

MAKING SPEAKING DATES

Chairman Lindsay Has Promise of Help
During the Fall Campaign.

MICKEY SWINGING AROUND THE CIRCLE

Adjutant General Colby Will Personally Investigate Condition of
Millard Rifles Before Acting on Report.

(From a Staff Correspondent.)

LINCOLN, Aug. 11.—(Special.)—Chairman Lindsay of the republican committee has turned his attention to the preliminary work of the speaking part of the campaign and promises soon to have some of the foremost republicans of the country engaged for service in this state. The intention of the campaign managers is to have the speaking begin about September 1, so that there will be just two months for the work before election. Several prominent members of congress have assured either the Nebraska senators or the state committee that they will gladly give their services for the contest. This afternoon Mr. Lindsay accepted the proffered services of Frank W. Collins, formerly of Lincoln, but now of Washington. Mr. Collins will likely be kept in the state during all the month of October. During his later years in Lincoln Mr. Collins was county attorney and president of the Young Men's Republican club.

Mr. Mickey this afternoon terminated a busy visit of three days at the state assembly of the Epworth league, which is now in progress at Lincoln park. He will attend picnics and reunions during the remainder of the week, making brief speeches at all of them. His itinerary as outlined now, includes a visit to Diller on August 14. He will be at Beatrice on the following day and at Union the next, August 16. On August 18 Mr. Mickey will be at Pullerton, at Franklin on August 19 and at Wayne on August 21. On Labor day he will speak at Nebraska City.

Thus far Mr. Mickey has made as political speeches and has attended but few political rallies. He is constantly moving, however, and believes that he can accomplish as much for his ticket that way as by joining the spellbinders. Later in the campaign he may do more speaking to and for the people more closely to political issues. At the Epworth league during the last three days Mr. Mickey has been the object of widespread attention. He participated actively in several of the meetings, but as an individual and not as a candidate. He regrets that his being a candidate made it necessary for him to leave the assembly before it adjourned.

Colby to Investigate Rifles.
Adjutant General Colby intends to personally investigate the condition and affairs of the Millard Rifles of Omaha before taking action on the report of the military board of inquiry, which recommended that the entire organization be mustered out of the service. The general is of the opinion that the difference may be settled in a peaceable manner. He believes he will find it necessary to relieve one or more of the officers and several of the noncommissioned officers and privates, but he will hesitate before discharging the entire company.

The members of the organization appear to be alarmed at the prospect of being mustered out of the service. Nearly every day some of them interview or communicate with the adjutant general regarding their status and practically all express the opinion that with a little assistance from headquarters the company can be reorganized upon a firmer foundation.

General Colby said this afternoon he would probably examine into the case some time next week. He will go to Council Bluffs with the governor's staff on Wednesday and may arrange to visit the company's quarters on that day or the one following.

State Veterinarian Thomas is warning stockgrowers of the danger that exists in wild grasses. "Owing to the nature of the season," he says, "wild grass is heavily grazed this year. The samples indicate as much. Some fields will be found so seriously affected that the hay will be useless unless the growth can be removed. Such grass produces three forms of disease, the most common being a very dangerous form, the circulation being impeded and resulting in the loss of toes or a portion of the tail or other members. In this form there is a distinct demarcation between the dead and live tissues. Abortion is liable to follow from the poisoning. A third form not often noticed is nervousness, causing death. Two kinds of ergot never before noticed in this section have been discovered this year. At Scribner one man lost twenty head of cattle, which seems thought had blackleg. In my opinion, they were suffering from ergot caused by mud. Nearly every pasture this year has a mud puddle in it. The cattle stand in it, the mud dries and clogs the pores, causing irritation, and when the mud cracks there come sores, which are very annoying."

Charged with Manslaughter.

