Reports of Officers and Committees Come Before the Convention.

SOME RADICAL REFORMS ARE PROPOSED

Thomas Flynn of Omaha is Asked to Stand for the Presidency of the Association, but Keeps Out.

Yesterday morning's session of the United Association of Plumbers, Gas and Steam Pitters and Steam Pitters' Helpers was attended by more than 100 delegates and was given over to the reading of the reports of the president, the secretary-treasurer and the auditing committee, which reports were referred to committees to be reported back later for final action. Some radical changes were recommended and will have to be given considerable thought before decided upon.

In the afternoon the report of the nationalization committee selected at Buffalo a year ago was read. The plan recommended is almost a revolution in the retary-Treasurer Thomas Burke, once an of especial interest, replete with statistical

Flynn Suggested for President.

Another Omahan is figuring prominently new in an executive way. Thomas Flynn, present jail custodian, could have the presidency of the association, judging from talk about the hotel, but cannot accept because day committees called on him to urge him acts will be among the many attractions, to enter the race as a candidate for the chair, but he had to decline. New York was with him and he had other delegations which were against him last year, when he was defeated for the office by only two At Monday afternoon's meeting, after the mayor had spoken, Mr. Flynn was called on and for five minutes sprayed the audience with a superior quality of "jelly." The election of officers probably will occur Friday.

President Merrick's Suggestions. In his address President Merrick said:

At the twelfth convention, held in Buffalo, a committee on nationalization was appointed and empowered to present a complete beneficial system, based on the equalization plan and adapted to the needs of our rapidly growing organization. I desire to call your attention to the report of this committee, embodying the piatform and system which will be presented to you for your most earnest and careful consideration. The rapid and large growth of our association in recent years demonstrates that we have long ago outgrown the present system and that we should adopt a complete constitution in line with the foremest of international unions.

During the past year gratifying progress In his address President Merrick said:

During the past year gratifying progress has been made by a large number of our locals eliminating the helper and the establishment of a proper apprentice system. The good work accomplished should be given encouragement.

We find that our trade as well as others has been rapidly branching out into hith-

has been rapidly branching out into hith-erto unknown fields, so I would recom-mend that a special committee of five be appointed to present proper rules govern-ing trade jurisdiction for the considera-tion of this convention.

his report said: "The year has been pro- of the depot grounds and then ran away lific in strikes and industrial turmoil, but with her hand satchel, which contained her It must be said to the credit of the gen- ticket and \$20.15, all the money she had. eral labor movement that more successes. The company carried her on to the coast, have been recorded this year than have but she alleges that she suffered great menbeen secured during any other known per- tal anguish by reason of being among stran-10d in the history of the labor movement." Spencer comes out flatly on the matter of appeals for aid. He said:

Spencer on Appeals for Aid. The frequency with which appeals for aid The frequency with which appeals for ald are being circulated throughout this country is a subject worthy of consideration at this convention. Undoubtedly the great majority of those appeals represent a worthy cause and are only sent out as a last resort, in order to properly finance the distressed local during the period of the existing trouble. Nevertheless there are any trouble. Nevertheless there are many that take advantage of the generosity of sister unions when there is scarcely

ity of sister unions when there is scarcely occasion for an appeal.

It would appear as though the time had come when some restriction should be thrown around this means of rendering financial aid, for an increasing number of appeals is bound to breed general discontent in time and there is already sign of discontent on that score.

It should be our purpose, too, to minimize the number of strikes to the relative propertion of our financial and moral strength, thus insuring ourselves against loss in any of our ventures and steadily if slowly raising the standard of our trades.

It is my opinion that the executive board should be instructed to sanction no strike unless the conditions in the district of the other locals are correspondingly equal to her locals are correspondingly equal to one of the local that intends to present

By far the better way would be to repose the power to order a strike in the hands of the board or other authority, so that the wages, hours and other conditions of the adjoining locals could be made to correspond as near as possible with one another strike could be sanctioned that would be out of all accord with the general prevailing conditions in the particular district where such approval is solicited.

A. H. Sproul, who was recently selected by the Board of Education to have charge of the commercial work at the High school, has declined the position and will remain at Elgin, Ill., where he has been engaged in teaching for the last five years. The salary offered Prof. Sproul by the Omaha board was greater than he had been received.

