MILTON EDWARDS LOCATED IN DENVER

Tells Why He Left Chicago and Later Quit Omaha-Other Beomer is in Toledo.

CHICAGO, Aug. 11.—Developments today in the mysterious murders of Minute Mitch-ell and Mrs. Aunte Bartholia led the police to double their efforts to locate William J. Bartholin, repectively flance and son of the two women. At the inquest over the body of the older women, which was found Saturday night crammed into a hole in the cement floor of the Bartholin home, neighbors readily identified the gorpee as that of Mrs. Bartholin. The burish today of Minnie Mitchell by her family removed all doubt in the public mind that the body found in the field at Seventy-Sourth and State streets Wednesday was that of the young woman who was last seen with Bartholin. Complete hearing over Mrs. Bartholin's body was postponed by the coroner until August 21 in the hope that foral clues to the murder may be ob-

Latest Developments in Case. Late developments today indicated that Bartholin may have made a careful survey of the field where Minnie Mitchell's body The situation here is far more serious than anyone imagines. There are fine openings in South Africa for energetic and up-to-date manufacturers, but trade is hampered by trusts and combines, which threaten to cripple the development of the country."

The commissioners propose to make strong representations to British manufacturers concerning the workings of shipping, last he saw of him was when he boarded a Racine on the afternoon of Thursday, Aunorthbound State street car. It is sup-posed that the murder of Minnie Mitchell took place the same night. Bartholin's presence at the field where the body was found later gives color to the theory that the murder was planned fo cold blood.

The police are using all their ingenuity to force Oscar Thompson, Mrs. Bartholin's principal roomer, to give additional information about the crime or crimes committed in the Calumot avenue death house. They have been working on the theory made to prove this theory. The borse is but the local police are exerting every to be started south and left to its own instincts, in hopes that it will stop at Seventy-fourth and State streets.

Found in Denver.

DENVER, Aug. 11.—Milton L. R. Edwards, who formerly roomed at the home of Mrs. Anna Bartholin in Chicago and for whem the police of that city have been coking in order to loarn what he may know concerning the murders of Mrs. Bartholin and Miss Minnie Mitchell, is new in Denver. He arrived here last night at Il o'clock over the Union Facific railroad and registered at the Beividere hotel under his correct name. To a representative of the Associated Press this morning he made the oliowing statement:

"The reason that you have been able to find me is that I wrote to Robert Mitchell, the brother of Minnie Mitchell, and told him why I had left Chicago so saiddenly. I related to him the fact that I had become suspicious of the actions of William Bar-thelin and decided that it would be used? for me to remain longer in Chicago. As seen as I read in an Omaha pager the story of the girl's murder I communicated with her brother, who was a personal friend of

"The reason I cent to Omaha was to se-cure employment. I had for some time been working in Chicago for the Chicago Junction Rallway company, which is con-nected with the Union stock yards. I was about to go on my vacation when the unto-ward actions of William Bartholin hastened

"I left the home of Mrs. Bartholin on the wisht of July 11. On August 1 I slept to a hotel downtown, fearing that my life was In jeopardy, and, as I remember it, left on August 2. On July 31 I had gone to a room not my own in order to get where it was sooler. About 2 or 3 o'clock in the mera-ing I was awakened by a window jumping on the window cit. This incident called my attention to the fact that the acress out a hand for help I would step had heen taken out, and on lighting the gas and making a further examination I discovered that the acress in that window was the only one missing. As the next day was pay day I was fearful all the rest of the night, and I are not fully convinced that had I slept there another night I should have been murdered in sold blood.

Bartholin's Buspicions Astions. "Mrs. Bartholin had not been at the house for perhaps lifteen days before I left. William Bartholis, contrary to his custom, was able to stayed about the house most of his time, for breakfast

and whenever I breached the subject of the welfare of his mother or her whereabouts be would immediately change the subject. of course, I had no specific grounds on it, I spoke to several of the neighbors of my suspicions. Among those friends was a Mr. Purd, who was an intimate friend of mine. Mr. Hunter, who was rooming at the house, also left and he went to Toledo. O. On that same night Mrs. Mitchell, the mother of the murdered girl, and her daughter-in-law, Mrs. Robert Mitchell, were callers at the house, and they wanted to know about William, who had not been seen for several days, and where Mrs. Bartholin was. At that time I told them of what I feared and advised them to get a detective on the trail of Bartholin. If I had known that the body of Mrs. Bartholin was then lying under the floor of the basement of the house I should certainly have informed

"I did not know Bartholin very well, because he was rather uncommunicative. He was, in fact, more repellant than anything ise, and, so far as I know, had no large following of friends. I know of no motive that could have prompted the commission of the crime

"I have made no effort to conceal my identity and I have uniformly, since I left Chicago, registered my correct name wherever I have stopped. If the police of Chicago desire my return. I am perfectly villing to go back.

"Since I have left Chicago I have been more or less ill, and this was one of the reasons why I left Oufsha. I am now in Denver for the purpose of securing employ-ment. Since I have heard of the denous-ment of the mystery I have suffered no litle from mental angulah.

