric, trimmed with lace insertion and edge, square and V neck, some low and with elbow sleeves; a hot weather gown; never less than \$1; six styles to select from Wednesday at 75 cents.

FOURTH LOT—Made from blue nainsook, square neck, ribbon finished, short sleeves, bishop gown, several styles, low neck, elbow sleeves, some trimmed with embroidery and insertion; \$1.50 is the usual price asked for these; on Wednesday they go at 95 cents.

At the same price another bishop gown made from sheer long cloth, nicely trimmed, the brand known as "Home made," and well named. A better gown, same brand, which sold at \$1.75 and \$1, on Wednesday will sell at \$1.25. And then a mixed lot of gowns sold by us at \$1.75 and as high as \$2.50, will go on Wednesday at \$1.50.

THOMAS KILPATRICK & CO.

REJECT ALL BUILDING BIDS

Contractors Want Too Much for Completing Penitentiary Structures.

IRRIGATION EXPERT AHEAD OF TIME

Pure Food Commission Issues More Permits Under Provisions of the Pure Food Law.

(From a Staff Correspondent.)

LINCOLN, Aug. 5.—(Special.)—All bids for additional construction and repair work at the state penitentiary were rejected by the Board of Public Lands and Buildings this afternoon. The figures quoted being regarded as too high, especially in view of the fact that there are no funds available for the purpose. The offers of the contractors ranged from \$25,000 to \$50,000.

"We have abandoned the plan of finishing the buildings this year," said Land Commissioner Folmer. "We agreed that the expense was too great under the circumstances and therefore decided to take no further steps in the matter. The administration building, now in course of construction and the west addition, will be put in the best possible condition with the money at hand and the next legislature will have to do the rest."

Mr. Folmer said there was not enough money left in the construction fund with which to finish the construction. His walls can be completed and the structure properly enclosed, but the interior will necessarily be neglected. The cell building will be fitted up with a new roof and probably be used to house a small number of convicts, but the other building cannot be accepted for any purpose.

The Board of Public Lands and Buildings agreed several weeks ago that it would be to get a better finish to the construction, whatever might be the cost. This decision was severely criticized, owing to the fact that there are no funds available for the additional work and today the board was unanimous in its reconsideration.

Head in Ahead of Time.

Elwood Mead, chief of irrigation investigations for the United States Department of Agriculture, who is on a tour through the west for the purpose of discussing irrigation matters with interested persons, arrived in Lincoln tonight, two days earlier than he was expected. Mr. Mead wrote from Washington a week ago that he would be in Lincoln on Thursday of this week and a meeting of the State Board of Irrigation, Senator Dietrich and others were arranged to take place on that day. State Engineer Dobson has before him several Mead documents, containing the report of the Farmers' Canal company and Robert Walker to appropriate water for irrigation under a claim allowed several years ago. The protest is filed by William Franks of Grand Island. The Farmers' Canal company proposed to construct a ditch sixty-one miles in length, extending from a point on the North Platte, near the state line, through the counties of Scotts Bluff and Cheyenne. The company constructed and is now operating twenty-one miles of the canal. Franks contends that because of its failure to complete the ditch

it has forfeited its right and he demands that he be given the same privilege. The contesting parties will be given a hearing before the State Board of Irrigation.

The total expense of the last annual encampment of the Nebraska National Guard was \$20,550. Of this amount \$15,550 was for the per diem of officers and men and for miscellaneous expenses. There is still a claim for \$150 unpaid, but the total officials existing from the encampment was over \$20,000. The last of the transportation bills were paid off a few days ago.

Raise in Teachers' Wages.

Probably at the next meeting of the Board of Education all the regular grade teachers of the public schools whose salaries last year were \$25 to \$50.75 per month, will be made happy by a raise.

Five dollars is likely to be added to the old figures. Mr. Sellock of the teachers' committee brought up the proposition at the meeting of the board, which was approved. Many of the members were in favor of it.

Deputy Food Commissioner Hassett has issued permits under the pure food law to the following: Oscar Rosser, Grand Island, creamery; J. Williams & Co., Omaha, wholesale butter and cheese; Fremont Creamery company, Fremont, ladies butter; Bosworth Produce company, Beatrice, ladies butter; Beatrice Creamery, Lincoln, process butter, creamery; J. G. Baschmidt, Omaha, creamery; E. McBride, Blue Hill, creamery; William Bechtler, Pierce, creamery; Lyons Creamery company, Lyons, creamery; Schuyler Creamery company, Schuyler, creamery; J. G. Baschmidt, Aurora, creamery; J. G. Baschmidt, Osgo, creamery; Minton Creamery company, Minton, creamery; Isaac Pollard, Nehalem, creamery and older vintage; Mead Creamery company, Central City, creamery; J. Kanari, Omaha, initiation butter.

New Corporations.

Articles of incorporation of these institutions have been filed in the secretary of state's office: The Falls City Land and Cattle company, Falls City; capital stock, \$15,000; incorporators, Ezra E. Metta, M. J. Schabell, Norman Moselman.