Must Fight Injunction Abuses. Whenever we hear of a strike of any proportion today we may look for a consequent resort to the courts by the employers for an injunction, or, to strip it of its harshness, a modern restraining order.

The labor movement will be called upon to fight the privilege of the employer to use the courts to protect the scab and defeat the union man before long. The issue must be met some time, for we are today living under a veritable form of government by injunction, and I urgently recommend that the delegates to the next convention of the Federation of Labor be instructed to use every means that can be employed to have that body fight the injunction to the highest court of the land. Our locals generally are in a flourishing condition and a gratifying improvement has shown itself throughout the entire country in our trades.

L. W. Tilden, secretary-treasurer made

L. W. Tilden, secretary-treasurer, made a report which included the following show-

On June 20, which is the end of our fiscal year, we had 14,789 members, an increase over last year of 2,887 members. One year ago we had 280 local unions; this year we have 339 local unions, which is an increase over last year of fifty-nine local unions.

alons. Four locals have seconded and sixteen ave lapsed, but in all cases of lapsed ocals their charters have been relasued to their cities, with the exception of one ase (Atlanta, Ga.), where the local reganized and a new charter was returned. The number of propositions submitted to

PLUMBERS ARE GETTING BUSY the executive board last year was 285; this Recommend Important Changes.

The auditing committee made recom-

mendations as follows:

Pirst, and most important, that the system of finances—that is, the laws surrounding revenue—be changed so as to reduce the amount of bookkeeping and correspondence that is at present necessary, and that a rigid system of reporting be also adopted. Second, that the term of office of the secretary-treasurer be made at least two years, and that his salary be made not less than \$1,800.

Fourth, that the books and accounts of the United association be audited reminantually in place of annuality in the future, and that an auditing committee he appointed by the general president, with the approval of the general executive board, they to meet at the general office to perform their duties and in no case to remove the books, accounts or records therefrem without approval of the board, their expenses to be fixed by the general executive board.

be introduced favoring holding the conventions only biennially and giving the president the additional title of organizer.

WEDNESDAY WAGNER NIGHT.

The First of the Series of Composers' Nights at Courtland Beach.

Another big program has been prepared for the usual big Wednesday night Courtassociation's transactions. Auxiliary Sec- land beach attendance. The management, realising that the season is rapidly draw-Omahan, is on the committee and will be ing to a close, has determined to give one of the most ardent champions of the patrons unusually strong daily attractions, new plan. He has traveled extensively in and Wednesday night opens the series of the United States and in Europe and mem- composers' nights with Wagner selections. bers say that they expect his talk to be one Among the numbers will be "Taunhauser," "The Ride of the Valkyries," "Die Meistersinger," "Niebelungen," "The Love Feast of the Apostles," etc. The colored male quartet of Georgian Serenadera will give their usual recitals of new southern melodies, while the revolving ladder performances of Frisco and Faust will amuse patrons for half an hour. The balloon ascension with parachute leap will take place of his present duties at the jail. He was just before dark and Tony Faust will give elected first vice president two years ago his slack wire and balancing performance and fifth vice president a year ago. Mon- at 8:45 o'clock. The pendulating perch all of which are free to beach patrons.

Cholera Morbus. This is an extremely dangerous disease. In almost every neighborhood some one has died from it, and in many instances before a physician could be summoned or medicine obtained. Mrs. E. H. Delano of Durant. Mich., is subject to severe attacks of cholera morbus. During the past four years she has kept at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and says it has always given her quick During this time she has used two relief. This remedy can be depended upon in the most severe and dangerous cases. The safe way is to keep it

AFFAIRS AT SOUTH OMAHA

Bids on Addition to Lewell School Building Are Called For.

ESTIMATES ON THE COST DO NOT AGREE

President Miller Thinks the Improvement Can Be Made for \$6,000, but Architects Roughly Estimate Cost at \$8,000.

Bids are to be advertised for the contruction of a four-room addition to Lowell school. This building is to be of brick and will entail an expenditure of several It is understood also that a resolution will board says that the addition may be built thousand dollars. President Miller of the This statement does not coincide with the estimates of architects who were requested to give offhand estimates. It is figured that the four rooms will cost not less than \$8,000, and then there will be the furnishings. These will amount to not less than \$2,000 more, making the total cost \$10,000.

