

ARMY OF THE PHILIPPINES

Why the National Society is Bound to Have Prosperous Futures.

CHARACTERISTICS OF VOLUNTEER SOLDIER

He Fights for His Country and Wants to Attend to Business When There is No War to Engage His Attention.

The minute the firing ceases the American volunteer wishes to get back to his business. He shoulders a gun in his country's behalf for the moment, but when a lad he shouldered a fence picket...

He is a born defender, not a born warrior. Fighting he considers an expedient rather than a business and rank falls from him with his khaki coat.

It isn't until the volunteer gets older and sees most of those who so helped him that he succumb to a foe against which neither courage nor strategy avail that he is drawn to the few remaining.

Future of the Society.

This conceded, it is not hard to understand why the National Society, Army of the Philippines, had less than 500 veterans of the late campaign at its third annual reunion in Council Bluffs last week.

"Our future? Bright! Very bright! The attendance here was no larger than at some previous meetings, but there was manifest a growing interest in organization. Now we have our charter adopted.

"I like to see the boys get together. They are a magnificent lot of young fellows. I'm looking over their shoulders, intelligent, keen, deers!"

"And there never was an army better cared for than that in the Philippines. There were some hardships and some shortages of things, but as for anything that was endured in the civil war, simple fare, but plenty of it."

"As a West Pointer don't you sometimes sigh to soldier; don't you enjoy the Philippine campaigning?" was asked the general.

"Well, I did enjoy that experience and wouldn't have missed it for a great deal. Moreover, if there should be another war I wish to go. But now and in all times of peace I prefer civil life. I was in the engineering department, and the most of the time, they can't have a home and that isn't pleasant."

"Date of the Reunion." The constitution provides that the annual meeting of the society shall be on August 15, the date of the capture of Manila by the American soldiers, but St. Paul asked at Friday's session that the reunion next year be not held until September, and the matter was left with the executive committee.

"It seems desirable that reunions be upon the anniversaries of notable events and we have no other date nearly so important in our history as August 13. Because of this, I desire to see a new precedent established, and that is what we will be doing if we hold off the St. Paul meeting until September, but the Minnesota men present a good argument when they framed us that up to this date of August 13, because of this, in fact, in most of the state of the section, the middle of August finds men very busy and at a premium in the harvest fields. Their convenience must be considered when the committee takes up this matter of dates."

Sumner Knox came to bid the general goodbye and to congratulate him on the enthusiasm with which he had been re-elected. "Congratulations are due you Council Bluffs men," said the general, heartily. "For your success in electing me."

ORGANIZING THE CAR MEN

Street Railway Employees Have a Preliminary Meeting for That Purpose.

NO TROUBLE WITH PRESENT MANAGEMENT

Slight Differences Can Be Easily Adjusted, but Men Are Fearful of the Result of a Change of Ownership.

Two hundred or more of the 600 motormen and conductors employed by the Omaha Street Railway Company met for the first time of representatives of organized labor to meet with them in a hall on the fourth floor of the Continental block last night.

The meeting was for the dual purpose of discussing organization of the street railway employees and giving them an opportunity to contribute to the support of the 500 unorganized helpers who went out on the Union Pacific strike and who, having no full membership in the large unions, are receiving no strike benefit payments.

Both motormen and conductors are receiving a wage of 20 cents per hour, as provided for the old cable lines on Harney and Dodge streets, by the company's charter. We have never organized here nor in Council Bluffs, nor have we had any serious trouble, but this case is a matter of the matter of the company's selling out some of the boys grew fearful that the present executives would not continue in office, and as their successors might be of a different kind of men, they looked on the future with some apprehension.

Looking to the Future.

"Both motormen and conductors are receiving a wage of 20 cents per hour, as provided for the old cable lines on Harney and Dodge streets, by the company's charter. We have never organized here nor in Council Bluffs, nor have we had any serious trouble, but this case is a matter of the matter of the company's selling out some of the boys grew fearful that the present executives would not continue in office, and as their successors might be of a different kind of men, they looked on the future with some apprehension."

Complaints of the Men.

"He asked if he had any grievances, and some of us reminded him that when regular men even so much as a minute late in arriving at the barn (and we are scheduled to report there ten or even fifteen minutes before time to take out our cars) he is put at the bottom of the extra list for a full week in the yard."

Wilson Gives His Views.

Fourth Vice President Wilson of the machinists' union, who has general charge of the Union Pacific strike, was present at the meeting and talked with and to the street railway men. Outside the building two or three representatives of the striking bodies were stationed to direct any caller not familiar with the building in which the meeting was being held. One of these said: "We want the street railway men to organize for our own protection. The company's charter does not say anything about the 20-cent wage and these men should not rely on it nor be too confident of their 20 cents in the future. If they send a committee to headquarters, as requested by Mr. Tucker, the committee may get some concessions, but the company will be only playing for time. It will want to stave off organization in the hope that eventually the move will be abandoned. A committee should not be sent there until it has an organization to represent and to back it up. There are more than 600 of the car men in Omaha and about 400 more employed on the Council Bluffs and bridge lines. It was our hope to have all these organized together, as they would be a power if united."