The charge of manslaughter was today preferred against Ernest Viesl by the county attorney. He is the confessed murderer of George Hollinger. The tragedy occurred during a drunken brawl on the sidewalk at Eighth and M streets late Saturday night. Hollinger accused Viesl, who had been his companion throughout the evening, of stealing some of his money. He followed these accusations by an assault. Viesl guarded well from the blows of his assailant, and, being more powerful, soon had Hollinger writhing at his feet. Twice Hollinger arose and each time was knocked down again. The third time was the last, for it broke the man's neck and a few minutes later life was extinct.

Congressman Burdett has received notice from the United States Civil Service commission that examinations for the revenue cutter service will be held simultaneously in Beatrice, Grand Island and Omaha, on August 25, 26 and 27. The application for appointment must be between the ages of 18 and 35, physically sound and not less than 5 feet 3 inches in height. The salary attached to the position, which is that of ensign in the revenue cutter service, is \$200 per year. It is believed

that nine or ten cadets will be appointed from among the successful competitors in this month's examinations.

Speeches by men prominent in national political or official life will be an innovation at the forthcoming state fair. W. J. Bryan has accepted the invitation of the State Board of Agriculture to deliver an address on some farm topic and Secretary of Agriculture Wilson has given assurance that he will attend the fair, if no business of more pressing importance requires his presence in Washington or elsewhere during the fair week. Governor Jennings of Florida will be among the speakers.

Makes Campers Shiver.

Tenters at the park this morning crawled out of their tents and shivered in the cool air of the morning. They camped out with no thought of cool weather and many of them would have been pleased with the comfort of a hard coal fire.

The Back of Revelation was again the subject treated by Rev. Mr. Nielsen at 8 o'clock, the hour for bible exposition. It was a sort of continuation of his able analysis of Saturday.

At the Epworth parliament Mrs. Annie Hays Woodcock spoke on the theme, "The Junior League." Its popularity among the younger members of the church, its helpfulness and its possibilities were interestingly detailed, following which came a discussion indulged by many.

The Epworth league received its customary rolling and drubbing at the Women's Christian Union institute, the subject being handled by Prof. J. L. McBrien. He discussed the subject from a physiological, ethical and religious point of view and suggested ways in which the woman's union might work for the salvation of the world. The Lincoln Ministerial association this morning determined upon Friday, August 23, as a special day of prayer and thanksgiving. The call is not intended only for the people of Lincoln, but for all the state as well. It is recommended that sermons throughout the state be preached on the preceding Sunday.

Proceedings have been begun in court for the release of Melvin G. Hubbard from the state penitentiary. Hubbard was convicted in Knox county on the charge of assaulting Miss Jennie Porter. A few weeks ago Miss Porter was married to L. E. Craig. On the night of the wedding the bride notified Hubbard's parents that it was her husband who was responsible for her condition and not their son. She is joining in the effort to have him released. The man has served five months in the penitentiary.

The devotion of yesterday closed the Christian encampment at Bethany in music, prayer and eloquence. By unanimous vote it was decided that the encampment should be held at Bethany for the next five years. Already preparations are under way for the meeting next summer. In addition to interesting sermons yesterday was the observance of communion service, of which Edgar Price of Beatrice delivered the sermon. Chaplain McCreary addressed the worshippers last evening.

The South Nebraska Millers' association met in special session at the Lindell hotel tonight. Questions of mutual insurance of mill property, freight rates and the quality of wheat were discussed. It was agreed to have a meeting at the next five years. The association is now under way for the meeting next summer. In addition to interesting sermons yesterday was the observance of communion service, of which Edgar Price of Beatrice delivered the sermon. Chaplain McCreary addressed the worshippers last evening.

AT THE SALEM CHAUTAUQUA
Session Now in Full Swing and Hundreds Attend Assembly Program.

SALEM, Neb., Aug. 11.—(Special.)—The different departments of the Interstate Chautauqua are organized and running in full blast.

Today the Woman's Christian Temperance union school of methods was organized by Mrs. E. A. Fulton, former pastor's daughter, by Miss Nettie Snider of Leoma, Ia. The pastors' congress, woman's suffrage department, Sunday school workers' congress by Miss Jennie McMillan of Morrill, Kan.

