Batteries: Denver McClosky and Wilson; St. Joseph, Parvin and Roth. Second game:

With Plenty of Birds the Prospect HIOUX FALLS, S. D., Aug. 19.—(Special.)
—Entries for the annual meet of the South Dakots Field Trial association, which will be held on grounds near Saiem on August M. 27 and TS, were closed today. Dogs from a score or more of states and from points in Canada have been entered, making it cartain that this year's meet will be the most successful as well as the most interesting in the history of the association.
The grounds where the trials will be held cannot be excelled anywhere in the United States. They were selected after a careful personal inspection by Dr. G. T. Page, E. H. Gregory and T. B. McMartin of this city and E. H. Smith, W. E. Hannah, W. M. Parenhart and Dr. Dott of Salem, all of whom are taking a deep interest in the success of the coming trials. Prairie chickens and quall are very plentiful on the tital grounds, which are being systematically patrolled to prevent the birds being killed, scattered or driven away.
Hon. Thomas Johnson of Winnipeg, who acted as judge of last year's trials and who give excellent satisfaction, has been secured to act in a similar capacity this year. There will be three trials, the Derby, the all-age and the subscription stakes. The first two are open only to American dogs, while the third is open to both American and Canadian dogs. The Derby prize is 200 and the all-age 5400, while the subscription atakes has not yet been amounced. Carter and Ryan to Fight. BUFFALO, N. Y., Aug. 10.—The Interna-mal Athletic club has signed Kid Carter d Tommy Ryan for a twenty-round con-st, the bout to take place September II. is fighters have posted \$2,500 to guar-tice their appearance and the club has sted a like amount to guarantee that the sted will not be stopped. The winner the bout gets 75 per cent of the purse. Conclusions Drawn from a Year's Here is an article from Justica, a weekly paper published at Manila, which may be nteresting to our young people-and to some of the older ones: We have for a year been frying to make out of what courting by the Filipines consists, and are yet not sure that we know much about it. We have seen some of it going on from the streets and the windows of our neighbors. The other evening, from 9 to 10, a dusky maiden leaned from the upstairs window and talked with a man of probably 28 rears. We do not know how much love they talked, but the chances are not much. These people are not much given to flattery or love-making, at least so far as outward appearance goes.

A young man and a young woman never The girls are not backward about talking to anyone in the presence of their family or friends. And they can talk, too-about verything they know about.

Fast Game at Blate. The South Side Sluggers defeated the Shagarcots Sunday by a score of 11 to 3. The feature of the game was the battery work of Snyder and Browne, Snyder having the Shagarcots shut out until the eighth inning, having eight strikeouts. The support of the team was superb. Lynch hit for a home run, but forgot to touch title base and had to go back. The Sluggers go to Slair next Sunday to play a double-header. Rifles Against Colts. MANY DOGS FOR FIELD TRIALS

BLAIR, Neb., Aug. 10.—(Special Telegram.)—The Blair Clothing company team won over the Hanscom Park team of Onishis today by a score of 3 to 1 As to time the game was a record breaker, being played in sixty-six minutes. Batteries: Hanscom Park, Ritchie and Bowes; Elair Clothing Company, Noyes and Inman. Strick out: By Noyes, 13; by Ritchie, 8. Umplie: Epiling.

both the postmaster and his deputy un-bosomed himself yesterday to the extent of giving away some secrets which the reer-Savage combine did not want known at this time. "It appears that Mercer has pr Etter a reappointment se postmaster," said this politician, "with the understanding that Etter would bring his influence to bear to secure the solid delegation from that Etter would bring his influence to bear to secure the solid delegation from South Omaha for the congressman, who has been at the public crib for many years. More than this, Etter was promised by Mercer that he would be responsted postmaster whether the latter was elected or not. So Etter takes it all in and has his CAULIFLOWER—Home grown, per doz., 15690. office decorated with an oil painting and a shromo or two of Mercer and starts to work to secure a safe hold on his present job for a term of four years more. "Mercer, however, showed his scheming when he sent Van Dusen to Mosely and promised him the postoffice if he would turn his friends in to work for the renomination and the re-election of the present congressman from this district. Mosely bit like a trout and he turned out and hustled for his 'Uncle Dave' to beat the band. It was only when fitter found that Mosely was encroaching on his preserves | 1b. that he 'suggested' that he better resign and devote his entire time to elecseering for the office of postmaster. All this talk about there being a friendly feeling between Etter and Mosely is all bosh. It has been common street talk for the last year or more that the two did not speak mless official business demanded. In fact,