> ON THE PHILIPPINE PROBLEM Hon, Charles Greavener of Ohio Addresses Thousands at Chaninuqua, New York,

CHAUTAUQUA, N. Y., Aug. 11 .- Hon Charles Grosvenor, representative of con-gress from Ohio, spoke before 9,000 people this afternoon upon the Philippine problem. After reviewing the conflict of views as to acquisition of territory from the founder of the government down to the present time,

the government down to the present time, he said:

I want to impress this, that the problems of our powers in the Philippines involve the very principles that we thought were settled in 180-that the constitution reached out from the state and covers each person in every land under the sovereignty of the United Etates. It's the same battle we have fought over again with the same decision. The problem, in the opinion of all intelligent people, is now eliminated from our politics.

When I was asked to come to Chaitauqua the alm was that I should present the problem from the view point of the administration, perhaps as opposed to that of Dr. Schurmann, and I expected my time to be occupied replying to his criticisms, reinforced as they were by better opportunities for observing the conditions in the archipelage than I have caloved. However, I am happy to say that while I have vited still in my position upon the question, that gentiaman has reached that view point where no word that he uttered on the platfetm fails of my most hearty endorsement. If he has over hap any idea execut have the government was to deal fairly and justly by its insular wards events have evidently brought to him a full appreciation of the high purposes of his country, and in this day, when all of us are feeling proud of the marvelous martial greatness of our country, we should as wall feel proud.

We should see proud and thankful that no act has been done by the administration with references to the Philippines that brings any discredit to our people.

In the declaration of war was inserted a few words which ought never to have been there and I both spoke and voted against them repeatedly. This declaration, known has the Teller resolution, declared that our purpose in the war was not aggrandinement and that we did not want any territory. I did, and I had Cuba in mind. I believed them and believe now that I is too mean and presents too great possibilities of trouble to permit it to wander the fair resolutes out a hand for help I would stop out

Strikers Are Foraging. SHENANDOAH, Pa., Aug. 11.—Complaint was made to brigade headquartors today that strikers are foraging in the rich agricultural listricts of the Catawissa valley, north of . The life of one farmer has been threstened because he attempted to protect his property and the raids have reached such serious proportions that the farmers are preparing to take some concerted ac-tion to stop further depredation. It is not unlikely that causiry will be sent into the district tomorrow to stop the raids.

Lucien Munheck, a farmer, reported that

for some time past raids have been made on his place by parties of men. Early today he caught a man tearing out whole stalks of corp. He ordered the man off the place and as the latter was leaving he fired two shots at the farmer. The foragers do not confine themselves to stealing crops, but also take poultry.

BATTLE WITH THE STRIKERS GERMANS PROTECT INTERESTS United States Follows Suit and Will Land Naval Porce at

Porto Cabello.

WASHINGTON Aug. H .- The United States minister at Caracaa today advised the State department that the Germans Intended to land a naval force at Porto Ca-bello to protect German interests, which are threatened by the uprising now in

The minister advised that we follow suit. After a conference between the officials of the Navy department instructions were cabled to Commander Nichols of Topeka to proceed from Laguaira to Porto Cabello and to land a naval force in case of attack. Topeka has already left for Porto Cabello. Topeka will probably reach Porto Ca-

bello, which is only a short sail from La Guayra, some time today. The trouble at Porto Cabello grows out of the upristing which has convulsed Venezuela for some It is directed against President Castro and has kept the country in a state of ferment for many months. Miniater Bowen recently sent word that

President Castro was leaving for the front, with the expectation of fighting a declaive battle with the insurgents. The latter have been gathering strength at Porto Cabello. Our consul at that point sent word recently that the lives of some of the American residents, including members of his family, were imperiled, and two of the ladies of the consul's family were taken away in a government ship. Since then there has been no word of a critical condition of affairs, but the advices of today indicate that a crisis has been reached. There appears to be no question as to the right of the Gorman naval forces to land for the protection of German interests. It in no way involves the Monroe doctrine. Germany has been keeping close watch on Venezuela for some months and at one time contemplated taking a Venezuelan port in order to compel the payment of certain German claims. It was in that connection that the German ambassador at Washington, Dr. von Holleben, made inquiry of President Roosevelt and the State department as to whether such a move by Germany, for the sole purpose of collecting a claim and not for the purpose of territorial xpansion, would meet with any disfavor by the American government.

The response of the United States left Germany free to act, as the assurance that no territorial extension was intended removed the case from the operation of the Monroe doctrine. The present landing of German forces has no connection with Germany's former move against Venezuela, although the assurances heretofore given by Germany serve in the present case to show that there is no ulterior purpose behind the protection of German interests at Porte

NO EVIDENCES OF FRAUD Secretary Shaw Says Report That Treasury Has Lost Millions is Not New.

WASHINGTON, Aug. 11,-Referring to the ublished statement to the effect that the Treasury department has evidence in its possession that the treasury had lost many millions of dollars through undervaluations on pottery importations, Secretary Shaw said today that this question was not a new one. Charges of undervaluations on pottery had been made from time to time covering a number of years, and made by esponsible parties they always had been has agents at work on the other side looking into the market price of pottery and it is possible that an increase in of certain kinds and qualities may be necessary. At present there is no evidence in the possession of the government showing that it has been defrauded out of large sums by pottery undervaluations.