Only a year ago Superintendent McLean reported to the board that with the buildng of the Whittier school, across the Burington tracks, there would not be any need of any addition to the Lowell school. The members of the board, however, seem to differ from the views of the superintendent and have gone ahead and instructed the

secretary to advertise for bids. Some say that the school census recently taken does not warrant the addition of any rooms to the Lowell school, and it may be that the board may find it to its advantage to refuse all bids when the time comes. With the rooms now under construction it is asserted by certain members of the board that there will be ample room for all pupils without going to the expense of building a \$10,000 addition to the Lowell school.

City Hall Rumors, Late yesterday afternoon it was talked about the city hall that members of the Taxpayers' league had selected a man for the position of street foreman. The report was that Mayor Koutsky had consented to the appointment of any man the league might name. All that seems to be sired. wanted by the mayor and the members of the league is a man who is thoroughly competent to handle the street force and will not be antagonized by the labor unions of South Omaha.

To Prevent Accidents.

Yesterday the Cudahy company and the Omaha Packing company completed the rection of an eight-foot fence at the eastern terminal of their yards. For years past employes of the companies have been using the railroad tracks instead of going o work through the usual route and the fences, it is said, will tend in a great measure to prevent accidents. Fences have also been built about the Armour railroad yards for the same purpose.

New Sanitary Rules.

Inspector Jones and his force of men were at work yesterday putting up signs regarding the dumping of garbage. A fine of \$10 will be assessed against any person found dumping garbage on any vacent lot or on the sandbars. All garbage must be dumped day. A movement is on foot to carry out Mayor Koutsky and the street and alley committee a good road to the river is now opened, and all those who desire to dump

Repairing Twenty-Fourth Street. The men employed by the paving company

Securing Homesteads.

Fred Dientsbier and a number of friends beach were well patronized. The upper left last night for Chamberlain, S. D., with floor of the Kursaal is nightly crowded with the intention of taking up land on the Rosedinner parties from Omaha and South bud Indian agency. Dr. McCrann and Omaha, many of the men going direct others have just returned from the agency, there for one of Steward Clevering's fish and they said that they secured desirable dinners. Among those who took dinner property. Since the return of the first party there last night were Mr. Henry Sussmann interest in the securing of lands in the north has been awakened and South Omaha These moonlight nights the lake is alive people are pushing to the front, and will, if permitted, take up considerable land before all is sold.

Beal Setting Stakes.

City Engineer Beal was busy yesterday setting stakes for permanent sidewalks in the northern part of the city. Stakes were set on the east side of Twenty-six street from D to E street and in a number of A. H. Sproul, who was recently selected other localities in the neighborhood. There seems to be a desire on the part of property owners to lay permanent sidewalks as rapidly as possible, whether in the district laid out by the council or not.

Milo Leaves Armour's.

Last evening George Milo, manager of the wholesale market for the Armour company, notified General Manager Howe that he would leave the service of the company on Saturday of this week. Mr. Milo has been with the Armours about nine years. It is understood that he will go west and engage in business for himself.

REPUBLICAN CLUB MEETINGS New Roosevelt Club and Sixth Ward Organization Hold Business Sessions

The second meeting of the Roosevelt club of the Sixth ward was held at Idlewild hall last night and permanent organization effected by the election of E. C. Wolcott as president, J. J. Van Wie as secretary, Joseph Merrill as vice president and J. J. mith as treasurer.

After the election of officers a committee consisting of Theodore Johnson, W. R. Homan and George Ostrom was appointed formulate constitution and by-laws, to port at the next meeting. Upon recomendation of the hall committee it was decided to hold regular meetings each Saturday night at Idlewild hall. The committee on uniforms asked for further time in which to prepare a report.

It was decided that an executive committee of two persons from each voting precinct in the ward be formed and that the committee be selected at precinct meetings to be held during the week and the names reported to the club at its next meet-

Considerable discussion having arisen as to the object of the club, a committee con-sisting of H. H. Claiborne, W. R. Homan, Theodore Johnson, W. R. Smith and President Wolcott was appointed to prepare resolutions, to be presented to the club at the next meeting for approval, to set forth to the public the object of the club.

The secretary reported an enrolled membership of about 225 at this time, with the list of prospective members still greater. The club adjourned to meet Saturday night at 8 o'clock.