At 11 a. m. a lecture in the interest of the Woman's Christian Temperance union was delivered in the big tent by Mrs. Eugenia St. John of Denver.

At 2:30 p. m. DeWitt Miller delivered one of his famous lectures. The man who preached Sunday and lectured today is regarded by all as a first-class speaker.

It is estimated that there were 3,000 people on the grounds Sunday. One hundred and twenty-five tents have been let up to date to camping parties.

Everything on the ground is new and conducted in a business-like manner.

One of the most enjoyable and entertaining features of the assembly is a chorus of about 100 voices under direction of Prof. Boatman.

Veterans Gather at Beatrice.

BEATRICE, Neb., Aug. 11.—(Special Telegram.)—The Southeastern Nebraska district reunion opens here Wednesday for one week and a number of veterans from different parts of the state have arrived and taken up quarters on the grounds. The Seventh United States cavalry battery will arrive here tomorrow from Fort Riley, Kan., the battery camp near Wynne tonight.

Burglars at West Point.

WEST POINT, Neb., Aug. 11.—(Special.)—Last evening in the absence of the family the dwelling of B. Mansfield on Main street was broken into and jewelry and other portable property of the value of \$200 carried off. The thieves obtained entrance through a second story window by removing the screen. There is no clue to the burglars.

Swallows Lye and May Die.

BEATRICE, Neb., Aug. 11.—(Special Telegram.)—The 3-year-old daughter of Louis Shilling, who resides near Mills this county, drank concentrated lye and may die. The child is at a hospital here receiving treatment.

By This Mark You Know Them

HOW TO FIND OUT.

Pill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains the linen it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for the wonderful cure of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle of Swamp-Root a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this advertisement in the Omaha Morning Bee. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

STOCKBREEDERS IN A TANGLE

Employees Serve Twenty Summons on the Riverside Ranch Company.

ARHLEND, Neb., Aug. 11.—(Special.)—The Riverside Ranch company, the owners of hereof cattle in America, George E. Ricker & Co., proprietors, have suspended payment.

Last week the employees, numbering some two hundred, struck because there was a month's delay in the payment of the wages. Today over twenty summons were served in suits begun by the employees for wages due. The affairs of the company are in a tangle, growing out of conflicting claims to ownership under numerous chattel mortgages.

SAENGERFEST SESSION CLOSSES

Five Thousand People Attend Final Meeting, Making Festival a Successful Record Breaker.

WEST POINT, Neb., Aug. 11.—(Special.)—The last day of the Nebraska Saengerfest was successful beyond all expectations. Fully 5,000 people were present during the day and \$1,000 over all expenses was netted by the organization. The festival was a record-breaker in all respects, being by far the best convention of this body ever held in the state.

About 1,200 excursionists arrived from Omaha at 11:30. From Norfolk 700 visitors arrived. Colonel Hank, the veteran German orator, spoke during the afternoon. The performance of the Twenty-second regiment band, under the leadership of Prof. Balchman, was excellent.

Hon. J. J. McCarthy of Ponca took in the Saengerfest and incidentally made the acquaintance of the people.

York Council Proceedings.

YORK, Neb., Aug. 11.—(Special.)—At a meeting of the city council, William Hall and pool licenses were granted to John W. Mead for one year. Druggist's permit was granted to George Moore for the balance of the year, ending May 1, in his new location. The express companies doing business in the city united in a petition to the city council to reduce the baggage taxes from \$15 to \$10. It was rejected by the council and the city treasurer ordered to collect the usual taxes of \$15 from each company.

Alleged Burglar Bound Over.

BEATRICE, Neb., Aug. 11.—(Special Telegram.)—Dorr Woodley was bound over to the district court at Blue Springs this morning for breaking into a store at that place, yesterday. He was lodged in the county jail here today.