Mosely has been compelled to ask some of his friends to keep away from the post-office because Etter was jealous of the in-fluence of Mosely's friends, who are and have been members of the Young Men's Republican club. "As for Captain Etter asserting that he has never been an applicant for postmaster, the facts to the contrary can be proven. Senator Millard had not been in office a nonth before Etter sent him a letter ansouncing his candidacy for reappointment and requesting the services of the senator in his behalf. This fight for the postoffice between Etter and Mosely has turned the tide against Mercer here and the chances are that all of the fences built by Tom Dischburn while Mercer was hanging around eastern seaside resorts will be torn down and the undivided support of the South Omaha republicans given to come good man who has not been mixed up with such deals as Mercer has been re-

cently." The question of disposing of garbage has practically been satiled by the city offi-cials. Arrangements have been made by Mayor Koutsky for the opening of the Twelfth atreet road to the river. In company with the city engineer and members of the street and alley committee the mayor made an inspection of the road Friday and ordered certain work done which will permit the passage of teams to the river bank.

When talking about the work to be done he mayor said yesterday that with the expenditure of about \$50 the read could be fixed so that teams hauling garbage could get to the river without difficulty. It ap-pears that the last raise of the river threw the channel over to the Nebraska side and washed away the big sandbar that has prevented the dumping of the garbage in the river for some mouths past. Theer has been considerable complaint lately about the inability of garbage haul-

ers to handle garbage and for this reason cany back yards have gone uncleaned. With the fixing of the road there will be no ex-cuse for the refusal of property owners to comply with the rules of the health departent, which will now be enforced. In adition to the Missouri avenue route the city oposes to open O street and then there will be two roads to the river and no excuse can be offered about the negligence of ity officials in providing suitable roads for the hauling of garbage. Dunn's Store Robbed.

Bourse Aspect Unchanged.

Bourse Aspect Unchanged.

HERLIN, Aug. 19.—The aspect of the bourse last week showed practically no change. While the week began with a better tone in iron and coal shares, a reaction followed and most of the quotations lost all of their previous gain. Many shares closed lower than they did August 2. Reports of the iron market continue to be contradictory. The annual balance sheet of the Hoesch company, issued yesterday, passing a dividend, as against a dividend of 10 per cent paid in 1901, has made a bad impression. While the latest news of the coal market indicates a more active movement in coal shares. Prussia's coal production has declined. The production for the last six months was 47.594,565 tons. 3 decrease of 2,825, 815 tons. It was announced yesterday that the Hamburg-American Steam Packet company had refused to renew its coal contracts with the syndicate. The company will draw its coal supply from Sitesia by river and canal. With the exception of electrical shares, which broke several points, general industrials were quiet, but fairly firm, last week. Government 3 per cents were fractionally lower upon realization sales and owing to high foreign exchange and apprahension of gold exports. The best authorities, however, now regard the danger of gold exports to have been removed, although small amounts of gold were sent to southeastern Europe during the week. As fac of xxchange and the approach of the autumn demands make discounters more reserved, but the abundance of money remains unchanged. Call money was offered beyond the dermand last week at 1½ per cent. Chinese were the strongest among the foreign rentes, while Turks, Roumanians, Austrians and Hungarishs were active. The American market attracted little attention during the week at 1½ per cent. Chinese were the strongest among the foreign rentes, while Turks, Roumanians, Austrians and Hungarishs were active. The American market attracted little attention during the week and Canaddan Pacifics were wholly dependent upon the movement in New York.

Business Light on Stock Exchange. LONDON, Aug. 10.—The payment of a 20 per cent installment on the consol loan last week forced a considerable selling of consols at lower prices, but the apprehensions of a shortage in money were fairly dispelled by large government dispuraments, and as there are no formidable demands or, the market, credit may be expected this coming week and money is likely to continue easy. Last week the tone of stocks was erratio, but it concluded cheerful. Two holidays within the week caused light business. American railroads hares rose n New York buying and further increases are anticipated. British railroads fell in sympathy with consols and dividends are not expected to more than maintain last year's figures. Labor difficulties continue to contribute to the weakness of South African shares.