The Eighth Ward Republican club held a largely attended meeting at Wolf's hall, Twenty-second and Cuming streets, last night. No political speeches were made, but the session was devoted to making arrangements for the annual business meeting which is to be held next Tuesday night at the same hall. The election of officers and other important business will come before the club at next week's meeting and a full attendance of the members is de-

RUSHING WORK ON PAVILION Carpenters and Electricians Are Putting In Day and Night

on Structure.

The carpenters and electricians are working night and day at the musical festival pavilion to have it completed in time for the opening concert Thursday evening. The large sounding board over the stage is finished. There is considerable difficulty in securing suitable acoustic properties in a tent, and while the musical festival committees have been fortunate in former seasons, there is always more or less doubt as to how the board will work. The stage has been made deeper this year than formerly, as there are more men in the

The women who have secured concessions for their societies are busily engaged in making preparations for the opening booths. A number of the local florists have united to contribute cut flowers to the feetival committee and these will be to be added to the auditorium fund.

The programs for the first ten concerts have been received and there is not a "ragtime" concert in the number.

JOLIET CLAIMS SHEVELIN Omaha Police Inclined to Hold Him for Penticutiary Service in Nebraska.

Chief of Police Donahue yesterday received a telegram from Warden E. J. Murphy of the Joliet penitentiary, requesting him to hold Mike Shevelin, alias Martin Simms, with the announcement that Shevelin is wanted there for defaulting his parole. Shevelin is the man who shot five times at Patrol Driver Wilson in an attempt to escape from the officers last Saturday. He was sent to the Jollet penitentiary in 1898 on a charge of larceny. From Chief O'Neill of Chicago Chief Donahue received a telegram that Shevelin has served four months in jail there for committing an assault with intent to kill. It is tikely that the Omaha police will not turn Shevelin over to the Joliet authorities, as they believe they will be able to send him to the penitentiary from here.

KRUG PARK.

Huster's Band Gives Another Rag Time Concert Tonight.

The amusement event de resistance for Omaha's summer resort patrons today will be the ragtime concert by Huster's superb band at Krug park, it being dietinguished as the most fashionable of the summer's entertainments. The program will be composed of twelve of the latest and most popular coon melodies. Huster and his men have been as careful to rehearse and be well up with this class of music as they have with the classics, so that they are of a standard that makes the band court comparison with these events as given by Bellstedt. In order to handle the crowds with facility the extra cars on the Fifteenth street line will be run from Howard street north, making two car lines running to the entrance.

(ISSUED UNDER AUTHORITY OF THE RAILROADS OF NEBRASKA.)

BANKING INTERESTS OF NEBRASKA

Statement showing the capital, surplus, deposits and loans made by the banks of Nebraska, compiled from their report for

Capital Surplus Deposits Discounts 10 National Banks, Omaha\$ 3,650,000 \$ 714,080 \$13,508,620 \$14,855,380 1,819,020 23,237,050 3 State Banks, Omaha 750,000 139,400 311,530 663,910 538 State Banks, in State 6,548,031 1.780.892 27,369,500 20,651,534 60 Private Banks, in State 899,000 298,672 8,692,520 2,973,440 \$4,752,064 \$72,184,870 \$62,381,314

Adding capital and surplus together, we have a gross [amount of \$22,645,695 banking capital in the State of Nebraska, and the banks carry a line of deposits amounting to \$72,184,-870.00. Out of these amounts are loaned \$62,381,314.00 to customers, and as the legal rate is 7 per cent and the going country rate 10 per cent, the receipts of the banks from interest account alone should aggregate \$5,000,000.00.

The laws of Nebraska provide with other things for the regulation of banks, the following:

"Such capital shall be in money, commercial paper, bank furniture, and the bank building and ground on which situated, which ground shall be unincumbered, but in no case shall the bank building and ground, together with furniture and fixtures, exceed in value one-third of the paid-up capital. * * * * Every stockholder is liable for debts accruing during his ownership of stock, for an amount equal to the paid-up value of the shares held, and all shares of stock are assessed in the place where the bank is located, whether the owners thereof reside there or not, and taxes are a lien upon the stock. Every bank shall keep a correct list of names and residences of all stockholders, with the amount held by each, for the inspection of stockholders' creditors, and taxing officers."