Shoots Ducky Opponent.

NEBRASKA CITY, Neb., Aug. 11.—(Special.)—In a quarrel over a dice game Louis Price, colored, shot Nathaniel Johnson, colored, in the arm with a revolver. The shooting occurred at 2:30 Sunday afternoon.

FORECAST OF THE WEATHER

Showers and warmer Tuesday and Wednesday in Nebraska.

WASHINGTON, Aug. 11.—Forecast: For Nebraska and Kansas—Showers and warmer Tuesday; Wednesday, showers. For Illinois—Showers and warmer Tuesday; local rains Wednesday; winds shifting to fresh southwest.

For Iowa and Missouri—Fair and warmer Tuesday; local rains Wednesday. For North and South Dakota—Fair Tuesday; warmer in east portions; showers Wednesday.

Local Record.

MINING IN THE BLACK HILLS

Big Four Begins Work on Group of Claims on Deadwood Gulch.

PROSPECTORS SWAMP IRON CREEK

Many Interested in This District, Which Promises to Be Scene of Extensive Operations Next Spring.

DEADWOOD, S. D., Aug. 11.—(Special.)—The Big Four company, which owns a group of claims on Deadwood gulch, about three miles above this city, will begin work this week on the gulch. There are six claims in the group, which are located near the rich strike which was recently made on the gulch. In fact it is believed that the ore body on which the strike was made continues through the property. The new work will consist of a double compartment shaft, which will go down 200 feet on a four-foot vertical which has been opened on the ground. The principal owners of the Big Four group are residents of Hamburg, Ia.

Frank Tierney and Tex Stell, two well known prospectors, have just arrived from the Iron and Beaver creek district and say that the country there is now being over-run by prospectors and some fine ore bodies have been opened up. This district is really a continuation of the Ragged Top district and the ore which is being taken out of the country there is similar in all its characteristics to that taken out of the mines in the Ragged Top district.

There have been a number of good properties opened up and some excellent ore bodies are now in process of development. One of these properties is the Ragged Top group, on Iron creek, owned by Johnson and associates, has had a great deal of work done upon it and there are several tunnels which have been run in on ore shoots of large dimensions. The ore is especially abundant in the Ragged Top group, and will run from \$5 to \$15 a ton gold.

Close to the Ragged Top group is the Ragged Top group, on which operations have been run on the ore shoot that shows on the Ragged Top group. The ore is similar to that in the Johnson group, and is of higher values, going from \$17 to \$20 a ton. Mr. Madill was in Deadwood a few days ago and at the time made arrangements to ship a lot of supplies to his camp on Iron creek.

Other Large Claims in District.

The Spearfish and Horseshoe company both own a large number of claims in this district, which they are developing. Both companies are looking to the quartzite and both having expensive hoisting and air-compressor plants on their ground.

The Deer Creek company is also doing considerable work, having started in early on the summer to open up a large shoot of ore, which is now about 100 feet. The company has one of the largest shoots of ore so far struck in the district and its management is talking of putting up a cyanide plant to treat the product of its mines. Messrs. Chapman, Allen, Wheeler, Crothers, Bros., Evans & Pettigrew and Schneider & Nash all own good property, which they have lately begun to develop, and some of the ore bodies exposed are very large and all of them carry good values.

Nearly all of these people are already making arrangements for the winter's work and some of them have sent their supplies to the district, which in the winter time is hard to reach. Tierney and Stell left Thursday for the district, taking with them supplies for a month's stay and man to work on the property while they have just located on Iron creek. They will return at the expiration of that time and then prepare to stay through the winter on their ground.

Deadwood Business Men Interested.

Interested in the locations which they have made are a number of prominent Deadwood business men who intend to open up the ground thoroughly during the winter months and, should developments warrant, in the spring begin the erecting of a large treatment plant on the property.