The Farmers' Grain association, Debediet, York county; capital stock, \$10,000; incorporators, D. W. Baker, Robert Lytle, A. A. Lang, Arthur M. Robson, L. M. Sigwell.

Governor Savage has appointed these delegates to represent Nebraska at the annual congress of the National Prison association, which will be held at Philadelphia September 13 to 17: Warden R. D. Davis, Chief of Police Hoagland, John Davis, Lincoln; Dr. J. V. Beghtol, Kearney; Dr. A. Johnson, Beatrice; Margaret Kenly, Milford; John Power, Omaha; Rev. J. W. Clark, Omaha; Horace M. Clark, Geneva.

Hans Larsen of Syracuse was appointed additional delegate to the Transmississippi Commercial congress, which will be held in St. Paul, August 10 to 25. Prohibitionists will meet in state convention next Thursday morning at 10 o'clock at the Auditorium.

TO CAMP AT BEATRICE

Six Companies of National Guard Will Pitch Tents at Southernmost Nebraska Reunion.

BEATRICE, Neb., Aug. 5.—(Special Telegram.)—Adjutant General Coffey today issued an order for the encampment of six companies of the National Guard at the southernmost Nebraska district reunion, which opens here next week.

Farmers Ignore Threshers' Trust.

PLATTSMOUTH, Neb., Aug. 5.—(Special.)—Those who own and operate threshing machines in Cass county formed what is known as the Threshers' trust and raised the price of threshing. The farmers refused to pay the increased price asked. Fifteen farmers united and purchased a large steam threshing machine. Andrew Maxwell, son of the late Judge Maxwell, fired up the engine and took the machine to the county today, where they will commence work with it at once.

Good Wheat Yield in Cass County.

BEATRICE, Neb., Aug. 5.—(Special.)—Fernando Hayle, living in Midland township, finished threshing a field of 110 acres of wheat yesterday. The yield of thirty bushels to the acre. A number of other farmers living near Mr. Hayle have threshed and in each instance the yield has been more and the quality better than was expected. From present indications Cass county will have the biggest and best crop of wheat and corn ever grown.

Satisfies Chautauque Delegates.

TECUMSEH, Neb., Aug. 5.—(Special.)—With the financial aid of the concert which

Skirts Next.

Made from muslin, hemstitched, 5 rows of tucking and dust ruffle, good and wide, usually \$1, and a bargain at 75 cents, will go on Wednesday at 55 cents.

Number 2 is a skirt made with deep double flounce, dust ruffle, very wide skirt, cambric top, a good seller at \$1, on Wednesday 75 cents.

Next lot of skirts, made from sheer lawn, deep hemstitch, tucked ruffle and dust ruffle, also with embroidered flounce and tucking, usually sold up to \$1.50, on Wednesday in the morning 95 cents.

MORE SKIRTS—Made with deep flounce, fine tucks, and some trimmed with lace for edge, sold usually at \$2, on Wednesday will go at \$1.15. Another lot, made from fine lawn, cambric top, two rows of insertion, deep lace flounce and a cluster of tucks, quite showy, value at \$2.75, Wednesday will go quickly at \$1.95. And to cap the skirt in climate we have gathered together skirts that sold from \$2.50 to \$7.50, elaborately trimmed with lace and fine Swiss embroidery; these will go on Wednesday at \$3.85.

Now Corset Covers.

Lace and embroidery trimmed, several styles, sold up to 25 cents, on Wednesday will be sold at 15 cents.

Another lot, which sold up to 65 cents, will go rapidly at 35 cents.

Some very special values will be offered in children's dresses and bonnets.

Corsets.

Made from net, several makes, our usual leader at 25 cents, on Wednesday 20 cents.

The C. B. Corset—made from gingham, pink, blue, lavender, black and white, everywhere \$1.00 on Wednesday 60c each. Other Net Corsets—such as P. D. and J. H.—regularly \$1.50 on Wednesday 85c each. And now a few items in

Ladies' Knit Underwear.

Just an inkling of bargains to be found by you in this section.

Ladies' Richelieu Ribbed Bleached Vests on Wednesday 75c each.

No. 1 is made from fine chalk white yarn, full taped, on Wednesday 15c each.

And an excellent fine 2 1/2 yds. full lace trimmed vest or pants at 15c each.

Five different numbers of pure linen fancy weave vests, in white, sky blue or pink, cheap at \$1.00 on Wednesday 50c each. Our 50c fine blue rib and mercerized yarn vests will go at 35c.

And Make Special Note

We are holding a sale on blankets in the basement. Coal men say the wise will buy their coal now. We say the same about blankets.

Go to the Silk Dept.

And look at the gathering of fancy silks, foulard silks and other silks—worth up to \$1.50—now on sale at 50c. A little looking will discover other silk bargains of great merit—the poorest, for instance.

When you enter the store

Go to first counter on the right—a sale of umbrellas, in fine raincoat, raincoat, raincoat, formerly sold up to \$1.00 on Wednesday 50c per yard.

