Pointer No. 5-We introduced Gregg Shorthand into Nebraska because Pitman, Graham and Munson had served their time and were too difficult to learn. They had ceased to be valuable, except as relics. Gregg was the product of modern ideas and was constructed upon right principles. We believed it to be better than any other system. Our competitors censured us for introducing it, but how they all advertise to teach it. Because it was new and untried it contained many imperfections, but in all its crudity it was athousand times better than any or the moss-covered Pitmanic systems. We promised to use it until we found something better. This we have done, and we are now ready to make a change. We now teach Mosher-Gregg Shorthand. As the name signifies, it is an improvement upon the Gregg. By the application of new principles we obtain greater speed and legibility. We are prepared to give students the best system of shorthand yet devised. We are better prepared than ever to teach Gregg in its purity to those who want it. An examination of Mosher-Gregg, however, while convince every one of its superiority.

Pointer No. 6-On Friday night. August 20th. Prof. Mosher-Will August 20th. SOMETHING NEW!! Just out. Send for sample. Combination Door Knob and Bell. No cutting or rulning the door. Put on any door in a moment. No batteries to worry about. No springs to wind. Noth-lind to get out of order. Own your own bell. No landlord to trouble. Price and Bell absolutely guaranteed. Pointer No. 7—We have just purchased twenty-eight new Remington No. 6 type-writers for our Typewriting Department.