The capital stock of the State banks amounted to \$7,298,081, which with their surplus of \$1,920,292 gave an aggregate of \$9,-218,323, of which but one-third could be invested in real estate

Assuming that everyone of the 541 State banks used up the legal amount allowed for building, ground and fixtures, it would still leave them \$6,145,549 loanable funds, and county after ounty fails to account for any at all. To cover every contingency of double taxation, let us deduct

from the \$22,645,095 capital and surplus of banks one-third for possible real estate holding, and there is a balance of \$15,097,-397, money of bankers and brokers subject to tax. In regard to the item of credits of bankers and brokers, the fact that the \$38,092,430 loaned by National banks cannot be loaned on real estate or chattel mortgages makes it naturally

belong to this form of credit, it being loaned either on collateral

Of the \$24,288,884 loaned by state and private banks, it is no nore than fair to presume that one-half of this amount is leaned

on joint paper or on notes with collateral attached and not on mortgages, leaving \$12,144,442 bank credits in this class of loans to be considered.

Thus it appears that there are \$48,256,872 of bank credits in the State of Nebraska.

Regarding the stocks and bonds which have been returned for taxation, there is no way of determining what is meant by the returns. The banks of Omaha alone report to bank authorities that they hold the sum of \$3,050,400 in bonds and stocks, but in this matter in case these bonds are government bonds or have been issued by companies owning property in the State of Nobraska, which is already taxed, it would not be proper to tax them again. However, it would appear that if there were any stocks and bends in the state, they certainly should amount to much more than \$95,676.

The foregoing figures show great prosperity, and material wealth and it is confusing to note the amounts returned for taxation in the State Auditor's report.

The Auditor's report for 1900 gave the following figures as the amount reported for taxation by the banking interests of the

Moneys of bankers and brokers \$677,639 Credits of bankers and brokers 257,988 Bonds, stocks and warrants 95,676

While this is a remarkable showing, the localization of these credits is amusing. Otee county reports \$68,674 moneys of bankers and brokers, while Douglas county returns but \$9,225, and Lancaster county but \$18.643. It would thus appear that Nebrasks City is the banking center of the state, according to the

amount returned for taxation, The next item is fully as ridiculous when it is discovered that Wayne county reported \$87,745 as the credits of bankers and brokers, while Douglas county reported but \$4,582 and Lancaster

but \$3,536. In the ownership of bonds and stocks and warrants we find Saunders county leads with \$11,007, while Douglas reported \$755 and Lancaster \$750.

The returns of banks for taxation confirms the figures given on returns of personal preperty in the atree, i. e., about 4 per

To aummarine the back taration for the State of Nebreska it reads as follows:

Oredits of banks 45,235,872 ... Returned for taxation 257,098 dr .3 of 1 per cent

Banks Pay 2 3-10 per cent of Net Earnings for Taxes in Nebraska. Railroads Pay 10 6-10 per cent of Net Earnings for Taxes in Nebraska.

Littie Electric Wonder Price \$10. Cures Hay Fever, Catarrh, Asthma,

Deafness.

Failing Sight, also form of disease of the eye, ear, ad, nose or throat. No cutting or drugging. It is a perfect Electric Battry adapted for local application.

The Actina treatment restores perfect blood circulation to the affected parts, thus curing catarrh in its worst forms, deafness, throat affections of every character, weakness of voice, chronic neuralgia and all eye diseases. With its use hay fever is an impossibility.

Its prime success is in the restora-ion of blood circulation, the lack of which is the primary cause of all disease.

The price (\$10) may seem high to those who have not used it, but remember that \$10 goes a short ways in experiments with other remedies, operations, etc. After which you have nothing but disappointment. But who hesitates to pay \$10 for a cure.

A cure is what "Actina" gives you. Call or write for 100-page book, free.

THE ACTINA CO., Furny & McArdle, Agents, Rooms 22-23 Arlington Block, 1511 Dodge St., Omaha,

"Would Change Her Clothes."

A lady customer in our store a few days ago asked our price on a staple patent medicine, and noting that it was so much cheaper than any place in town, she wanted two bottles. We told her we would sell only one bottle at that price to a customer but would give her or anybedy else any additional quantity at \$3.00 per dozen—which was wholesale. "WELL." she said, "ILL TAKE ONE—AND GO HOME AND CHANGE MY CLOTHES AND COME AND GET ANOTHER—SO NOW."