Another lot, wider and better, edgings, Swiss, nainsook and cambric, broken sets, were \$1.00 on Wednesday 50c per yard.

Finest linen and cambric embroidered, in matched sets—half the former prices on Wednesday.

Hundreds of other bargains which we cannot mention now.

Remember, Wednesday morning, August 6th. Sale commences at 8 sharp.

PLATTSMOUTH AGAIN VISITED

Swept by Severe Rain and Windstorm, but Combined Efforts of Citizens Avert Great Damage.

PLATTSMOUTH, Neb., Aug. 5.—(Special.)—A severe storm formed near this city last evening. The wind blew a gale, and the rain came down in torrents, accompanied by a sharp electrical disturbance.

The water rushed down the avenue from the northwest and southwest to Sixth street and the sewers became clogged with debris.

The fire bell was rung to call the citizens to remove the rubbish from the sewers and assist in saving property, as it was feared that another flood, similar to the three that have visited Plattsmouth within the last four years, was imminent.

By the heroic efforts of the citizens last night the water did not do as much damage as previously, although the basement of the Waterman block was filled with water and mud and much damage done in the Burlington machine shop.

Reports from the country are to the effect that outhouses, windmills and trees were blown down and buildings unroofed.

To Name Harvard Superintendent.

HARVARD, Neb., Aug. 5.—(Special.)—Prof. W. B. Backus, for several years the superintendent of Harvard public schools, having resigned his position the Board of Education expects to hold a meeting for the election of his successor August 11. The salary paid is \$1,000 a year and the secretary of the board, J. F. Miller, would be pleased to receive any applications of any kind he is competent for the position.

Butcher and Woman Have Bout.

BELLEVUE, Neb., Aug. 5.—(Special.)—Last night, while trying to quiet Bert Alton George Hugh, a butcher, was assaulted by Alton's mother, who knocked him down with a club and attempted to dissect him with a butcher knife. George retaliated by two or three blows with his fist, which colored the woman's eye. Friends intervened before any serious damage was done.

Burwell Revivifies Cleave.

BURWELL, Neb., Aug. 5.—(Special.)—Rev. Charles W. Burwell of the Peoples' church, Omaha, just finished the week-end revival meeting at this place. Several were added to the church and much good was done. The meetings were held in the Methodist Episcopal church and Rev. Burwell was assisted by Rev. H. Miles of the local Methodist Episcopal church.

Folk County Fair at Osceola.

OSCEOLA, Neb., Aug. 5.—(Special.)—C. D. Stoner, secretary of the Folk County Agricultural society, is endeavoring to make the coming fair the best that the county has ever had. Concessions are going fast. The people are sure to be entertained each four days of the fair with all sorts of amusements.

Contract for Republican Bridge.

McCOON, Neb., Aug. 5.—(Special Telegram.)—The commissioners of Red Willow county, today contracted with H. T. Ward and company of Tecumseh, Neb., to build a bridge over the Republican river at Red Willow and to repair the bridge at Indianola. Contract price, \$1,500.

Workman Injured by Fall.

BEATRICE, Neb., Aug. 5.—(Special Telegram.)—While working on the Burlington bridge south of town today, Henry Ogen fell fifteen feet and received bruises about the head and body. His injuries are not fatal.

Boone Institute Closes.

ALBION, Neb., Aug. 5.—(Special.)—The most successful institute ever held in Boone county closed Saturday, August 2, at 10 o'clock. The instructors were J. W. Seaton, W. L. Stephens and Det. Allen.

State Campmeeting of Salvationists.

BEATRICE, Neb., Aug. 5.—(Special.)—The state campmeeting of the Salvation army will be held on the chautauque grounds, this city, August 12 to September 1.

NEBRASKA CROP CONDITIONS

Rapid Progress Being Made in Stacking and Threshing Small Grain.

CORN MAKES PROGRESS DURING WEEK

Harvesting Heavily and Promises a bumper Crop—Only Small Section of the State in Need of Rain.

Weekly bulletin of the Nebraska section of the climate and crop service of the weather bureau for the week ending August 4:

The last week was warm and dry. The daily mean temperature has averaged 3 degrees above normal in the eastern counties and 5 degrees above in western.

The rainfall has generally been light, although a few heavy local showers have occurred. In the small area covered by these showers the rainfall ranged from one to more than two inches, but over most of the state it was less than half an inch.

The last week has been the most favorable one of the season for stacking, threshing and haying; except in the small areas where heavy showers occurred rapid progress was made with this work. Oats are cut in the southern portion of the state and the harvest is well advanced in the northern portion; the crop is generally good and in some places a very large yield is reported. Threshing of winter wheat is progressing slowly; the yields are quite uniformly large, but the quality was damaged by the rains during harvest time. Corn generally has been threshed to good advantage; the crop is generally good and in some places a very large yield is reported. Threshing of winter wheat is progressing slowly; the yields are quite uniformly large, but the quality was damaged by the rains during harvest time. Corn generally has been threshed to good advantage; the crop is generally good and in some places a very large yield is reported.