JOURNEMEN PLUMBERS MEET

Advanced Guard for Next Week's National Convention Reaches the City.

Delegates to the meeting of the United Association of Journeymen Plumbers, to be held at the Delmonico hotel, beginning Monday and continuing throughout next week, are arriving. J. E. Mullane and wife came in yesterday morning from Minneapolis. Secretary J. W. Thiden of Chicago is expected to arrive today. The most important question to be discussed by the association will be the centralization of its work. This question was before the association at its meeting in Buffalo and was left to a committee to report at this year's meeting. The various local in the questions were to thoroughly study the question. Next of the delegates are instructed one way or the other.

Brothers Killed in Fight.

ROBERT OHL, Aug. 15.—Edward and Alexander Winn, brothers, were killed in a fight with Sam Dixon and William Butler the latter formerly a deputy sheriff at St. Joseph, Mo. The difficulty originated in a dispute made by OHL and Dixon to jump the mining claim of the Winn in the Wichita mines. Dixon was captured by posse of miners and placed in jail here, OHL escaped.

Question in Arithmetic.

MARTINGTON, Neb., Aug. 14.—To the editor of the Bee: Would you please send the following question to the editor of the columns of your paper or by letter. There has been between \$10 and \$200 bet here on the proposition that the number of delegates to the thirty-six pliers. A bet is that the number of thirty-six pliers that is who wins. —A. A. Wins.

ELKS ARE HOMEWARD BOUND

Kentucky and Saratoga Springs Delegates Stop a Few Hours in Omaha.

Elks from cities to the east are beginning to travel through Omaha on their way home from the grand lodge meeting at Salt Lake City. Seventeen of the 147 Kentuckians who were out making this city on the return trip last night and were entertained at the local clubrooms. The others of the delegation are inspecting the beauties of Yellowstone park and California. The five delegates from Saratoga

SPRINGS ALSO SPENT A FEW HOURS LAST NIGHT IN OMAHA WHILE ENROUTE TO THEIR HOME.

The Kentucky party arrived at 8:30 and was composed of Wm. Kinney, S. K. Solomon, Henry Backus, J. A. Dowling, William Newman, J. Stewart, William Hogg, J. J. J. Fitzgerald, J. E. Marrett, J. P. Hanley. These latter were accompanied by their wives. All gave the same account of the meeting: "It was the best ever held in the history of the order and George Cronk was the biggest Elk that ever was."

RETAIL MERCHANTS ORGANIZE

South Dakota Dealers Form Association for Mutual Interest and Welfare.

—SIOUX FALLS, S. D., Aug. 15.—(Special.)—The work of organizing the retail merchants of South Dakota into town and county associations, which are to be auxiliary to the South Dakota Retail Merchants' association, is being pushed under the direction of E. J. Mannix of this city, secretary of the state association, and W. H. Lewis, solicitor general of the state.

TO AWARD RHODES SCHOLARSHIPS.

—PIERRE, S. D., Aug. 15.—(Special.)—Governor Herried has received a letter from Secretary of State Hay, in regard to the necessary steps to be taken for two South Dakotians to take advantage of the provisions of the will of the late Cecil Rhodes in regard to scholarships at Oxford. From documents in regard to the matter it appears that it is the desire of the trustees of the will that those who are selected should go into residence at Oxford in 1903. Governor Herried submitted this letter to the president of the state university, the state superintendent of education and the board of regents of education.

YANKTON TELEPHONE EXECUTIVES.

—YANKTON, S. D., Aug. 15.—(Special.)—The stockholders of the Yankton Telephone company have elected officers as follows: President, Fred Schaubert; vice president, C. H. Dillon; secretary, Frank Van Tassel, and treasurer, W. H. Edmunds. The following were chosen directors: Messrs. C. H. Dillon, C. E. Dillon, W. H. Edmunds, Frank Van Tassel and G. W. Roberts. The new company will make arrangements at once to install a plant, and stock will be put in among Yankton citizens.

FIT FOR SOUTH DAKOTA POULTRY SHOW.

—MITCHELL, S. D., Aug. 15.—(Special.)—Messrs. F. J. Reimel of Tripp and M. D. Purdy, J. N. Crow and Will Scallin of this city held a meeting in this city to confer as the executive committee of the South Dakota Poultry association, meeting at Mitchell, S. D., on the 15th of August. The following were present: Messrs. C. H. Dillon, W. H. Edmunds, Frank Van Tassel and G. W. Roberts. The new company will make arrangements at once to install a plant, and stock will be put in among Yankton citizens.

ATTENTION CENTERS ON THAT POINT

Constant Movement of Shop Forces Problem for Union Factors. Forty-eight Shopmen Leave in Two Days and Officials Endeavor to Check the Strong Tide.