Miners and prospectors who have visited the district within the last two or three weeks declare that next year it will be one of the busiest in the Hills, and the scope of extensive mining operations. It is an ideal country in which to prospect, the most of it being virgin ground, and the veins and ore shoots are to find. It is one of the best timbered districts in the Hills, and there is an abundance of water for all purposes to be had.

The United States assay office in this city Saturday shipped to the mint at Philadelphia "unassayed" bars of gold bullion to the value of \$60,000. This shipment represents the amount of gold received at the office from various sources for the first week in August. Several bars which should have arrived have not been included in the amount. The shipments from the office have been increasing in value with every month since its establishment in Deadwood.

Mining Silver-Lead Ore.

GALENA, S. D., Aug. 11.—(Special.)—J. R. Sheehan has taken a lease on the old Sheehan and a Refugio mine, and is taking out some very fine silver and lead, which he is sacking for shipment. The ore is being mined from the old workings, and while it goes very high in lead, carries but twenty-eight ounces of silver and a few dollars in gold to the ton. The percentage of lead which carries 40, 60, 80, 100, 120, 140, 160, 180, 200, 220, 240, 260, 280, 300, 320, 340, 360, 380, 400, 420, 440, 460, 480, 500, 520, 540, 560, 580, 600, 620, 640, 660, 680, 700, 720, 740, 760, 780, 800, 820, 840, 860, 880, 900, 920, 940, 960, 980, 1000.

The Sunday mine is now making daily shipments of ore, and the work is proving to be very rich, while the old mine is also proving that there is lots of good ore in the mine. A sample of the ore body taken last Thursday shows that it will average about \$40 a ton. Mr. Harris, who has a lease on the property, has recently increased his force of miners and the mine is now producing a great deal of ore daily, in addition to that which is being shipped from the old dump.

The divide between Elk creek and Bare Butte creek is receiving a great deal of attention at the present time, and some very fine prospects are being developed. The Groschen Bros. and associates of this city, who own the Ohio group of claims, have recently begun extensive work on their property.

Tennant, Hawley Ground.

Adjoining the Ohio group is the Hawley ground, which is being opened up by a tunnel, which follows along the course of the vein. The ore in this group is similar to that in the Ohio, and will carry the same values. The McGinnis ground, in the same neighborhood, has a fine showing of ore on the surface, it being possible to trace the vein almost the entire length of the property.

The owners last week started a tunnel on the Bare Butte side of the property.

THE SALESWOMAN

Compelled to Be on Her Feet the Larger Part of the Day Finds a Tonic in Pe-ru-na.

Miss Nellie Curtin, of St. Paul, Gives Her Experience.

MISS NELLIE CURTIN, 646 Pearl Street, St. Paul, Minn., head saleswoman in a department store writes:

"I have charge of a department in a dry goods store, and after standing the larger part of the day, I would get home with a dull ache, generally through my entire body. I used Pe-ru-na and feel so much better that I walk to and from the store now. I know Pe-ru-na to be the best medicine on the market for the diseases peculiar to women."—Miss Nellie Curtin.

Nothing is so weakening to the human system as the constant loss of mucus. Catarrh of the mucous membrane produces an excessive formation of mucus. Whether the mucous membrane be located in the head or pelvic organs, the discharge of mucus is sure to occur.

This discharge of mucus constitutes a weakening drain; the system cannot long withstand the loss of mucus, hence it is that women afflicted with catarrhal affections of the pelvic organs feel tired and languid, with weak back and throbbing brain. A course of Pe-ru-na is sure to restore health by cutting off the weakening drain of the daily loss of mucus.

An Admirable Tonic.

Congressman Mark H. Dunnell, National Hotel, Washington, D. C., writes: "Your Pe-ru-na being used by myself and many of my friends and acquaintances not only as a cure for catarrh but also as an admirable tonic for physical recuperation, I gladly recommend it to all persons requiring such remedies."—Mark H. Dunnell.

If you do not derive prompt and satisfactory results from the use of Pe-ru-na, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
