COMMERCIAL AND FINANCIAL Day's Market Sage in the Middle, but End is Well Elevated. HEALTHY GAINS RECORDED IN GRAINS Trading Lively and Cereal Prices Start Firm, Then Break, but Bulls Regain Hold and Values Sonr. CHICAGO, Aug. 12.—The grain markets see-sawed today, starting firm, slumping and then reacting sharply to strong closing speculative feeling were radical. This fidence by the bears in the spring wheat ndence by the bears in the spring wheat vests was the principal buil argument, the close September wheat was 1483130 september corn 3c higher and Septemonts to higher. Provisions were an exition to the general trend and, turning, closed became lower. Theat was unsettled. Strong Liverpool les on the bud weather abroad gave a lish incentive to the early trade. Winwheat receipts, however, proved heavy much of the short west covered yearly was for sale again. Seiling in good willish incentive to the early trade. Winger wheat receipts, however, proved heavy, and much of the short west covered yeaorday was for sale again. Selling in good olume began and prices slipped off rapidly intil almost ic was lost. Then came reorts of disappointing yields in the spring what country. The weather northwest was too rainy. Buying set in for the forign account. Bradstreet's reported the corid's available supply decreased by 1,300,80 bushels. Minneapolis expected stocks here to decrease 800,000 bushels. The seaord reported fifty loads taken for exort. Shorts at once covered agressively and prices jumped 2c from the low prices f the day. September opened is to set up to 194,000 kg/10½c. Local receipts were 251 caky, 10 f contract grade; Minneapolis and Duluth eported 106 cars, making a total for the hree points of 195 cars, against 49 iast seek and 256 a year ago. Primary receipts were 1,305,000 bushels. Grainst 1,176,000 ushels last year. Seaboard clearances in wheat and flour equaled 255,000 bushels. Prices in corn started strong on a fair ash demand and filling of buying orders y commission houses. Then began selling in sympathy with the wheat break. The reckly crop report was bearish and many find holders let go. Shipments to this olint were only 24 cars, yet prices sagged fi until September sold from 52%c to 61%c. heat came fresh buying by influential ouses, started principally by the wheat ally and prices reacted. Prices closed rm, 4c up at 52%c. Oats showed more consistent strength han anything a 200,000,000-bushel yield this ear and declare prices cannot hold, but at the same time the buils give the market were support the prices needs must adance. It seems impossible to get oats life up here. The cash situation today has strong. September buying was excelmit and the late strength in wheat and orn helped prices upward. Trade was usely scattered. September sold as low a second or the process of at \$10.50 and September ribs 30c own quickly. Liquidstion went on all ay. Late there The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y. Jan. | 7 5714 | 7 5714 | 7 4214 | 7 4214 | 7 5214 | a Old. b New. * No. 2. NEW YORK, Aug. 13.—There was no improvement in the activity of the trading in the stock market today, but the tone was firmer and did not reflect the disposition to liquidate on all advances, which was a feature of yesterday's market. For the most part, however, the representative stocks were neglected and sluggish.

The Gould stocks were the most conspicuous in the trading, Missouri Pacific leading in point of activity. There were heavy dealings also in all of the Wabash securities and in Texas & Pacific. The southwestern railroads are expected to gain a special benefit from the large corn crop and the winter wheat crop in that test try is also in a high average condition. The Wabash stocks were especially affected by reports of aggressive steps being taken to secure terminal facilities both in Pittsburg and in Baltimore for the use of Wabash eastern extension.

There was a fittul speculation in the soft coal stocks based upon the benefit felt by that trade as an incident of the paralysis of the anthracite trade. There were persistent rumors as well of an intention on that stock. The sottlement of the leavated railroad troubles helped Manhattan and the Goulds as a group. There was a notable show of strength in a number of the short supply of money and the large number of American bills in the market to advance the dividend rate on that stock. The settlement of the cievated railroad troubles helped Manhattan and the Goulds as a group. There was a notable show of strength in a number of the short supply of money and the large number of American bills in the market to account in the soft coal stocks helped Manhattan and the Goulds as a group. There was a notable show of strength in a number of the short supply of money and the large number of American bills in the market of the short supply of money and the large number of American bills in the market to account the short supply of money and the large number of American bills in the market to account the short supply of money and the large n Tone Becomes Firmer.