FEEDERS IN DEMAND.

—PIERRE, S. D., Aug. 15.—(Special.)—With the large corn crop which is maturing in the southern part of the state feeder buyers are again appearing on the market to pick up stock for their feed lots. On account of the corn failure last year, there was but little demand for this class of stock.

FIRE RECORD.

House at Grand Island. GRAND ISLAND, Neb., Aug. 15.—(Special.)—The residence of Dr. P. L. Moore, in West Lawn, a suburb beyond the fire limits, was totally destroyed last night at 2 o'clock the fire originating, it is believed, from the furnace. Insurance, \$4,250 on building and \$1,000 on contents property. The residence was one of the finest in that part of the city. But little of the household goods was saved.

STEAMSHIP TEXAS LAUNCHED.

CAMDEN, N. J., Aug. 15.—The steamship Texas, the last of the York Shipbuilding company, was launched yesterday at Camden, N. J. The vessel's dimensions are as follows: Length over all, 485 feet 3 inches; molded beam, 42 feet 6 inches; draft, 21 feet 5 inches. Displacement will be 16,100 tons and she is carrying capacity 12,000 tons.

NEW YORK REPUBLICAN CONVENTION.

NEW YORK, Aug. 15.—The republican national convention will be held at Saratoga on September 23.

NEWBRO'S HERPICIDE

INSURES SCALP COMFORT. During the summer months the minute glands of the scalp are called upon to perform an extra amount of labor. The perspiration that exudes in increased quantities must be handled promptly, as this perspiration is the vehicle for carrying out poisonous and refuse matter that would otherwise clog up the pores of the scalp, and thus greatly increase its susceptibility to the retention and development of the dandruff microbes.

When the scalp is in an unhealthy condition, and especially if the hair follicles are harboring micro-organisms, the complete elimination of refuse matter is largely interfered with. This produces that hot and feverish condition of the scalp that so many are familiar with, but that so few fully understand. When the scalp is in this condition the necessity for a safe but active germicide will be apparent to all. Newbro's Herpicide is such a remedy. It dissolves and dissipates the dry and insoluble refuse matter that clogs up the pores of the scalp. It acts as a refrigerant, cooling the feverish condition, and stopping all itching and irritation.

LADIES

Particular attention is necessary to properly care for the hair during the summer months. Ladies should wash the hair often, and practice "sun drying"—but not in a draft—whenever possible. Men should understand the harm they may do by dashing cold water on the scalp, allowing it to dry on the scalp. The minute convolutions of the true skin of the scalp increases very largely its sensibility to sudden changes, which often induce catarrhal folliculitis, and many men are either bald or losing the hair from ignorance of this fact. Hot and cold applications, if used alternately, are beneficial, but the hair should not be allowed to dry slowly without the use of a suitable stimulant. Newbro's Herpicide contains the exact quantity of alcohol that is necessary to properly stimulate the capillary glands of the scalp, and keep them in a healthy condition. This subject is certainly worthy of serious consideration. Baldness will never be popular; it is always inconvenient, and by exposing the head often induces a train of ills that would otherwise be avoided. Prof. Unna's discovery that falling hair and baldness are caused by a microbe, has been verified by every dermatologist of note in the world. Dr. Sabouraud, who succeeded in inoculating the microbe of baldness, says: "Baldness is a contagious disease caused by a microbe. So far from being a disease of old age, it is an affection of youth. It begins in the young, and increases, whether rapidly or slowly up to the fiftieth year." If you are losing your hair you are certainly interested in this subject, and you cannot begin too soon the work of undoing the injury that it may have taken years to accomplish. Our remedy

DESTROY THE CAUSE--YOU REMOVE THE EFFECT.

About a year ago my hair began to fall out in great quantities. My scalp was covered with dandruff so every time I combed my hair the dandruff came down like snow. Have tried all kinds of so-called hair vigors and hair tonics, but without deriving any benefit therefrom, until I began using your Herpicide. I have scarcely used one bottle of your preparation, and since its use the dandruff disappeared, the hair does not fall out any more, and it seems to grow nicely with a bran new crop. I am well pleased with Newbro's Herpicide, and the praise that I have for it cannot be over estimated. I do, and will recommend it to everyone that is in need of such a preparation.

GET A SAMPLE DIRECT FROM THE FACTORY.

PRIMARY BALDNESS CURED. "Sometimes ago all my hair came out, and my scalp had the itching and burning like chronic baldness. On April 15 I purchased a bottle of Newbro's Herpicide, and exactly twenty days after, I had a quarter of an inch long, and as thick as one could desire, and today my hair is as thick and luxuriant as anyone could wish." (Signed) F. MUELLER, Butte, Mont.

DIETRY

CUT THIS OUT. I inclose 16 cents in stamps to pay postage on a sample of Newbro's Herpicide. Name..... Street and No..... City and State..... Address The Herpicide Co., Detroit.
